Chapter 1. Welcome and Purpose of this Handbook

Thank you for your interest in the Department of Nutrition, Food Science and Packaging (NuFS/PKG) at San Jose State University (SJSU). It is hoped that this handbook will answer most of your questions about the Didactic Program in Dietetics (DPD), and the possible career paths open to you following graduation with a degree from SJSU. We have made every effort to provide complete and accurate information in this handbook, but university policies often change. Please note that department policies are always subordinate to those described in the general SJSU catalogue found at: http://info.sjsu.edu/home/catalog.html

There is great interest in the fields of nutrition, food science and packaging. A career in nutrition, food science or packaging is for those interested in health, as well as those interested in the scientific, environmental, and/or commercial aspects of nutrition and food. Dietitians and nutritionists, food scientists, foodservice managers, and packaging specialists are professionals who may apply the science of nutrition, food and/or packaging in the following ways:

- By advising individuals and families to select foods that provide optimal nutrition for health promotion and disease prevention throughout their lives;
- By planning and managing the preparation and service of food;
- By developing and implementing nutrition education programs;
- By working in a management, research, or quality control capacity in a food or packaging industry;
- By managing community nutrition and food programs;
- By directing foodservice systems;
- By educating professionals and community members in nutrition, food science and packaging.

The need for proper nutrition, food manufacturing, and food handling means the demand for specialists in these areas will increase. The NuFS/PKG Department at SJSU will help prepare you for a rewarding career.

Who to go to for help

Most questions can be answered by carefully reading through this handbook and by viewing information on the SJSU website (www.sjsu.edu) and the department website (http://www.sjsu.edu/nufspkg/). However, if you find that you still have questions that are specific to the NUFSPKG department, here’s what to do.

- Ask a graduate student assistant for help. Their hours and contact information is posted at http://www.nufs.sjsu.edu/pdf/advising.pdf.
- Visit the NUFS department office in CCB 200, or email Leah Olaivar at leah.olaivar@sjsu.edu.
- Contact the Department Chair, Ashwini.Wagle@sjsu.edu.
Chapter 2. San Jose State University

History of the University
San Jose State was founded in 1857 as Minn's Evening Normal School to prepare teachers. In 1870, it moved to San Jose and the name was changed to California State Normal School. In 1921, it became known as California State Teachers' College. As academic programs expanded into areas other than teacher education, the name was changed to San Jose State College. University status was granted in 1974 as the result of academic excellence in many diverse subject areas. Today, SJSU offers baccalaureate degree programs in over 77 majors housed in seven colleges. SJSU attracts students and faculty from throughout the United States and abroad. The varied programs and departments are recognized for their quality and leadership.

San Jose State University is one of 23 campuses in the California State University (CSU) system. SJSU is the oldest public institution of higher learning in the state. The campus is located at the southern end of San Francisco Bay in downtown San Jose (population 923,000) in the center of world-famous Silicon Valley. Many of California's most popular natural, recreational, and cultural attractions are nearby, including the redwood forests, Napa Valley wineries, the Santa Cruz beach boardwalk. Soon, the San Francisco 49ers will call Santa Clara their home. The University enrolls approximately 30,000 students.

Accreditation Status
San Jose State University is fully accredited by the Western Association of Schools and Colleges and the California State Board of Education.

Admission to San Jose State University
Students wishing to apply for admission to San Jose State University can learn all about the application procedure online at http://info.sjsu.edu/static/admission/undergrad-admission.html. The website provides current deadline dates for application.

Applying as a Freshman
Freshman requirements are described here: http://www.sjsu.edu/freshmanadmissions/

In summary, to qualify for admission to SJSU as a first-time freshman, you must be a high school graduate with satisfactory results on the ACT and/or SAT tests, have a satisfactory grade point average, and have completed (with grades of C or better) the courses in the comprehensive pattern of college preparatory subject requirements (English – 4 years, Mathematics – 3 years, U.S. History and Government – 1 year, Science – 1 year with laboratory, Foreign Language – 2 years, Visual and Performing Arts – 1 year, Electives – 3 years).

Applying as a Transfer Student
No college freshmen, sophomores, or applicants seeking a second bachelor's degree will be admitted. If you are transferring from a community college or another 4-year institution, you will qualify for admission to SJSU with a grade point average of C (2.0) or better in all transferable units attempted, and with good standing at the last college or university attended. Students must also have completed 30 semester units (45 quarter units) of general education, including four basic skills courses (e.g., oral communication, written communication, critical thinking and college-level mathematics of quantitative reasoning, with intermediate algebra as a prerequisite) with at least a C or better grade in each basic skills course.
Please see: http://info.sjsu.edu/home/admission.html

SJSU Impaction Information

State funding for the entire California State University system, which includes San Jose State University, has been severely cut to help balance California’s budget. Due to these changes in the state budget situation, SJSU cannot serve as many students as it once did. This means SJSU is an impacted campus and will no longer have the enrollment capacity to accept all CSU eligible applicants, including some from local high schools and community colleges. Although you may meet the minimum CSU admission requirements as an applicant, you are not guaranteed admission. Please read the information regarding impaction here: http://www.sjsu.edu/admissions/impaction/

Change of Major to BS Nutritional Science Degree

Due to impaction, the department may not be able to accommodate all students who wish to transfer into the department. Please read important information about the criteria for change of major to the BS Nutritional Science Degree here: http://info.sjsu.edu/web-dbgen/catalog/departments/NUFS-section-2.html

Educational Opportunity Program

SJSU has an Educational Opportunity Program (EOP) for undergraduate students who are disadvantaged because of economic or educational background. The academic preparation of foreign students is also assessed. For further information regarding admission requirements, see http://www.sjsu.edu/eop/ call the EOP office at (408) 924-2637 or email eop@sjsu.edu.

Graduation Requirements

Residence Requirements

For all bachelors’ degrees, a minimum of 30 units in residence at SJSU must be earned. Of these, 24 units must be earned in upper division courses, and 12 units must be in the major. Extension credit or evaluation may not be used to fulfill any of the 30 units.

Upper Division Requirements

At least 40 of the total units required for graduation with the bachelor’s degree must be upper division, which are courses numbered 100 or above at SJSU and courses from other universities clearly designated as junior or senior level courses. Except under unusual circumstances, freshmen and sophomores are not encouraged to take upper division courses.

Unit Requirements

A total of 120 semester units must be earned for graduation with the baccalaureate degree in Nutritional Science. No more than 6 units of Individual Studies (NuFS 180) may be counted for the baccalaureate degree. Exceptions require approval from both the department and the college dean.

General Education (GE)

Every student who earns a baccalaureate degree at SJSU must complete 51 units of GE. A maximum of 39 units of GE courses may be transferred from previous institutions; 9 of the remaining units must be in upper division San Jose State Studies (Advanced GE)
taken at SJSU. Some dietetic coursework satisfies GE requirements (courses which satisfy the GE requirements are listed in the Schedule of Classes each semester). All courses taken for GE credit must result in a letter grade; Credit/No Credit grades are not permitted unless the student earns the grades by examination. Since NuFS /PKG Students complete 15 units of science they are exempt from having to take 6 units of GE science Area B-1 and B-2.

General Information about the NuFS/PKG Department

The NuFS/PKG Department at SJSU was the first nutrition department in the CSU system. Both baccalaureate and Masters degrees in Nutritional Science are offered. (Information about the MS program can be found in the graduate handbook available from www.nufs.sjsu.edu.)

The Bachelor of Science (B.S.) program in Nutritional Science integrates the principles of chemical, biological, and social sciences. The program offers three concentrations: 1) Dietetics, 2) Applied Nutrition and Food Sciences, and 3) Food Management. The department also offer a Bachelor of Science program in Packaging. Overall, the program prepares graduates for careers as dietitians, food scientists, foodservice managers, packaging professionals, and environmental health specialists, for work in educational institutions, hospitals, nutrition and food research laboratories, businesses and industries, and in the community and for government.

The academic concentration in Dietetics [known as the Didactic Program in Dietetics (DPD)] is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND), 120 South Riverside Plaza, Suite 2190, Chicago, IL 60606-6995; Ph. 800/877-1600, ext. 5400, https://www.eatrightpro.org/acend

Department Mission Statement

The Department of Nutrition, Food Science and Packaging at San Jose State University offers curricula and professional development for students pursuing careers as nutritionists, dietitians, food scientists, foodservice professionals, environmental health specialists, and packaging technologists. Positions occur in community settings, educational institutions, hospitals, nutrition and food research laboratories, foodservice establishments, government agencies, business and industry.

The department is committed to providing its majors multi-cultural perspectives, and students, faculty, and staff gain from an environment rich in diversity. Ethics, critical thinking, and skills in communication are stressed. In addition, the department offers General Education courses that provide a fundamental understanding of science, nutrition and food to non-majors enrolled at San Jose State University.

The department’s programs emphasize theory, as well as the application of, theoretical knowledge and technology. This is accomplished through research in the community as well as in the laboratory. Involvement in professional supervised practice and community activities strengthens the application of the research theories. Faculty research is encouraged to support teaching and professional development.
Undergraduate Courses Offered

See the Appendix and the SJSU course catalogue for course descriptions.

- Advanced Nutrition
- Aging and Nutrition
- Catering and Beverage Management
- Chemical Analysis of Food (with lab)
- Community Nutrition
- Complementary & Alternative Health Practices
- Culinary Principles and Practices
- Cultural Aspects of Food
- Current Issues in Nutrition
- Disordered Eating & Nutrition Therapy
- Entrepreneurial Nutrition
- Field Experience
- Food Chemistry
- Food Culture: Consuming Passions
- Food and Nutritional Toxicology
- Food Evaluation and Techniques
- Food Packaging
- Food Processing and Packaging I
- Food Processing and Packaging II
- Foodservice Production Management
- Food Science
- Foodservice Systems Procurement and Management
- Food Toxicology
- Food Process Engineering
- Health Issues in a Multicultural Society
- Hunger and Environmental Nutrition
- Nutrition in the Life Span
- Individual Studies
- Internship in Foodservice Management
- Introduction to Human Nutrition
- Medical Nutrition Therapy A,B
- Nutrition and Metabolism
- Nutrition Education and Counseling
- Nutrition for Sport
- Nutrition for the Health Professions
- Nutrition Laboratory
- Packaging Materials I and II
- Packaging for Medical Devices & Pharmaceuticals
- Packaging Machinery Systems
- Protective Packaging Design & Testing
- Packaging Material Handling and Distribution
- Packaging Developments and Management
- Physical Fitness and Nutrition
- Principles of Packaging
- Solidworks
- ArtiosCad
- Professionalism in Nutrition, Food Science & Packaging
- Sanitation & Environmental Issues
The Faculty of the NuFS/PKG Department

Faculty take a genuine interest in their students, teaching and research, making the educational environment enjoyable, interesting and stimulating. There are 12 full-time faculty and 27 part-time faculty

**Assistant Professors**
- Xi “Alex” Feng, Ph.D.
- John Gieng, Ph.D.
- Jamie Kubota, M.S, R.D.
- Colette LaSalle, Ph.D., R.D. (DI Director)
- Xiaojing “Kate” Liu, Ph.D.
- Giselle Pignotti, Ph.D, R.D. (Graduate Coordinator)
- Adrianne Widaman, Ph.D., R.D.

**Associate Professors**
- Kasuen Mauldin, Ph.D, R.D.

**Full Professors**
- Marjorie R. Freedman, M.S., Ph.D.
- Clarie B. Hollenbeck, Ph.D.
- Ashwini R. Wagle, Ed.D, M.S, R.D. (Department Chair and DPD Director)
- Fritz Yambrach, Ph.D.

**Adjunct Faculty**
- Elizabeth Brown, M.S., R.D., C.S.C.S.
- Caroline Fee, M.A.
- Karen Harvey, M.S, R.D.
- Dana Billings, M.S.
- Andrea Whitson, M.S, R.D.
- Shelley Wood, MPH, R.D.
- Janine Berta, , M.S, R.D.
- Natsuko Tsuji, M.S, R.D.
- Roberta Spier, M.S, R.D.
- Travis Swiatlo, M.S, R.D.
- Wendy Smith, M.S, R.D.
- Linda Sweeney, M.S, R.D.
- Eileen Mackusick, M.S, R.D.
- Lesley Wiley, M.S, R.D.
- Yue “Mary” Sun, Ph.D, R.D.
- Irene Chou, Ph.D.
- Georgia “Gigi” Acker, M.S, R.D.
- Gabriela John Swami, Ph.D
- Kathleen Cahill, M.S, R.D.
Student Organization with the Department

Student organization (the Student Nutrition & Food Science Club) based in the department offers an opportunity for both undergraduates and graduate students to become involved in community, industry and school-oriented projects; to meet with career professionals, faculty, and other students; and to develop leadership training. In addition, organizations may offer scholarships to local conferences and national professional conventions. Clubs organize presentations by speakers in all fields of nutrition, food science, and packaging, organize the Department convocation (graduation) ceremony, and graduation luncheons.

Chapter 3. Major Requirements and Curriculum Outlines

The Bachelor of Science (B.S.) program in Nutritional Science offers three concentrations:
1) Dietetics, 2) Applied Nutrition and Food Sciences, and 3) Food Management. The department also offers a Bachelor of Science program in Packaging. Overall, the program prepares graduates for careers as dietitians, food scientists, foodservice managers, packaging professionals, and environmental health specialists, for work in educational institutions, hospitals, nutrition and food research laboratories, businesses and industries, and in the community and for government.

A description of each concentration is below, along with a summary of the required coursework for completion of the degree.

Concentration in Dietetics

The Didactic Program in Dietetics Mission Statement and Program Description

The Didactic Program in Dietetics (DPD) transmits knowledge and skills at the undergraduate level that are needed for competent dietetics practice to improve the quality of life in diverse communities.

The Didactic Program in Dietetics provides students with the competencies, knowledge and skills required of the dietetics professional for practice roles of today and the future. The program helps students to develop critical thinking skills and problem solving ability in clinical and community nutrition and food service management. The Dietetics curriculum includes support courses from the social, physical, and life sciences. Students have the option to select elective courses outside the major and/or to complete minors in business, chemistry, education, gerontology, health science, human performance, journalism, or other areas. In addition, with the appropriate coursework, students are also prepared for advanced degrees and post baccalaureate education (Dietetic Internships).

The dietetics concentration is appropriate for students who would like to become registered dietitians. To become a registered dietitian, you must:
1. complete an ACEND accredited Didactic Program in Dietetics (DPD);
2. successfully obtain and complete an accredited supervised work experience (Dietetic Internship); and
3. take and pass a national registration examination.

The DPD program at SJSU is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND) (120 S. Riverside Plaza, Suite 2190, Chicago, IL 60606-6995; phone: 312-899-0040; http://www.eatright.org.

DPD Program Goals

**Program Goal #1:** The program will prepare graduates to be competent for entry into supervised practice or other post-graduate programs through quality educational offerings

Objective 1: The program’s one-year pass rate (graduates who pass the registration exam within one year of first attempt) on the CDR credentialing exam for dietitian nutritionists is at least 80%.

Objective 2: Over a 3 year period, at least 60% of program graduates apply for admission to a supervised practice program prior to or within 12 months of graduation.

Objective 3: At least 60% of program graduates are admitted to a supervised practice program within 12 months of graduation.

Objective 4: Supervised practice program directors will rate their overall satisfaction with the graduate’s preparation for supervised practice as at least 3.0 on a 5.0 scale for at least 70% of the graduates.

Objective 5: At least 80% of program students complete program/degree requirements within three years (150% of the program length).

**Program Goal #2:** To foster a desire to improve the quality of life in diverse communities.

Objective 1: At least 50% of students will indicate participation in their community.

Objective 2: At least 50% of students will participate in a global experience to gain intercultural perspective.

Graduates of the Didactic Program in Dietetics will be prepared to:

1. To obtain a critical understanding and the ability to apply theoretical and scientific knowledge from the sub-disciplines in nutrition.
2. To effectively communicate the essential theories, scientific applications, and ethical considerations related to the discipline.
3. To identify global, social, environmental, and/or cultural issues related to the discipline for diverse populations.
Didactic Program in Dietetics (DPD) Policies and Procedures

Declaration of Intent
• The standardized initial document given as a contract with list of classes required for successful completion of the Didactic Program in Dietetics (DPD) Program.
• Students may apply for Dietetic Internships in their last semester while completing the DPD courses and/or graduation with a Declaration of Intent.
• Please note that all transcripts from non-SJSU institutions (community colleges, CSU’s, UC’s) need to be OFFICIAL. Only SJSU transcripts may be unofficial.
• Undergraduate students must submit their documents for transcript evaluation and Declaration of Intent a year before graduation. E.g. The semester they are enrolled in NUFS 108A Nutrition and Metabolism.
• Graduate students need to submit their documents for transcript evaluation and Declaration of Intent before they begin the program.

Verification Statement
• A standardized document issued after successful completion of all listed DPD courses in the Declaration of Intent. Sample given.
• An official transcript showing the grades received is required to issue the Verification Statement
• Bachelor’s students will require an official transcript stating “Degree Conferred” to issue Verification Statement.
• Master’s students may use their undergraduate transcripts if still completing graduate classes.
• All students completing the SJSU DPD will be issued a Verification Statement.

The Verification Statement is the final form you will need for this evaluation. You will receive a total of 5 copies of this statement. One copy is used for each of the following:
• to submit to the internship training site
• for the RD exam
• to apply for AND membership
• for some state licensure /certificate (not required in California)
• for yourself

SJSU Student Responsibilities
• Students may do the support courses listed in the DPD course requirements advising sheet at Community Colleges as long as the classes articulate and are equivalent to courses offered at San Jose State University. These courses are all below 100 level and also include NUFS 8 Nutrition for Health Professions. Please refer to www.assist.org for more information on articulation.
• All major requirements listed in the DPD advising sheet including Chem 132 Biochemistry and Chem 132 (L) Biochemistry Lab must be taken at San Jose State University (SJSU)
• Students may not transfer more than two DPD major courses from other four year colleges to be eligible for the DPD Verification Statement from SJSU.
• Please submit packet for transcript evaluation for DPD Declaration of Intent to DPD Director ideally a year before applying for DI. (eg. While enrolled in NUFS 108A Nutrition and Metabolism)
• Students applying to external dietetic internship sites need to provide the DPD Director with the list of all sites and their ranking by Feb 11 or Sept 21.
Please be advised that SJSU Department of Nutrition, Food Science and Packaging requires prospective students to have a GPA of 3.0 or better for all support courses with no grade lower than “C” to be eligible for the DPD Program. Students lacking support courses are advised to consult the DPD course requirements for SJSU and complete Chem 1A, Chem 30B, Micro 20 and Bio 66 or equivalent prior to transcript evaluation.

SJSU Department of Nutrition, Food Science and Packaging program requires a 7-year recency from the date of transcript evaluation on all science based support courses and DPD courses. Students will be required to repeat courses older than 7 years.

