

Planner for Incoming Freshman

Using information from the catalog, your major department’s website, and with the assistance of the department advisor, please note which courses you will be taking each semester.

Information on General Education:

The GE courses are found in the schedule of classes under “Information, Policies and Procedures”. If you plan carefully, the courses taken in American Institutions will count in Core GE. Please remember that the units only count one time. This means you will have more open elective options, but you still need 48 units of GE.

Most departments require that you meet with an advisor every year and some departments require that you meet with an advisor every semester.
