On-campus Interviews: March 30 - April 7 (tentatively scheduled). Visit the SJSURF Executive Director search page for more information.

College and Department Updates

CASA posts an "International Experience" website
The website was launched as part of an effort to inform new students in four departments about required international experience prior to graduation:

- The School of Journalism and Mass Communication
- The Valley Foundation School of Nursing
- The Department of Occupational Therapy
- The School of Information

Visit the website to learn more about the new requirement for an international experience prior to graduation from those four programs. The site provides details about the program and suggests types of study abroad that are acceptable. You'll also find contact information for advisers.
Donate for the Annual Love for the Troops

Associated Students is hosting an event to put care packages together and write thank you letters for U.S. military. **February 11, 11:00am Smith Carlos Lawn.**

Shift magazine, the student-run news magazine focused on innovation for the common good is now available for the first time through iTunes. The new delivery system was made possible by professor Tom Ulrich who
SVCE's Eminent Speaker Series
You are cordially invited to the first event in the Silicon Valley Center for Entrepreneurship's Eminent Speaker series this semester on Monday, February 16, 6:00 - 7:30pm in MLK 225/229. The title of the session is "Entrepreneurial Opportunities in an Evolving Space: the Business of Digital Currencies," brought to you by San José State University in collaboration with the City of San José.

Elaine Chin
Reappointed Dean of the Connie L. Lurie College of Education
The report was prepared by an 8 member review committee and was based on input gathered from faculty, students, staff, administrators and community members. Provost Feinstein commented, "The Committee recommended Dean Chin’s re-appointment. Respondents to the survey noted her competent leadership and effective efforts in planning, curricular development and resource management. I would personally add that she has excelled as an outstanding team player in Academic Affairs."

Research Foundation Key Word List – Research Opportunity Alerts

If you have not yet registered for or updated your key word list with the SJSU Research foundation, you could be missing some important research
Honors Convocation - Save the Date
This year's Honors Convocation will take place on Friday, April 24, 2015. Visit the Honors Convocation website for more information.

Updates to the STAR ACT
SJSU has added the most recent finalized TMC in Biology to the list of approved AA-T or AS-T degrees under the STAR Act (SB 1440). SJSU faculty have deemed 29 of the 33 Transfer Associate Degrees as similar to 58 of our degree programs at SJSU. You may visit the Graduate and Undergraduate Programs website for more information about the STAR Act (SB 1440).

The SJSU Research Foundation Funding Alert System uses a database that matches faculty interests with external funding opportunities collected from various sponsoring agencies, and then sends email notifications to faculty subscribers based on the keywords they provide. A keyword represents a faculty member’s topic of research or development. Faculty who are interested in receiving alerts regarding funding opportunities may subscribe to the SJSU Research Foundation Funding Alert System. To do so, please complete and email the Funding Alert System Keyword Selection and Subscription Form to foundation-osp-infoservices@sjsu.edu.

To keep our service focused on specific areas of interest, subscribers are asked to include a brief description of their research interest and limit their choices to approximately ten keywords. The subscription form with sign up instructions and current list of keywords are located on the SJSU Research Foundation website on the Funding Alert System—Keyword Selection and Sign-up webpage. Subscribers may also suggest subject areas that are not included in the current list of keywords, by emailing suggestions to foundation-osp-infoservices@sjsu.edu.

For questions, please contact Brenda Swann brenda.swann@sjsu.edu or Carmina Som carmina.som@sjsu.edu.
This website displays the 60 unit road maps for the 58 approved programs and includes department Advisor contact information.

The following TMCs or Model Curriculum are currently being reviewed by the CCCs/CSUs or in the queue for discussion under the STAR Act:

**TMCs:**

- Environmental Science/Studies
- Exercise Science
- Graphic Arts/Graphic Design
- Hospitality/Hotel Management
- Public Health Science
- Social Work

**Model Curricula:**

- Engineering - EE/Comp
- Engineering - Mech/Civil/Aero/Manu
- Information Technology (formerly Information and Communication Technologies)
- Nursing

**Kay Armstrong Center for Communicative Disorders**

Serving the Community and the Campus

Located in Sweeney Hall, the Kay Armstrong Center for Communicative Disorders Department and serves pediatric and adult populations. It provides much-needed cost effective services for clients with speech articulation deficits such as stuttering, neurological impairments, developmental delays, and transgendered voice. KACCD serves both the SJSU and diverse south bay communities. Students, faculty, staff and local residents are welcome to inquire about clinic services.

Referrals are accepted at any time. The clinic typically provides 4,089 visits per year, some are one-time diagnostic visits while most clients are participating in ongoing therapy. The clinic also provides screening out in the community for hearing and pre-school language at

**New Innovative Seating and Collaborative Spaces in the CFD**
You will be amazed by the creative and comfortable new spaces in the Center for Faculty Development! The first is a newly created reading room/informal collaboration space/library in IRC 213. It houses resources for faculty on teaching, learning and inclusive excellence as well as career planning. It is equipped with a dedicated desktop computer and printer, comfortable furniture, as well as its very own endless coffee/tea/hot beverage machine.

The second is a newly designed “21st Century Teaching, Learning and Professional Development Program space”, in IRC 210.

The student clinicians are 1st year graduate students working under supervision. In addition to classes specific to the field, they learn the basic fundamentals of time management, documentation and the practical aspects of therapy. They also learn to work with exciting new developments in the specialty clinics such as the Augmentation and Alternative Communication clinic which works with devices similar to that used by Stephen Hawking. Funds for a state-of-the-art lab were donated by Marian Cilkes.

The KACC clinic’s main purpose is to provide a 2-year training program for graduate students, providing approximately 40 trained graduates each year. To become certified clinicians, graduates must have completed a master’s degree, a praxis test, a clinical fellowship for one year and pass all requirements for the ASHA national certificate and state licensing boards.

For more information check the website or contact the director, Carlin Graveline or Department Chair, Michael Kimbarow.

If you have a story you’d like to see in the Academic Affairs Division
It houses a two-screen Mediascape, a Smartboard, fixed & movable whiteboards, flexible seating and easily re-configured work-surfaces.

It also features a “campfire”-style reading/collaboration alcove. These wonderful resources are available whenever not in use for workshops. Come and enjoy.