**Dietetic Internship Applicant Responsibilities**

All DI Applicants Must Complete a 2-step Process

- Application Phase on Dietetic Internship Centralized Application System (DICAS)
- Computer Matching Phase on D&D Digital

**Application Phase:**

- Obtain current application materials from DI’s at least 6 months prior to the computer match in April and November
- GRE’s may be needed
- Request letters of recommendations from faculty/employers at least two months prior to application deadline
- Obtain Declaration of Intent or Verification Statement from the DPD Director
- Start the DI application on Dietetic Internship Centralized Application System (DICAS)
  - https://portal.dicas.org
- You will also need to mail postmarked by the deadline date, a copy of the official transcript from each college and university you have attended to the following address:
  - DICAS Transcript Department
  - PO Box 9118
  - Watertown, Massachusetts 02472

**Remember:**

- Send DICAS request to faculty/employers from whom you are requesting letters of recommendation
- Send DICAS request to DPD Director early (2nd week of January or 2nd week of Aug) to verify the Declaration of Intent or Verification Statement
- The DPD Director will need your most recent transcript to verify you on DICAS

**Computer Matching Phase**

- Applicants must register on the D&D Digital Web site, pay the $50.00 computer matching fee with a credit card and submit their prioritized list of selected dietetic internships online to D&D Digital before the designated deadline dates (Refer to Dates for the Computer Matching Process for each appointment period).
- Applicants should call D&D Digital prior to the deadline if they do not receive an e-mail with login information.
- Each Applicant must register for matching with D & D Digital to create / modify their prioritized list of DI Internships for matching.
  - http://www.dnddigital.com/

**Appendix A. Instructions for DPD Transcript Evaluation for US Students at SJSU**

**Appendix B. Instructions for DPD Transcript Evaluation for Foreign Students at SJSU**

**Appendix C. Instructions for Dietetic Technician (DT) Pathway for SJSU Students**
The Dietetic Internship

The Dietetic Internship is a formalized post-baccalaureate educational program sponsored and usually administered by a hospital or medical school and accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND). Internship programs are designed to provide individual and supervised experience in order to meet the qualifications for practice as a Registered Dietitian. Students can apply for either an external internship or an internal internship.

External Dietetic Internships

The NuFS Department maintains a current file on external dietetic internship programs and provides advising and assistance to students who wish to apply. (The majority of dietetic internships offered throughout the country average one year in duration.)

Internal Dietetic Internships

The Department offers a seven-month (1200 hour) supervised dietetic internship for those students wishing to complete a field experience to qualify for the registration examination administered by the Commission of Dietetics Registration (CDR) of the Academy of Nutrition and Dietetics (AND). San Jose State’s Dietetic Internship is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND), 120 South Riverside Plaza, Suite 2000, Chicago, IL, 60606-6995, (312) 899-4876 (http://www.eatright.org). Internship placement sites are located in the greater SF Bay Area. For application requirements and additional information on the SJSU Dietetic Internship please visit http://www.sjsu.edu/nufspkg/programs/bs-nutritional-science/bs-nutritional-science-dietetics/dpd/index.html

Careers in Dietetics

A variety of careers is available to graduates completing a dietetics concentration. Some jobs in the field of nutrition require having R.D. status (indicated with an *.) Places where you can work with this concentration:

Hospital
Administrative Dietitian*
Clinical Dietitian*
Patient Education Manager*

Industry-Food Company
Research and Development
Public Relations and Sales

Media Spokesperson

Private Practice

Health Related
Athletic Training/Sports Nutrition
Wellness Programs
Health Clubs

Government/Volunteer/Private Agency
Nutrition Education
School Districts – Nutrition Education
Correctional Facilities
Women, Infants, and Children Programs

**Foodservice Management**
Restaurant-Managerial
Food and Beverages
Convention Centers
Schools and Hospitals
Industry

**Advisement and Program Planning**

**Planning of Student Programs**

The Department of Nutrition, Food Science and Packaging at SJSU offers an outline of curricula that should be followed by students each semester. In addition, students should consult an advisor in the Department of Nutrition, Food Science and Packaging when planning their programs of study and selecting courses. In order to help students choose their program of study, an advising day is held each semester and summer. In addition, Professionalism in NuFS and Pkg (NuFS 31) provides career speakers and background information on each major and emphasis. New students should have their programs approved by departmental advisors during orientation before registration. Major and minor requirements are approved by the student’s advisor and the chair of the department. Information on advisors and advising day dates are available from the Department of Nutrition, Food Science and Packaging office (408) 924-3100.

**Change of Major Objective**

Students wishing to change their major to Nutritional Science must obtain a Change of Major Form from the department in which they are currently majoring or from Undergraduate Studies office. The form requires the signature of the Chair of the Department of Nutrition, Food Science and Packaging. The completed form needs to be returned to the Office of Admissions and Records. The change of objective is not official until the completed form is on file. The Nutrition, Food Science and Packaging Department would appreciate it if the incoming student would ask for their file when leaving their old major and bring it to the NuFS department in order to assure continuity of the student’s records.

**Assessment of Student Learning**

Assessment of prior learning and credit toward program (DPD) requirements are decided based on curriculum articulation agreements with other colleges/universities. If there are no articulation agreements then an analysis of the course description, prerequisites and number of semester or quarter units/credits is noted and a decision is made by the DPD Director. For international students, an international transcript evaluation by a creditable organization is required for the transcript evaluation involved in completing a Declaration of Intent form for the students.

All DPD courses are given a letter grade from A+ to F except for NUFS 192 Field Experience course where students receive a Credit/No Credit grade. The course catalog course descriptions indicate prerequisite requirements and often times a minimum grade of a “C” is required before one can progress to the next course in the sequence. For example, in order to progress to enrolling in NuFS 108A Nutrition and Metabolism the student must complete the prerequisites of NuFS 106A Human
Nutrition in the Life Span with a minimum "C" grade, Chem 132 Biochemistry with a "C" grade, as well as the junior writing course for health professions majors HPrl 100W and Biol 66 Physiology. If the student doesn’t achieve the minimum "C" grades in NuFS 106A and Chem 132 they can retake the courses to improve their grade or be counseled to change majors and move from the Dietetics concentration to pursue Applied Nutrition and Food Sciences concentration or Food Management concentration offered within the department; all of which do not require biochemistry. Please see appendix I for DPD Advisement sheet, course listings and suggested 4-year plan for completion of DPD program.

Retention and Remediation

Advisement is provided by the DPD Director as well as graduate student peer advisors and other full time faculty in the department. Office hours are posted by the Department Office door and those of the graduate student peer advisors are also posted on the website. Student learning assessment is continuously reviewed and those students not reaching the expected benchmarks are counseled, offered remediation and advised regarding the most appropriate course for them.

Non-Discrimination and Equal Opportunity Student recruitment and admissions to the Didactic Program in Dietetics (DPD) follow San Jose State University (SJSU) and California State University (CSU) policies, procedures and practices which comply with state and federal laws and regulations ensuring nondiscrimination and equal opportunity. See SJSU catalog for non-discrimination policy and explanation of due process. There are no separate application forms for dietetics from the online university application. Since the University is recently considered impacted, the admission criteria are very high: for transfer students 3.50 GPA. Change of major to Dietetics once admitted to SJSU requires a minimum GPA of 3.0 and completion of Chem1A with a grade of “C” or better and the best students are selected based on the target number of majors assigned. Rules are in place to limit a student’s ability to change majors once they have completed 90 units (out of 120 units total for the dietetics concentration). At 90 units the student is required to file paperwork toward graduation progress.

Disciplinary and Termination Procedures

Disciplinary/termination procedures are covered in the university catalog. Faculty members are obligated to report all instances of academic misconduct to the Office of Student Conduct and Ethical Development. The university handles notification of probation and disqualification for students falling below a 2.0/4.0 Grade Point Average (GPA). Students who wish to be reinstated need to show that they can achieve “B” grade work in relevant courses that have been identified as pertinent to their major.

Cost to Students

Application

An application fee of $60 is required for each new application filed. Students must pay the required State University Fee of $3,898.00 per semester for full-time students and $2,692.00 for part-time students (1.0-6.0 units). Graduate students pay $4,615.00 for full-time students and $3,109.00 for part-time students (1.0-6.0 units). The San Jose State University fee pays the costs of student services such as counseling, testing, student activities, housing placement, Health Services, and Student Financial Aid Administration. In addition, these fees cover some supplies and service costs of instruction and Instructional Resources. Other miscellaneous campus fees that must be paid each semester, regardless of number of units taken, include:

- Student Association Fee: $96.00
- Student Union Fee: $372.00
- Facility Fee: $34.00
- Document Fee: $16.00
- Student Success, Excellence and Technology Fee: $326.50
- Mandatory Health Fee: $182.00

California residents are not charged tuition. Non-residents, however, must pay tuition of $396 per semester unit in addition to the above fees. More information on tuition and living costs can be accessed at http://www.sjsu.edu/faso/docs/1920_COA_ugrd.pdf

*Costs subject to change.

Estimated DPD (Didactic Program in Dietetics) Costs

Estimated costs per semester:

- Books: $300-350
- Transportation: $.55/mile
- Lab fees: $35/Lab
- Activity Fees: $5-$25/Activity class

Estimated One-Time Costs:

- Lab Coat: $25
- DPD Transcript Evaluation: $25

Financial Aid

Financial assistance is available in the form of grants, scholarships, fellowships, loans, and part-time employment (work study) for students who meet financial aid program eligibility requirements. Students who feel that they will not be able to pay for all of their educational costs are encouraged to apply for financial aid. For further information on financial aid, see the SJSU Catalog, the on-line catalog at http://www.sjsu.edu/faso/, or contact the Financial Aid Office, located in the Student Services complex on 9th & San Fernando Streets. Information is also available on the internet at www.sjsu.edu.
**Housing**

There are a number of housing options to SJSU students who live on or near the campus. Residence halls, off-campus university apartments and privately-owned apartments and houses are all available to university students. In addition, most fraternities and sororities offer housing accommodations to their members. Joe West Hall is our largest resident hall at 12 stories high. It houses over 650 residents. West Hall provides many diversified living options including: Double and Triple occupancy rooms, suites, and Single Occupancy rooms. The cost for dormitories (including meal plans) is $3082-$3926 per semester.

