Private Lessons

Campers will have the opportunity to take a half-hour private lesson with a camp staff member or San Jose State University faculty member (depending on availability). Once we have all the requests for lessons, the person administering them will contact each camper (usually on Monday or Tuesday of camp week) to set up a specific time during camp for their lesson. Because time is so limited, please do not initially request more than one lesson. If the instructor has more time during the week, they can arrange other times during camp.

**Please be prepared to pay the private lesson teacher with cash or check at the time of the lesson**

☐ I am interested in having one half-hour lesson for $20, payable to the instructor at the time of the lesson.

Camper’s name:____________________________________________________________

Instrument:____________________________________________________________
