Classroom Protocol:
This course is based on the active participation of the student, and the main requirement is READING and ATTENDANCE. You are expected to read the assigned materials before class, so that the teacher can elaborate and expand. Because of time constraints it may not be impossible to cover all the segments of a given unit. However, you are responsible for all the assigned reading, as the exams will include questions from ALL the parts of the unit. We will cover one chapter per week, and follow the sequence of the textbook, chapter-by-chapter. Some parts of the chapters will be skipped, please see reading list below.

Review sessions: Approximately every two weeks we will have review session for the previously studied material. We will divide into groups, led by students. Your participation is highly encouraged.

The best way to contact me is via e-mail. In the subject line please specify the title of the class. If you leave a phone message, speak slowly and clearly, and when you leave a phone number speak VERY clearly, and repeat the number.

Attendance:
Your regular attendance and participation are factors contributing to the successful completion of this course. If you do not attend class you will miss on the opportunity to ask questions and to get clarifications. In addition, please make all effort to come to class on
time. Tardiness disturbs the instructor and other students, and also deprives you of the short reviews of the previous lecture that are presented at the beginning of each class.

If you hold a full time job, please make all effort to attend class regularly, and to study each night for at least an hour and a half. Cramming before the test has not been very effective for most students. As you read, take notes and go over the material that has been discussed in class, pay attention to concepts, and examples of these concepts. Be familiar with important studies. Chapter summaries are posted on my website (see address above).

Distractions:

You cannot surf the Internet, text-message, check your messages or respond to cell-phone during class.

Teacher Availability:
Do not hesitate to e-mail me or to come by with questions. If you have not done so well on any of the tests, please come to see me ASAP, in order to go over test questions that you missed, so we can understand how you interpreted the questions, and devise strategies for doing better on the next test.

Dropping and Adding

Students are responsible for understanding the policies and procedures about add/drops, academic renewal, etc. Information on add/drops are available at http://info.sjsu.edu/web-dbgen/narr/soc-fall/rec-298.html. Information about late drop is available at http://www.sjsu.edu/sac/advising/latedrops/policy/. Students should be aware of the current deadlines and penalties for adding and dropping classes.

Assignments and Grading Policy

Homework Assignments:
To help you process and retain the information, you will be assigned glossary review and quizzes from the above-mentioned link. It is up to you to follow the assignment.

Extra Credit:
Please note that I do not give extra-credits. You mastery of the subject matter as measured on the exams is the factor that counts.

For this class, all assignments are to be completed by the individual student unless otherwise specified. If you would like to include in your assignment any material you have submitted, or plan to submit for another class, please note that SJSU’s Academic Policy F06-1 requires approval of instructors.