Spartan Village is a student complex of 58 two-bedroom furnished apartments with fully equipped kitchens. Laundry facilities are located on the premises. Each apartment houses four to six students of the same gender. The Spartan Village Community Room provides recreation and study areas, and the grounds include space for barbeques and volleyball. Security at the complex is provided by the University Police Department (UPD) and grounds are patrolled regularly by a UPD Public Safety Assistant.

The Campus Village is an exciting mixed-use project which includes new student housing for 2100 residents, faculty/staff housing, underground parking, recreational space, a computer lab, meeting rooms, retail space and the housing office. The new housing is designed to meet the needs of today's students who prefer suite and apartment style living options. Campus Village opened in August 2005. For additional information, contact the University Housing Services Residential Life Office at (408) 924-6160, write to the Director of Housing, One Washington Square, San Jose, CA 95192, or use the internet, [http://www.housing.sjsu.edu/](http://www.housing.sjsu.edu/)

**Library**

The Dr. Martin Luther King, Jr. Library integrates the collections, services and staffs of two distinct, but major institutions: a major metropolitan university and a significant public library, creating one expansive resource center where everyone has access to a world of information. The Dr. Martin Luther King, Jr. Library is the first of its kind in the United States and a model of innovation for library services for the future.

The new 475,000+ square foot library includes eight floors plus a mezzanine and a lower level, seven-story atrium with skylight and seating for 3,600. The library houses a public art collection, a Library café, forty-two group study areas, four computer labs, eight special program and lecture rooms, and much more. The library serves 30,000 students, faculty and staff, 923,000 residents of San José, and opened August 2003.

**Choices**

We have tried to give you an introduction to who we are and what we have to offer you. As you can see from reading this handbook your choices are wide within the major Nutritional Science. Perhaps you still have questions, or would like to make an appointment with one of our advisors. We'd like to meet you and help you attain your dreams and goals for a successful career. Let us hear from you. Our phone number is: (408) 924-3100.
Complaints about the Didactic Program in Dietetics (DPD)

Policy

The DPD program at San Jose State University strives to uphold the ACEND accreditation standards. In the event that a student believes that there has been a violation of the ACEND accreditation standards, he or she should follow the procedure below.

Procedure

Students who believe there has been a violation of the ACEND accreditation standards should follow these steps:

1. The student should first make an appointment with the DPD Director, Ashwini Wagle, MS, RD to speak with her in person or by phone. In the event an appointment cannot be made in person or by phone, then another medium may be used as agreed upon between the student and the DPD director.
2. If a resolution cannot be made with the DPD director, or if on a rare occasion the student is not comfortable speaking with the DPD director in person, the student may request that the department chair be present to act as a mediator.
3. If no resolution is reached after steps 1 through 2, the student may initiate a final request to the Accreditation Council of Education in Nutrition and Dietetics (ACEND) directly. Students should follow the procedures outlined in the Grievance Policy and Procedure.

Grievance Policy and Procedure (DPD)

Policy

On occasion a student enrolled in the Didactic Program in Dietetics (DPD) may view their treatment by a faculty and/or staff member as unjust or unfair. The following procedures offer guidance to the student for presenting their grievances, which will be filed.

Procedure

Students who have concerns about problems that arise in the classroom, instructor behavior or capricious grading practices should follow the basic steps below as well as read the University Policy for guidance on addressing these concerns.

1. The student should first make an appointment with the instructor of the course to speak with him/her in person, by phone, or another medium that is mutually agreed upon between the student and the instructor.
2. If a resolution cannot be made, or if on a rare occasion the student is not comfortable speaking with the instructor in person, the student may request that the DPD Director be present to act as a mediator. If the instructor is the DPD Director, the student should follow step #3.
3. If a resolution cannot be made with the presence of the DPD Director, the student may request that the person acting as department chair be present to act as a mediator.
4. If no resolution is reached after steps 1 through 3, the student may initiate a final request to the college Dean to whom the instructor reports by filling out the appropriate documents for the situation.
Students are advised to read the University Policy and to read the additional details provided in the manual to ensure they fully understand the procedure prior to addressing their concerns. These policies are available on the Faculty Senate website under the Undergraduate Programs tab. See policies: S97-8 Student Fairness Committee; Grades and Grade Appeals: Student Grievances; Student Rights at [http://www.sjsu.edu/senate/S97-8.pdf](http://www.sjsu.edu/senate/S97-8.pdf)

Students who feel they have been discriminated against should see the University Undergraduate Program Handbook for the procedure to follow to file a complaint. This information is available at [http://www.sjsu.edu/hr/students/students_harassment_complaints/](http://www.sjsu.edu/hr/students/students_harassment_complaints/)

Students who feel the Didactic Program in Dietetics has violated the guidelines set by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) should read the Complaints about the Didactic Program in Dietetics policy and procedures in this handbook.

**ACEND Procedure for Filing a Complaint against Accredited Programs**

The Accreditation Council for Education in Nutrition and Dietetics (ACEND) has established a process for reviewing complaints against accredited programs in order to fulfill its public responsibility for assuring the quality and integrity of the educational programs that it accredits. Any individual, for example, student, faculty, dietetics practitioner and/or member of the public may submit a complaint against any accredited or approved program to ACEND. However, the ACEND board does not intervene on behalf of individuals or act as a court of appeal for individuals in matters of admissions, appointment, promotion or dismissal of faculty or students. It acts only upon a signed allegation that the program may not be in compliance with the accreditation standards or policies. The complaint must be signed by the complainant. Anonymous complaints are not considered. Where a complainant has threatened or filed legal action against the institution involved, ACEND will hold complaints in abeyance pending resolution of the legal issues and the complainant is so advised.

1. ACEND staff forwards all written complaints to the ACEND chair within three weeks of receipt of the complaint.
2. If the ACEND chair determines that the complaint does not relate to the accreditation standards or policies, the complainant is notified in writing within two weeks of the Chair’s review that no further action will be taken.
3. If the ACEND chair determines that the complaint may relate to the accreditation standards or policies, the complaint is acknowledged in writing within two weeks of the chair’s review and the complainant is provided a copy of the process for handling the complaint.
4. At the same time as the complainant is notified, the complaint is forwarded to the program by express mail second day delivery for tracking purposes. The administrative officers of the institution or organization sponsoring the program, currently on file with ACEND, receive copies of the correspondence by first class mail. At the request of the complainant, the name of the complainant is "blocked out" within the body of the written complaint that is sent to the program.
5. The ACEND chair requests the program to conduct a preliminary investigation and submit a report addressing the relevant accreditation standards or policies postmarked no more than 30 calendar days from receipt of the notification, as documented by the record of second day delivery.
6. The ACEND chair may also request further information or materials relating to the complaint from the complainant, the institution or other sources.

7. The ACEND chair appoints a review committee to consider the complaint, along with all relevant information. The review committee recommends appropriate action to the ACEND board at its next scheduled meeting.

8. In determining the appropriate action, the ACEND board considers the complaint, materials relating to the complaint, the review committee's recommendation, if any, and additional evidence provided by the program, if any.

9. The ACEND board or the ACEND chair may determine that legal counsel is needed to address the complaint. Staff works with the ACEND board and legal counsel to identify a plan to address the complaint.

10. If the complaint is determined to be unsubstantiated or not related to the accreditation standards or policies, no action is taken.

11. If the complaint is substantiated and indicates that the program may not be in compliance with the accreditation standards or policies, appropriate action is taken, which may include, but is not limited to, scheduling an on-site visit of the program. If the complaint is substantiated and the ACEND board determines that the program is not in compliance with the accreditation standards or policies, the ACEND board may place the program on probation or withdraw accreditation or approval.

12. The program director and administration of the sponsoring institution are notified of the ACEND board's decision and action in writing within two weeks of the decision. The complainant is notified of the final decision and action when the reconsideration and appeals process expires.

13. The program has the right to request the ACEND board to reconsider a decision to place the program on probation or to withdraw accreditation or approval.

Protected Health/Proprietary and Social Media Policy

Summary:
Patient privacy and confidentiality are professional responsibility of all healthcare providers. Respect for privacy and confidentiality of patients gives them the dignity as individuals and is important for their moral worth. The Health Insurance Portability and Accountability Act of 1996 (HIPAA) was passed to protect a person's privacy and confidentiality in regards to their health information. The Department of Health and Human Services (HHS) and its Office for Civil Rights enforces:

- The HIPAA Privacy Rule, which was implemented in 2003 and protects the privacy of individually identifiable health information and monitors the compliance issues and sets civil money penalties in cases of violations.
- The HIPAA Security Rule sets national standards for the security of electronic protected health information.
- The HIPAA Breach Notification Rule requires covered entities and business associates to provide notification following a breach of unsecured protected health information (HHS.gov, 2014).
The Didactic Program in Dietetics (DPD) program and the Dietetic Internship (DI) at San Jose State University (SJSU) are accredited programs by the Accreditation Council of Education in Nutrition and Dietetics (ACEND). The Academy of Nutrition and Dietetics (AND) has published written policies specifying Code of Ethics, and Standards of Practice for all dietetics professionals working in the United States, in addition to an Ethics Committee that serves as the disciplinary committee monitoring all reported violations (AND, 2014).

The presence of social media in student lives and the need to abide by the HIPAA regulations has been a cause of concern for most healthcare professionals and educators. The following social media policy reiterates the ethical code of conduct as specified by AND and the HIPAA Privacy Rule.

**The Protected Health/Proprietary and Social Media Policy**

For the purpose of this policy, social media was identified to include any website or forum that allows for the open communication on the internet including, but not limited to social networking sites (LinkedIn, Facebook), micro-blogging sites (Twitter, Tumblr, Pinterest), blogs (WordPress, including personal), wikis (Wikipedia), social bookmarking (Delicious), and video and photo-sharing websites (YouTube, Flickr, Instagram, SnapChat).

