For Heather: May want to change "outlet" in intro to "dispaced". Change "was" to "ways".  
Good summary of methods.

For Thai: Great Visuals! Color makes it hard to read.

For Maria: Nicely concise - ~~was~~ the most important info is on the poster. Good use of background graphic. More visuals to break up the wording would be nice.

For Casey: The presentation is very well done ~~contains~~ aesthetically contains the most important info.

Nice layout! maybe change colors of sections.  
- May want to change colors b/c a little hard to read  
Great layout! Nice placement of graphs.  
Maybe separate sections
