

Wired Internet Access for ADM 167

Two network ports are available for use by persons using the conference room. If you need to hook up more than two machines simultaneously, you will need to use the Wireless Access Point for subsequent connections. For wired access, use the available cables (light blue) that are plugged into the wall ports. Do not unplug these from the wall, they are marked with information that is specific to ADM 167.

Network Configuration Instructions:

Windows 2000/XP Computers:

You must have Administrative rights on the computer to change these settings. If you do not have these rights, you need to talk to your own Systems Administrator for assistance. Neither the Provost's Office, nor the SysAdmin for this room can assist you if you are unable to change these settings.

1. Right click on My Network Places
2. Select Properties
3. Right click on Local Area Connection
4. Select Properties
5. Under "This connection uses the following items:" find Internet Protocol (TCP/IP). Double click on this item.
6. On the General tab, Select "Use the following IP address:"
 - a. IP Address: **130.65.136.10** or **130.65.136.11** (if setting up more than one machine)
 - b. Subnet Mask: **255.255.255.0**
 - c. Default Gateway: **130.65.136.254**
 - d. Preferred DNS server: **130.65.120.1**
 - e. Alternate DNS server: **130.65.3.1**
7. Click on the Advanced... button
8. Select the DNS tab
9. At the bottom, find "DNS suffix for this connection:" Enter **sjsu.edu**
10. Click OK three times to exit the Network properties.
11. Test your internet connection with a web browser. You should be up and running.

Mac OS X Computers:

1. Go to the Apple Menu
2. Select System Preferences
3. Open the Network control panel
4. From the "Show:" drop down box, select Built-in Ethernet
5. On the TCP/IP tab, choose Configure: Using Manually Assigned IP, enter the following:
 - a. IP Address: **130.65.136.10** or **130.65.136.11** (if setting up more than one machine)
 - b. Subnet Mask: **255.255.255.0**
 - c. Router: **130.65.136.254**
 - d. Domain Name Servers: **130.65.120.1**
 - e. Search Domains: **sjsu.edu**

6. Close the window, and click Save when prompted.
7. Test your internet connection with a web browser. You should be up and running.

Wireless Internet Access

Your computer (if equipped with a wireless network adapter) should automatically find any available wireless networks. The SJSU wireless network uses the SSID **SJSU**, and authentication through a web-based login screen. When you connect to the SJSU wireless network, and launch a web browser, you will be redirected to the authentication page. If you are an SJSU affiliate and have a current SJSUOne account, you may enter your EmplID and password, accept the licensing agreement, and connect.

If you are a Guest, simply enter your email address, accept the licensing agreement, and connect at a slightly limited speed.

Regardless of your status, please read the Licensing agreement provided on the login page. This gives you valuable information regarding security, support, and instructions for use.

General Information

If you have reserved this conference room, you agree to one of the following terms:

_____ You are capable of following the above instructions for configuring your own computer for use of the wired and/or wireless networks, and will require no assistance from SJSU technical support. The Provost's Office Administrative Staff are in no way responsible for the network access in this room.

_____ You have contacted technical support at least 24 hours prior to the meeting and scheduled an appointment with a tech to meet you and assist in network configuration (*See "Getting Help" below for procedure*). You may either request a pre-meeting to learn how to use the conference room network, or have asked the tech to meet you 5 minutes prior to the meeting for on-site assistance. You will also be responsible for providing Administrative access to the computer that will be used.

This information pertains only to the network access portion of the conference room. All Audio/Visual equipment is managed and supported by Media Services, at 924-2888. If you require any assistance with the video projector or other A/V services of the conference room, you will need to contact them at least 24 hours before the meeting.

Getting Help- Technical Assistance Contact Information

To request further information about internet access or to schedule a technician to assist you, send an email to help@help.sjsu.edu with Subject line **itss-bri** (case-sensitive). In the body of the message, please include your name, phone number, and preferred email address to contact you. If you have already reserved ADM 167 for a meeting, and are requesting support, include the date and time of the meeting. A technician will contact you to answer your questions and/or schedule an appointment.