- The policy stipulates that in general, dietetic students working as volunteers, paid employees or dietetic interns should think carefully before posting online.
- Students should carefully consider the risks and rewards with respect to each posting and should remember that any conduct, online or otherwise, that negatively or adversely impacts the job performance or conduct, the job performance or conduct of other co-workers or adversely affects clients, customers, colleagues or associates of SJSU and/or the intern’s supervised practice training site may result in disciplinary action, up to and including termination.
- Despite privacy policies, students cannot always be sure who will view, share or archive the information and they should use their best judgment and exercise personal responsibility when posting to social media websites.
- Students should not use social media during working hours or on equipment provided by the supervised practice site unless such use was work-related or authorized by a preceptor/employee.
- Where applicable law permits, SJSU and the supervised practice training site reserves the right to monitor the students or intern’s use of any social media and take appropriate action with respect to inappropriate or unlawful postings.
- Employees should note that this provision is not meant to interfere or prohibit interns from engaging in concerted protected activity, which is lawful under Section 7 of the National Labor Relations Act (NLRA). In monitoring social media, SJSU and the supervised practice training site will not in any way interfere with any intern rights under Section 7 of the NLRA.
- The policy also asked students to be fair and respectful to co-workers, clients, customers, colleagues, preceptors and other individuals who may work on behalf of SJSU and the supervised practice training site.
- Any online behavior should be consistent with AND, SJSU and the supervised practice training site’s policies and practices with respect to ethics, confidential information, discrimination and harassment.
- Because online tone can be interpreted in different ways by readers, students/interns should not engage in any online conduct that would not be acceptable or appropriate in the workplace.
- If a student decides to post complaint or criticism, then he/she should avoid using any statements, photographs, video or audio that may be viewed as malicious, obscene, threatening, harassing or abusive of co-workers, clients, customers, colleagues, preceptors or other individuals that work on behalf of or are associated with SJSU or the supervised practice training site.
- Students need to consider the value of linking websites, liking, friending, following and endorsing and the message that may be conveyed to their audience.
- It is strongly discouraged to “friending” of patients on social media websites. Students volunteering or working in healthcare settings should not initiate or accept friend requests except in unusual circumstances such as the situation where an in-person friendship pre-dates the treatment relationship.
- Write in the first person. Where your connection to the SJSU DPD or the healthcare setting is apparent, make it clear that you are speaking for yourself and not on behalf of the agencies. In those circumstances, you should include this disclaimer: "The views expressed on this [blog; website] are my own and do not reflect the views of the SJSU DPD or my employer.” Consider adding this language in an "About me” section of your blog or social media profile.

**Insurance and Liability**
The university catalog covers withdrawals and refund of tuition and fees policy, scheduling and program calendar, including vacations and holidays, protection of privacy of student information, access to personal files, and access to student support services such as the health center, counseling, financial aid, the disability resource center, and the writing center. The state of California is self-insured and therefore students are not required to take a separate insurance for professional liability and also for travel purposes of field trips, and other assigned areas.

INSTRUCTIONS FOR DPD TRANSCRIPT EVALUATION

US STUDENTS

Students who have received their Bachelor’s or Master’s degrees from other US universities need to be accepted in the SJSU Master’s program for DPD transcript evaluation.

1. Collect copies of official transcripts of community colleges, colleges, and universities which you have attended. You may use an unofficial website printout copy of courses taken and grades received from SJSU. Use the curriculum plan for dietetics as a checklist.

2. Submit a complete set of transcripts, with your curriculum plan checklist. On the checklist, please indicate the year and semester, grade, and institute for each course which was completed. If you had permission to replace a course with a substitute, please indicate this on your checklist.

3. Attach a cover letter providing the following information:

   • Your official name (middle initial, etc.) to be used on the Declaration of Intent / Verification Statement
   • The month/year of degree(s) (B.S. or M.S.) received or expected
   • Your phone numbers (home and work) and your email address. Give hours where you can be reached, and your address for mailing (during summer/winter breaks).
   • Indicate the date you need the transcript evaluation and how you plan to pick it up.

4. Attach a check, made payable to SJSU:

   $25 for students pursuing a degree in Nutritional Science

5. Allow approximately two weeks for the evaluation and preparation of Declaration of Intent / Verification Statement.

DPD Documents

1. The Declaration of Intent is the first document issued upon transcript evaluation by the DPD Director. The Verification Statement is the last document issued upon graduation.

2. You may use Declaration of Intent for all internship applications. However, when you have completed all the courses listed on the Declaration of Intent, you should request that the final
Verification Statement to be issued to you. No additional fee is required. During summer breaks, please allow 6 weeks.

3. When requesting the final Verification Statement, you need to provide your official SJSU transcript. Please note that official transcripts are required for all courses completed outside of SJSU ie. Community Colleges etc.

4. Please verify that your official transcript states “Degree Conferred with Concentration in Dietetics” before requesting the Verification Statement.

5. Verification Statement is the final form you will need for this evaluation. You will receive a total of 6 copies of this statement. One copy is used for each of the following:

   a) To submit to the Internship training site
   b) For the R.D. exam
   c) To apply for AND membership
   d) For some state license/certificate (Not required in California)
   e) Others
   f) For yourself

Important Information

- For graduate student opting for a dietetic internship (internship nationwide or internship at SJSU), you need to have your DPD transcript evaluated prior to taking graduate level courses.
- Please be advised that SJSU Department of Nutrition, Food Science and Packaging requires prospective students to have a GPA of 3.0 or better for all support courses with no grade lower than “C” to be eligible for the DPD Program. Students lacking support courses are advised to consult the DPD course requirements for SJSU and complete Chem 1A, Chem 30B, Micro 20 and Bio 66 or equivalent prior to transcript evaluation.
- SJSU Department of Nutrition, Food Science and Packaging program requires a 7-year recency from the date of transcript evaluation on all science based support courses and DPD courses. Students will be required to repeat courses completed more than 7 years prior.
- Students may do the support courses listed in the DPD course requirements advising sheet at Community Colleges as long as the classes articulate and are equivalent to courses offered at San Jose State University. These courses are all below 100 level and also include NUFS 8 Nutrition for Health Professions. Please refer to www.assist.org for more information on articulation.
- All major requirements listed in the DPD advising sheet including Chem 132 Biochemistry and Chem 132 (L) Biochemistry Lab must be taken at San Jose State University (SJSU)
- Students may not transfer more than two DPD major courses from other four-year colleges to be eligible for the DPD Verification Statement from SJSU.
INSTRUCTIONS FOR DPD TRANSCRIPT EVALUATION

FOREIGN STUDENTS

Students who have received their Bachelor’s or Master’s degrees from foreign universities need to be accepted in the SJSU Master’s program for DPD transcript evaluation.

1. First, get your transcripts evaluated by one of the CDR-approved Foreign Degree Equivalency Validation Agencies preferably:

   International Education Research Foundation
   P.O. Box 3665
   Culver City, CA 90231-3655
   Phone: 1(310) 258-9451; Fax: (310) 342-7086
   Email: info@ieft.org
   See their website for updates: www.ierf.org

   Information on other validation agencies can be found at the URL below:
   http://www.eatrightpro.org/resource/acend/students-and-advancing-education/information-for-students/foreign-degree-evaluation-agencies

   This evaluation should include:

   a. U.S. degree equivalence – Is the foreign degree(s) equivalent to a B.S. degree in the U.S.? Please make sure the evaluation report states the degree equivalence “from a regionally accredited” institution in the US.
   b. Semester units received for each course taken.
   c. Translation of grades (e.g. %, etc.) received to letter grades (A,B,C,D,F,P, etc.)

   This process may take 1-2 months depending on the information you provide to the agency.

2. Request the above agency to send the original evaluation to:

   Ashwini Wagle, Ed.D, MS, RD
   Department Chair and DPD Director
   Department of Nutrition, Food Science & Packaging
   San Jose State University
   One Washington Square
3. Upon acceptance to the SJSU Master’s program in Nutritional Sciences, write to Dr. Wagle to request a DPD transcript evaluation. In your cover letter state the following:
   a. Your study goal (e.g., MS/RD or RD only).
   b. The degree and concentration you are currently enrolled in, and month/year of degree(s) you have received.
   c. Your official name (e.g., middle initial, etc.) to be used on the Declaration of Intent, or Verification Statement.
   d. Your address and phone numbers (cell, home, and work).
   e. Email address
   f. A check for $ 60 payable to SJSU.

4. When you receive your copy of the evaluation from the Credential Evaluation Service, allow at least one week before calling Prof. Wagle at (408) 924-3110, to see if the original evaluation has been received by the Department.

5. Consultation can be conducted by phone, or in person. Courses will be recommended for the completion of DPD requirements during consultation.

6. After consultation, a Declaration of Intent listing all required courses will be issued to student. Allow approximately two weeks for this process and preparation.

DPD Documents

6. The Declaration of Intent is the first document issued upon transcript evaluation by the DPD Director. The Verification Statement is the last document issued upon graduation.

7. You may use Declaration of Intent for all internship applications. However, when you have completed all the courses listed on the Declaration of Intent, you should request that the final Verification Statement to be issued to you. No additional fee is required. During summer breaks, please allow 6-8 weeks.

8. When requesting the final Verification Statement, you need to provide your official SJSU transcript indicating the completion of each course on the Declaration of Intent. Please note that official transcripts are required for all courses completed outside of SJSU, i.e., Community Colleges, etc.

9. Verification Statement is the final form you will need for this evaluation. You will receive a total of 6 copies of this statement. One copy is used for each of the following:
   g) To submit to the Internship training site
   h) For the R.D. exam
   i) To apply for AND membership
j) For some state license/certificate (Not required in California)
k) Others
l) For yourself

**Important Information**

INSTRUCTIONS FOR DIETETIC TECHNICIAN (DT) PATHWAY

DPD Transcript Evaluation for Declaration of Intent:

3. Collect official copies of transcripts of community colleges, colleges, and universities which you have attended. You may use an unofficial website printout copy of courses taken and grades received from SJSU. Use the curriculum plan for dietetics as a checklist.

