Getting Started: You should have your student ID number and your library PIN number in order to gain remote access from off campus to the library's databases.

Finding Books: Use the online catalog at: <http://library.sjsu.edu> to search for books by author, title or keyword. Check **Link+** for books not available or not found at King Library. You may also request books not listed in the SJSU library through the **Interlibrary Services Department** of the King Library. You must register online first to establish an account. library.sjsu.edu/linkinterlibrary-loan-other-resources

New Library Catalog – Discovery Center: A search in the new catalog will provide a list of books, journal articles and other resources. Note that the article search is not comprehensive and may not be searching databases that are essential to your topic.

Finding Journal Articles: Use the library article databases. From library.sjsu.edu select the **Articles & Databases** link library.calstate.edu/sanjose/. From the A-Z list, select S, scroll and select **Sociological Abstracts**. You may also go to the Sociology libguide for the subject of sociology and select the tab which says articles and databases to find recommended databases for your discipline. libguides.sjsu.edu/sociology

Essential Databases

Soc Index with Full Text. Provides full text journal articles many in pdf format from core sociology journals and related disciplines such as social work and criminology.

Sociological Abstracts. You will find abstracts of journal articles, book chapters, conference papers and dissertations in sociology and related social and behavioral sciences. Use the **Get Text** feature to find electronic copies of articles or check the SJSU Library Catalog for print subscriptions.

JSTOR. A full text database which includes 128 journals in the field of Sociology. It does not include the 5 most recent years of these journals.

Sage Journals Online. Provides the full text of articles from 78 sociology journals and 27 journals in criminology. This database provides full text of many of the articles located in the *Sociological Abstracts* database.

Other useful databases

Academic Search Premier. Provides subject indexing and full text access to periodicals in many academic disciplines.

Criminal Justice Abstracts. You will find abstracts of journal articles in the areas of criminology, corrections and policing.

Social Sciences Full Text. Indexes journal articles in a broad array of social science disciplines and provides *some* full text of articles.

Databases which provide pro and con arguments and references to additional resources on current social and political issues:
