

Suzanne Walter, OTS, won a scholarship for the CSU Trustees' Award for Outstanding Achievement. It's a CSU system wide scholarship, and only one SJSU student is chosen to represent the entire school each school year. The financial aid committee for the scholarship is the only scholarship that requires an interview and press release. In September, she will be flying down to Los Angeles for an awards banquet to meet all the CSU trustees and donors. Brittney Weinerth, MS, OTR/L (another SJSU alum and lecturer at SJSU), helped Suzanne get this scholarship by providing an excellent written reference.

The CSU Trustees' Award for Outstanding Achievement (previously known as the William Randolph Hearst Scholarship) recognizes students who have demonstrated financial need, experienced hardships, have attributes of merit and must have at least a 3.0 GPA, including superior academic performance, significant personal achievements, and exemplary community service. This prestigious CSU wide scholarship recognizes students who have overcome adversity, demonstrated financial need (via FAFSA or Dream Act), and have attributes of merit including superior academic performance, significant personal achievements, and exemplary community service.