4. Submit a complete set of transcripts with your curriculum plan checklist. On the checklist, please indicate the year and semester, grade, and institute for each course which was completed. If you had permission to replace a course with a substitute, please indicate this on your checklist.

4. Attach a cover letter providing the following information:

   • Your official name (w/ middle initial) to be used on the Declaration of Intent / Verification Statement.
   • The month/year of degree(s) (B.S. or M.S.) received or expected.
   • Your phone numbers (home and work) and your email address. Give hours where you can be reached, and your address for mailing (during summer/winter breaks).
   • Indicate the date you need the transcript evaluation and how you plan to pick it up.

5. Attach a check, made payable to SJSU:

   $25 for students pursuing a degree in Nutritional Science

6. Allow approximately two weeks for the evaluation and preparation of Declaration of Intent / Verification Statement.

DPD Verification Statement

1. The Declaration of Intent is the first document issued upon transcript evaluation by the DPD Director. The Verification Statement is the last document issued upon graduation.

2. When you have completed all the courses listed on the Declaration of Intent, you should request that the final Verification Statement to be issued to you. No additional fee is required. During summer breaks, please allow 6 weeks.

3. When requesting the final Verification Statement, you need to provide your official transcript indicating
the completion of each course on the Declaration of Intent. Please note that official transcripts are required for all courses completed outside of SJSU, i.e., Community Colleges, etc.

4. Please verify that your official transcript states “Degree Conferred with Concentration in Dietetics” before requesting the Verification Statement.

5. Verification Statement is the final form you will need for this evaluation. You will receive a total of 6 copies of this statement. One copy is used for each of the following:
   m) To submit to the DPD Director
   n) For the DTR or R.D. exam
   o) To apply for AND membership
   p) For some state license/certificate (not required in California)
   q) Others
   r) For yourself

Registration Eligibility Requirements for Dietetic Technicians: New Pathway III

Completion of a Baccalaureate degree granted by a US regionally accredited college/university, or foreign equivalent, and completion of Accreditation Council of Education in Nutrition and Dietetics (ACEND) accredited Didactic Program in Dietetics (DPD) or Coordinated Program in Dietetics (CP).

For security reasons, all candidates must be processed through the Credential Registration and Maintenance System (CRMS) for eligibility to take the examination by their DPD Program Director.

All candidates must complete and submit the following to the DPD Director:

1. Registration Eligibility application, available on CDR’s Web site at:
   https://www.cdrnet.org/program-director/student-instructions
2. DTRE Mis-Use Form:
3. Copy/Proof of AND membership
4. An official transcript
5. Students will need to complete the Survey to ensure their application can be processed.

For further assistance with the eligibility examination process, please go to the CDR website: http://cdrnet.org/programdirector/dieteticsprogramstudents.cfm for their graduating student information.

Please note: DT paperwork will be processed by the DPD Director to be sent to the Commission for Dietetic Registration (CDR) twice a year only. Please make sure to submit all the required documents to the DPD Director by Feb 28 or June 30.

Important Information

- Students may do the support courses listed in the DPD course requirements advising sheet at Community Colleges as long as the classes articulate and are equivalent to courses offered at San Jose State University. These courses are all below 100 level and also include NUFS 8 Nutrition for Health Professions. Please refer to www.assist.org for more information on articulation.

- All major requirements listed in the DPD advising sheet including Chem 132 Biochemistry and Chem 132 (L) Biochemistry Lab must be taken at San Jose State University (SJSU).

- Students may not transfer more than two DPD major courses from other four-year colleges to be eligible for the DPD Verification Statement from SJSU.

- SJSU Department of Nutrition, Food Science and Packaging program requires a 7-year recency from the date of transcript evaluation on all science based support courses and DPD courses. Students will be required to repeat courses completed more than 7 years prior.

- DT paperwork will be processed by the DPD Director to be sent to Commission for Dietetic Registration (CDR) twice a year only. Please make sure to submit all the required documents to the DPD Director by Feb 28 or June 30.
### UNDERGRADUATE COURSE DESCRIPTIONS

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>NuFS 1A</td>
<td>Physical Science of Food</td>
<td>Introductory course to the physical, chemical and sensory properties of food for students not majoring in the sciences. Basic structure, function and organization of foods, laws of thermodynamics, systems of classification, as well as the interactions of energy and matter. GE Area: B1 (Lecture, 3 hours). Three Units</td>
</tr>
<tr>
<td>NuFS 8</td>
<td>Nutrition for the Health Professions</td>
<td>Nutrients and their functions, recommended nutrient intakes and evaluation of dietary adequacy; relationship of nutrition to optimum health and dietary changes in disease. For nutritional science, nursing and other health profession majors. (Lecture, 3 hours). Three units</td>
</tr>
<tr>
<td>NuFS 9</td>
<td>Introduction to Human Nutrition</td>
<td>Principles and methodology of nutritional science; standards of nutrient intake; physiological functions and chemical classification of nutrients; nutrient needs throughout the lifespan; relationship between diet and disease; scientific, social, and psychological issues. Not open to nutrition majors. GE: E. (Lecture, 3 hours). Three Units</td>
</tr>
<tr>
<td>NuFS 16</td>
<td>Science, Physiology, and Nutrition</td>
<td>Introduction to life sciences, from chemistry to cellular and physiologic functions, with nutrition as an underlying theme. Interactions with environment, including effect of culture, genetics, and nutrition on susceptibility to disease. Applications of biotechnology in the life sciences. GE Area: B2 (Lecture, 3 hours). Three units</td>
</tr>
<tr>
<td>NuFS20/</td>
<td>Sanitation &amp; Environmental Issues in the Hospitality</td>
<td>Sanitation in food service, hotel and travel/tourism industries; study of pathogenic organisms and food handling procedures. Occupational health, safety, and environmental control in the hospitality industry. Prerequisites: Micro-biology course or instructor consent. (Lecture, 2 hours). Two units</td>
</tr>
<tr>
<td>HSPM20</td>
<td>Industry</td>
<td></td>
</tr>
<tr>
<td>NuFS 21</td>
<td>Culinary Principles and Practices</td>
<td>Introduction to principles of food and beverage production and techniques. Emphasis on quality and culinary standards. (Lecture/Lab, 4 hours). Three units.</td>
</tr>
<tr>
<td>HSPM 21</td>
<td></td>
<td></td>
</tr>
<tr>
<td>NuFS 22/</td>
<td>Catering &amp; Beverage Management</td>
<td>Planning and executing catering and buffet function. Evaluation of alcoholic and non-alcoholic beverages regarding purchasing, storage, preparation, merchandising and regulations. Prerequisite NuFS 20 or instructor consent. (Lecture/Lab 4 hours). Two units.</td>
</tr>
<tr>
<td>HSPM 22</td>
<td></td>
<td></td>
</tr>
<tr>
<td>NuFS 25</td>
<td>Internship in Foodservice Management</td>
<td>Approved professional broad-based work experience in foodservice management industry for total of 200 hours. Written report and oral presentation due at completion. Prerequisite: NuFS 20 and instructor consent. (Credit/No credit grading). 1-2 units; repeatable for a maximum of 2 units.</td>
</tr>
</tbody>
</table>
NuFS 31  Professionalism in Nutrition, Food Science & Packaging – Professional roles, skills, and opportunities in the fields of dietetics, foodservice, food science and packaging. (Lecture, one hour). One unit.

NuFS 101A  Food Science – Experimental study of food and introduction to scientific methods used in food evaluation; functions of ingredients in prepared foods. Prerequisite: Chem 30B or Chem 8; College basic food preparation course or instructor consent. (Lecture and Laboratory, 6 hours). Four units.

NuFS 103  Food Processing and Packaging I – Principles and methods of food preservation/processing and packaging operation. Raw materials handling, effect of processing on nutritional value of foods, packaging and food additives. Recommended: College basic food preparation course. Prerequisite: Chem30B or Chem 8, or instructor consent. (Lecture and Laboratory, 5 hours). Three units

NuFS 103L  Food Processing Laboratory – Laboratory activities associated with the principles and methods of food preservation/processing and packaging operations; raw materials handling, effect of processing on nutritional value of foods, packaging and food additives. Pre-requisites: CHEM 030B or Chem 008; instructor consent. One units

NuFS 104A  Current Aspects of Food – Regional, ethnic, and religious influences on food patterns. Demonstration with foods of several cultures. Prerequisite: Upper division standing. (Lecture and Activity, 4 hours). Three units.

NuFS 105  Current Issues in Nutrition – Controversial topics, including the relation of nutrition to cancer, coronary heart disease, hypertension, diabetes, eating disorders, osteoporosis, and athletic performance; recommended nutrient intakes; and other current issues. Prerequisite: NuFS 8, NuFS 163 or equivalent introductory course in human nutrition. (Lecture, 3 hours). Three units.

NuFS 106A  Human Nutrition in the Life Span – Integrates chemical, biological, and social sciences into a comprehensive concept of human nutrition. Emphasis on assessing nutrient status; planning and intervention throughout the life cycle. Prerequisites: NuFS 8 or passing grade on challenge exam; instructor consent. (Lecture, 3 hours). Three units.

NuFS 106B  Research Methodology in Nutrition and Food Science – Introduction to research methodology, interpretation and data analysis with a focus on developing strong information literacy skills, as well as critical thinking, reading, and writing skills in refining scholarly writing in the style of the discipline. Prerequisite: Stat 95 and HPrf 100W. Corequisite: NuFS 106A, HPrf 100W (Lecture, 3 hours). Three unit.

