San José State University  
Department of Physics and Astronomy  
Physics 51: General Physics (Electricity and Magnetism)  
Spring 2016

Instructor: Professor Kiumars Parvin  
Office Location: Science 322  
Telephone: 408-924-5272  
Email: kiumars.parvin@sjsu.edu  
Website: http://www.sjsu.edu/people/kiumars.parvin

Office Hours: TR: 1300 - 1400, Sci 322 (You may call for appointment or drop in at other times.)  
Class Days/Time: TR: 1500 – 1615  
Classroom: Science 253  
Prerequisites: Physics 50 and Math 31 both with grades C- or higher.  
Corequisite: Physics 51 Lab

Course Description  
This class covers the basics of electromagnetism that involves electric and magnetic fields, fundamental electric components, and electric circuits.

Required Text  
University Physics, Volume Two, 14th Edition, Young and Freedman, Addison-Wesley  
Chapters to be covered: 21 – 31.

Homework:  
Students are required to register online to access the homework website, and do homework online. If you buy a new book, it comes with a package called Mastering Physics, Student Access Kit. Follow the instruction inside the package for registration. You also need the following:
- Your personal access code which is beneath the pull-tab inside your Access Kit.
- A course ID which is MPPARVIN51SPRING2016.  
- A valid email address.
If you did not buy a new book, here are two options to get an access code and, then follow above procedure. You may return your book and purchase a new book, which comes with a Mastering Physics package. You can purchase an access code online with an e-textbook (lasts 24 months) or without an e-textbook (lasts 24 months). For this option follow these steps.

Go to the site [http://www.masteringphysics.com](http://www.masteringphysics.com).

Click on the picture of the front page of our textbook.

Then choose whether or not you would like the e-textbook

Once you have chosen this, register and pay.

*Note: You may already have access to Mastering Physics. If this is the case, you just need to enroll into the course using the Course ID MPPARVIN51SPRING2016. Also, you may already have a Pearson account. If you are unsure, go to Student Register and click **forgot password**.

**Examinations**

There will be two midterms and a final comprehensive examination. All exams will be closed book closed note except for final exam in which a formula sheet prepared by instructor will be provided. Each exam will have standard problems, multiple-choice problems, and/or True/False questions on concepts. It is strongly recommended that students study the Summary and Key Terms listed at the end of each chapter for the concept part of the examinations.

**Tentative Midterm Exam Dates**

Midterm 1: Tuesday, March 8, 1500 – 1615, Chapters 21, 22, 23, 24 in Science 253

Midterm 2: Tuesday, April 25, 1500 – 1615, Chapters 25, 26, 27, 28 in Science 253

There will be no make-up tests.

**Final Examination Date**

Final Examination will be on Monday May 23, 2016, 1445 – 1700 in Science 253.

You must discuss any exam conflict you have with all your instructors as soon as possible.

**Grading**

Grades are assigned based on the following format:

<table>
<thead>
<tr>
<th>Laboratory</th>
<th>15%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Homework</td>
<td>19%</td>
</tr>
<tr>
<td>Midterm 1</td>
<td>17%</td>
</tr>
<tr>
<td>Midterm 2</td>
<td>22%</td>
</tr>
<tr>
<td>Final exam (comprehensive)</td>
<td>27%</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Minimum Score</th>
<th>93</th>
<th>89</th>
<th>85</th>
<th>81</th>
<th>77</th>
<th>73</th>
<th>69</th>
<th>65</th>
<th>61</th>
<th>58</th>
<th>55</th>
<th>&lt;55</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course Grade</td>
<td>A</td>
<td>A-</td>
<td>B+</td>
<td>B</td>
<td>B-</td>
<td>C+</td>
<td>C</td>
<td>C-</td>
<td>D+</td>
<td>D</td>
<td>D-</td>
<td>F</td>
</tr>
</tbody>
</table>
Course Learning Outcomes (CLO)

Upon successful completion of this course, students will be able to:

CLO 1: calculate electric field from knowledge of a given charge distribution.
CLO 2: calculate electric potential from knowledge of a given charge distribution.
CLO 3: analyze electric circuits containing resistors, capacitors, and batteries.
CLO 4: calculate magnetic field from knowledge of electric current source.
CLO 5: calculate voltage induced in a system due to a time-dependent magnetic flux
CLO 6: analyze electric circuits containing resistors, inductors, and batteries.
CLO 7: analyze electric circuits containing resistors, capacitors, inductors, and an AC source.
CLO 8: understand the properties of an electromagnetic wave containing electric and magnetic fields.

Adding Procedure

If you intend to add this course (lecture and lab), you need to visit Physics and Astronomy Department website (http://www.physics.sjsu.edu) in which appropriate instruction is posted in the front page.

Students are responsible for understanding the policies and procedures about add/drop, grade forgiveness, etc. Refer to the current semester’s Catalog Policies section at the site: http://info.sjsu.edu/static/catalog/policies.html.

Add/drop deadlines can be found on the current academic calendar web page located at http://www.sjsu.edu/academic_programs/calendars/academic_calendar/.

The Late Drop Policy is available at http://www.sjsu.edu/aars/policies/latedrops/policy/.

Students should be aware of the current deadlines and penalties for dropping classes. Information about the latest changes and news is available at the Advising Hub at http://www.sjsu.edu/advising/.

Dropping Policy

If you decide to drop this class, you must drop lecture and lab. It is the policy of the Physics and Astronomy Department that these three classes must be taken during the same semester.

University Policies

Academic Integrity

Your commitment as a student to learning is evidenced by your enrollment at San Jose State University.

The University’s Academic Integrity policy, located at http://www.sjsu.edu/senate/S07-2.htm, requires you to be honest in all your academic course work. Faculty members are required to report all infractions to the office of Student Conduct and Ethical Development. The Student Conduct and Ethical Development website is available at http://www.sjsu.edu/studentconduct/.
Instances of academic dishonesty will not be tolerated. Cheating on exams or plagiarism (presenting the work of another as your own, or the use of another person’s ideas without giving proper credit) will result in a failing grade and sanctions by the University. For this class, all assignments are to be completed by the individual student unless otherwise specified. If you would like to include your assignment or any material you have submitted, or plan to submit for another class, please note that SJSU’s Academic Policy S07-2 requires approval of instructors.

**Campus Policy in Compliance with the American Disabilities Act**

If you need course adaptations or accommodations because of a disability, or if you need to make special arrangements in case the building must be evacuated, please make an appointment with me as soon as possible, or see me during office hours. Presidential Directive 97-03 requires that students with disabilities requesting accommodations must register with the [Accesible Education Center](http://www.sjsu.edu/aec/) at http://www.sjsu.edu/aec/ to establish a record of their disability.