NuFS 108A  Nutrition & Metabolism – Chemical and physiological studies and carbohydrate, protein, lipid, vitamin and mineral metabolism. Application to the normal nutrition of human beings. Prerequisites: NuFS 106A, Chem 132 (with a grade of ‘C’ or better), HPrf 100W, Biol 66. (Lecture, 3 hours). Three units.

NuFS 108L  Nutrition Laboratory – Chemical and biological analysis of nutrients and metabolites in body fluids for the assessment of nutrition, nutritional status of human subjects, Prerequisite: Chem 132L, Stat 95 or HS 67 Co-requisite: NuFS 108A,. (Lecture 1 hour, Lab 3 hours). Two units.
NuFS 109  *Advanced Nutrition* – Advanced studies of vitamins and minerals. Evaluation and interpretation of nutritional research methodology, and findings. Prerequisites: NuFS 106A, Chem 132 (with grades of ‘C’ or better in each), Biol 66, Stat 95 or HS 67, and HPrf100W.

NuFS 110A,B  *Medical Nutrition Therapy* – Application of nutritional principles and dietary intake to meet the needs of various pathological conditions. Prerequisite to 110A: NuFS 108A (with grade of ‘C’ or better) and Co-requisite: NuFS 109. Prerequisites to NuFS 110B: NuFS 110A and NuFS 109. (Lecture and Activity, 4 hours). Three units each NuFS 110A and NuFS 110B.

NuFS 111  *Foodservice Production: Management and Procurement* – Principles and procedures for menu planning, production scheduling, volume food production, operation of foodservice equipment, sanitation control and formula costing. Prerequisite: NUFS 101A or HSPM 011; NUFS 008 or NUFS 009; or instructor consent. Misc/Lab: Lecture 2 hours/Lab 3 hours. Three units.

NuFS 113  *Foodservice Systems Management* – Selection and purchasing in foodservice operations: food and equipment and writing food/equipment specifications. Allocation and management of resources in foodservice systems: materials (food and supplies), facilities (equipment and space), human (management and employee labor), operational (time and money). Prerequisite: NUFS 111 or instructor consent. Misc/Lab: Lecture/lab 5 hours.. Three units.

NuFS 114A  *Community Nutrition* – Nutrition problems; public policy, advocacy and legislation; Government programs; needs assessments; management of community services. (Lecture, 3 hours). Three units.

NuFS 114B  *Community Nutrition (non-majors)* – Key nutrition concepts and terms; age appropriate nutritional interventions focusing on school-age children; nutrition and public policy, advocacy and legislation; government programs and provision of community nutrition services focusing on mother and children.. (Lecture, 3 hours). Three units.

NuFS 115  *Issues in Food Toxicology* – Introduction to the toxicology of foods, and food-borne chemicals and organisms. Scientific basis for determining biological and environmental safety of the food supply from food development, growth and production through harvesting, processing, storage and eventual consumption. Prerequisite: Completion of core GE, satisfaction of Writing Skills Test and upper division standing. For students who begin continuous enrollment at a CCC or a CSU in Fall 2005 or later, completion of or corequisite in a 100W course is required. Passage of Writing Skills Test, upper division standing, and completion of Core GE. (Lecture, 3 hours). Three units. GE: R

NuFS 116/  *Aging and Nutrition* – The aging process, physiological changes, dietary requirements, diseases, environmental factors, housing, economic status, handicaps, personal relations, and current programs for the aged. Prerequisite: One college nutrition course or consent of instructor. (Lecture, 3 hours). Three units

Gero 116

NuFS 117  *Food Evaluation and Techniques* – Studies in food experimentation, sensory evaluation, and objective methods. Prerequisites: NuFS 8, NuFS 101A, Chem 30A or Chem 1A, Chem 30B or instructor consent. (Lecture and Lab, 5 hours). Two units.
NuFS 118  **Food Chemistry** – Important classes of food constituents, their nature, occurrence, chemical and biochemical significance and the changes they undergo during food preservation and processing. Prerequisites: NuFS 101 and/or 103, Chem 30B or Chem 8; Chem 132 and Chem 132L or Chem 135; or Instructor consent. (Lecture and lab, 5 hours). Three units.

NuFS 122  **Chemical Analysis of Food** – Techniques in chemical analysis of nutrients and other components of food. Planning, conducting and evaluating a scientific experiment and presenting the data in technical written form. NuFS 103, NuFS 118, HPrf 100W, HS 67 or Stat 95, instructor consent. (Lecture and Lab, 7 hours). Three units.

NuFS 123  **Nutrition for Sport** – Planning optimum diets for performance and health; metabolism and energy systems; roles of nutrients in physical performance; efficacy of ergogenic nutrition aids. Prerequisites: NuFS 8. (Lecture, 3 hours). Three units.

NuFS 124  **Disordered Eating and Nutrition Therapy** – Metabolic, physiological, and psychological determinants and effects of disordered eating behaviors. Disorders in regulation of food intake, case studies, and different intervention approaches explored. Screening and treatment of disordered eating in athletes emphasized. Opportunities provided to develop counseling strategies. Prerequisites: NuFS 8. (Seminar). Three units.

NuFS 125  **Child Nutrition Program Administration** – Study of the components of model child nutrition programs through application of current child health and nutrition principles, educational practices, marketing procedures, communication strategies, computer-based nutritional analysis, and operations management skills. Prerequisite: Upper division standing. Offered summer only. Two units.

HPrf 134/ NuFS 134  **Complementary and Alternative Health Practices** – Philosophical, historical, clinical, and scholarly aspects of complementary and alternative medicine and associated health practices Used in the US, with emphasis on scientific clinical investigation and evidence based efficacy. (Lecture, 3 hours). Three units.

NuFS 139  **Hunger and Environmental Nutrition** – Physiology of hunger/malnutrition on human development and health; political, social, cultural and gender factors that contribute to world hunger; scientific/technological foundation and their effect on the environment. Prerequisites: Completion of core GE, satisfaction of Writing Skills Test and upper division standing. For students who begin continuous enrollment at a CCC or CSU in Fall 2005 or later, completion of, or corequisite in a 100W course is requires (Lecture, 3 hours). Three units

NuFS 144  **Food and Culture: Consuming Passions** – Cultural aspects of food as related to regional, ethnic and religious influences. Issue based examination of effects of food behavior in the on culture, society, health, and economics. Prerequisites: Completion of core GE, upper division standing (60 units). For students who begin continuous enrollment at a CCC or a CSU in Fall 2005 or later, completion of, or corequisite in a 100W course is required and passage of Writing Skills Test. Three units.

NuFS 150  **Food & Nutritional Toxicology** – Major classes of food toxicants, their importance, properties, detection, metabolism, control and regulation; and basic issues in food/diet
safety and toxicology. Prerequisites: NuFS 103, Chem 30B or Chem 8, and introductory courses in nutrition and biology. (Lecture, 2 hours). Two units.

**NuFS 163 Physical Fitness and Nutrition** – Integrating and applying principles of sound nutrition and physical activities to optimize physiological, and social lifelong development; and using scientific principles and technological advances to assess and evaluate physical fitness, dietary patterns, energy expenditure, and their interrelationships. Prerequisites: Upper division standing, passing score on Writing Skills Test, and completion of Core GE requirements. Not allowed for NuFS Majors or Minors (Lecture, 3 hours). Three units.

**NuFS 180 Individual Studies** – Individual work for majors or minors on special topics by arrangement. Prerequisites: NuFS 8; instructor and Department Chair consent during the semester prior to enrollment. (Credit/No Credit grading). 1-6 units.

**NuFS 190 Nutrition Education and Counseling** – Education principles; counseling; and communication techniques for nutritionists and dietitians working with individuals, small, and large groups. Prerequisites: NuFS 106A or admission to teacher education program and one basic nutrition course or permission of instructor. (Lecture: 3 hours). Three units.

**NuFS 192 Field Experience** – Practical application of academic principles in nutrition, food science, packaging, dietetics food management, nutrition education, and/or sports nutrition. Prerequisites: Senior standing in NuFS; instructor consent by end of the prior semester. Repeatable for credit. Credit/No credit grading. (Supervision 3 to 18 hours). One to six units.

**NuFS 194 Entrepreneurial Nutrition** – Introduction to entrepreneurial nutrition, including professional roles, skills and opportunities. Prerequisites: English 1A or instructor consent. (One hour). One unit.

**Pkg 107 Principles of Packaging** – Basic knowledge of Packaging functions, materials, and industry. A variety of packaging topics including distribution systems, package development, package design, legislation, regulations, societal and environmental issues, ergonomics and packaging careers. Prerequisites: ENGL 1A or equivalent. Three units

**Pkg 120 Artios CAD For Packaging** - Prepares students for ArtiosCAD (a packaging design tool common to the folding carton and corrugated industries). Introduces basic commands of ArtiosCAD to draw and design the representations for different products. Students use the structure database, change from 2D to 3D models, and make simple animations. (Misc/lab: 2 hours lecture/ 2 hours activity). Three units.

**Pkg 121 Solidworks For Packaging** - Prepare students for SolidWorks (a computer drawing tool) so they can generate 3-D drawings suitable for specifications and transference to computer-driven cutting tables and 3-D printers to make prototype packages. (Misc/Lab: 2 hours lecture/ 2 hours lab) Three units.

**Pkg 141A Packaging Materials I** – In-depth study of plastic and glass materials in packaging; chemical and physical properties, development, evaluation and design. Experiments in applications, design limitations and cost. Prerequisites: Pkg 107, Pkg 141A. (Lecture: Two hours, Activity: Two hours). Three units.
**Pkg 141B**  
*Packaging Materials II* – In-depth study of plastic and glass materials in Packaging; chemical and physical properties, design, manufacturing, compatibility, and evaluation. Experiments in applications, design limitations and cost. Prerequisites: Pkg 141A or instructor consent. (Lecture: Two hours, Activity: Two hours). Three units.

**Pkg 146**  
*Packaging for Medical Devices and Pharmaceuticals* – Chemical and physical properties of medical device and pharmaceuticals packages, fabrications techniques, package testing and evaluation methods, regulatory requirements, ergonomics and child resistant packages, tamper evidence, shelf life & aging, coding. Prerequisites: Pkg 107, Pkg 141A, Pkg 141B or instructor consent. (Lecture: Two hours, Activity: Two hours). Three units.

**Pkg 156**  
*Packaging Machinery Systems* – Evaluation of packaging machinery as a subset of a packaging production system. Component selection, design, and implementation of package filling lines in a production facility. Package design requirements for filling lines. Prerequisites: Pkg 107, Pkg 141A, Pkg 141B, Math 70, Math 71, Stat 95. (Lecture: Two hours, Activity: Three hours). Three Units.

**Pkg 158**  

**Pkg 159**  
*Packaging Material Handling and Distribution* – Transportation handling, and storage of packaged goods. Transportation modes, environment hazards, measurement, techniques. Military and Hazmat packaging regulations and testing classification of goods, legal requirements, export packaging. Prerequisites: Pkg 158 or instructor consent. (Lecture: Three hours). Three units.

**Pkg 169**  
*Food Packaging and Preservation* – This course investigates the interaction of food processing and packaging technology. Content includes food chemistry, microbiology in foods, food processing, and finally how packaging augments these areas in food protection and preservation. Prerequisite: PKG 107 or instructor consent.

**Pkg 170**  
*Packaging Developments and Management* – Capstone course emphasizing development and evaluation of packaging systems. Specifications and design, marketing criteria, package production, distribution performance, legal and environmental evaluations. Prerequisites: Pkg 107, Pkg 141A, Pkg 141B, Pkg 156, Pkg 158. (Lecture: Two hours, Activity: Two hours). Three units.

**Pkg 180**  
*Packaging Individual Studies* – Individual work for majors or minors on special topics by arrangements. Prerequisites: Pkg 107; instructor and department chair consent during semester prior to enrollment. One to six units.

* Fulfills a Core General Education Requirement. Please see Schedule of Classes and/or University Catalog for information on General Education.

** Fulfills a SJSU Studies (Advanced General Education) Requirement. Please see Schedule of Classes and/or University Catalog for information about SJSU Studies courses.
Appendix F.

Protected Health/Proprietary and Social Media Policy
Didactic Program in Dietetics (DPD)
Department of Nutrition, Food Science and Packaging, San Jose State University

Summary:
Patient privacy and confidentiality are professional responsibility of all healthcare providers. Respect for privacy and confidentiality of patients gives them the dignity as individuals and is important for their moral worth. The Health Insurance Portability and Accountability Act of 1996 (HIPAA) was passed to protect a person’s privacy and confidentiality in regards to their health information. The Department of Health and Human Services (HHS) and its Office for Civil Rights enforces:

- The HIPAA Privacy Rule, which was implemented in 2003 and protects the privacy of individually identifiable health information and monitors the compliance issues and sets civil money penalties in cases of violations.
- The HIPAA Security Rule sets national standards for the security of electronic protected health information.
- The HIPAA Breach Notification Rule requires covered entities and business associates to provide notification following a breach of unsecured protected health information (HHS.gov, 2014).

The Didactic Program in Dietetics (DPD) program and the Dietetic Internship (DI) at San Jose State University (SJSU) are accredited programs by the Accreditation Council of Education in Nutrition and Dietetics (ACEND). The Academy of Nutrition and Dietetics (AND) has published written policies specifying Code of Ethics, and Standards of Practice for all dietetics professionals working in the United States, in addition to an Ethics Committee that serves as the disciplinary committee monitoring all reported violations (AND, 2014).

The presence of social media in student lives and the need to abide by the HIPAA regulations has been a cause of concern for most healthcare professionals and educators. The following social media policy reiterates the ethical code of conduct as specified by AND and the HIPAA Privacy Rule.

The Protected Health/Proprietary and Social Media Policy

For the purpose of this policy, social media was identified to include any website or forum that allows for the open communication on the internet including, but not limited to social networking sites (LinkedIn, Facebook), micro-blogging sites (Twitter, Tumblr, Pinterest), blogs (WordPress, including personal), wikis (Wikipedia), social bookmarking (Delicious), and video and photo-sharing websites (YouTube, Flickr, Instagram, SnapChat).

- The policy stipulates that in general, dietetic students working as volunteers, paid employees or dietetic interns should think carefully before posting online.
- Students should carefully consider the risks and rewards with respect to each posting and should remember that any conduct, online or otherwise, that negatively or adversely impacts the job performance or conduct, the job performance or conduct of other co-workers or adversely affects clients, customers, colleagues or associates of SJSU and/or the intern’s supervised practice training site may result in disciplinary action, up to and including termination.
• Despite privacy policies, students cannot always be sure who will view, share or archive the information and they should use their best judgment and exercise personal responsibility when posting to social media websites.
• Students should not use social media during working hours or on equipment provided by the supervised practice site unless such use was work-related or authorized by a preceptor/employee.
• Where applicable law permits, SJSU and the supervised practice training site reserves the right to monitor the students or intern's use of any social media and take appropriate action with respect to inappropriate or unlawful postings.
• Employees should note that this provision is not meant to interfere or prohibit interns from engaging in concerted protected activity, which is lawful under Section 7 of the National Labor Relations Act (NLRA). In monitoring social media, SJSU and the supervised practice training site will not in any way interfere with any intern rights under Section 7 of the NLRA.
• The policy also asked students to be fair and respectful to co-workers, clients, customers, colleagues, preceptors and other individuals who may work on behalf of SJSU and the supervised practice training site.
• Any online behavior should be consistent with AND, SJSU and the supervised practice training site's policies and practices with respect to ethics, confidential information, discrimination and harassment.
• Because online tone can be interpreted in different ways by readers, students/interns should not engage in any online conduct that would not be acceptable or appropriate in the workplace.
• If a student decides to post complaint or criticism, then he/she should avoid using any statements, photographs, video or audio that may be viewed as malicious, obscene, threatening, harassing or abusive of co-workers, clients, customers, colleagues, preceptors or other individuals that work on behalf of or are associated with SJSU or the supervised practice training site.
• Students need to consider the value of linking websites, liking, friending, following and endorsing and the message that may be conveyed to their audience.
• It is strongly discouraged to “friending” of patients on social media websites. Students volunteering or working in healthcare settings should not initiate or accept friend requests except in unusual circumstances such as the situation where an in-person friendship pre-dates the treatment relationship.
• Write in the first person. Where your connection to the SJSU DPD or the healthcare setting is apparent, make it clear that you are speaking for yourself and not on behalf of the agencies. In those circumstances, you should include this disclaimer: "The views expressed on this [blog; website] are my own and do not reflect the views of the SJSU DPD or my employer." Consider adding this language in an "About me" section of your blog or social media profile.

CONFIDENTIALITY ACKNOWLEDGEMENT
RE: PROTECTED HEALTH/PROPRIETARY INFORMATION

In connection with the DPD Program, I agree to adhere to the following:

In connection with my clinical training /practicum [hereinafter referred to as “clinical experience"], I recognize that I may have access to oral information and review of records and charts of patients, whether by paper copy or computer/electronic files, which may contain protected health information, the unauthorized disclosure of which is prohibited by the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), as well as other proprietary/confidential information of the clinical experience facility(s).

I further agree to abide by all policies of the DPD program and the facility(s) to which I am assigned. I understand that the confidential/proprietary information to which I am privy shall remain confidential after completion of the course(s). I understand that any disclosure by me of such confidential/proprietary information, at any time, whether orally, hard copy/paper or electronically, including removal of same, could subject me to substantial civil as well as criminal penalties imposed by law. It is hereby acknowledged that my responsibility to maintain the confidentiality of such confidential/proprietary information shall apply to any facility in which I am placed for clinical training/instruction/observation during my tenure as a student at San Jose State University regardless of whether or not said facility is specifically listed above.

I further agree that should confidential/proprietary information be disclosed by me in any manner or form or copies made or distributed (paper or electronic) by me in violation of this agreement, Family Education Rights and Privacy Act (FERPA), or any rules or policies of SJSU or the facility to which I am/have been assigned, HIPAA, or any other applicable laws or regulations, I will immediately notify the faculty person assigned to me/my clinical experience or the Department Chair.

By signature below, I hereby acknowledge that I am 18 years of age or older and that I agree to the terms and obligations as set forth above.

I have read and understand the Protected Health/Proprietary and Social Media Policy as written.

Or by Advisement

1Accreditation by the Council for Education in Nutrition and Dietetics (ACEND). Registered Dietitian (RD) status requires completion of Dietetic Internship (DI) beyond degree (see DI brochure for Internal DI; external DI information on AND website). Graduate student or transfer student opting for a DI needs to have transcript evaluated at the beginning of your program. For an official DPD transcript evaluation, please see Dr. Wagle, Chair and DPD Director, CCB 200 (408) 924-3100. To obtain DPD Verification, you must submit an official transcript indicating your B.S. degree and all courses required for the DPD.

2Courses fulfill requirements for General Education (GE) Areas as specified.
The following road map is an advising tool that outlines a path of courses a student can take to complete requirements for graduation. This roadmap should be used in consultation with the catalog and your department to identify additional requirements for completing the major (for example course grade minimums).

Students must have 60+ units in order to take SJSU Studies courses.

Notes:
¹ Accreditation by the Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics.
³ Biol 65 is a recommended prerequisite for Biol 66, but is not required in the major.
⁴ HPrf 135 and NuFS 144 meet 6 units of SJSU Studies requirements; can be double counted in the major and for SJSU Studies Areas S & V; requires Eng 1A, 1B, passage of WST.
⁵ NuFS 106A requires passage of WST Exam and co-enrollment or completion of HPrf 100W, NuFS 31.
