Personal Class Contacts:

Instructor: Chad Kempel
Office Location: DMH 230
Telephone: 408-924-5614 (I prefer that you email me)
Email: Chad.Kempel@sjsu.edu
Office Hours: Monday and Wednesday: 2:15 p.m. – 2:45 p.m.
Class Days/Time: Monday and Wednesday: 3:00 p.m. - 4:15 p.m.
Classroom: Clark 117
Prerequisites: Satisfaction of ELM requirements; 2 years of H. S. Algebra.
GE/SJSU Studies Category: Intended for majors in education, nursing, personnel administration, psychology, social service and sociology, and psychology minors. GE: B4 (Mathematical Concepts) and CAN STAT 2

Course Description
Organization and classification of data, graphic representation, measures of central tendency and variability, percentiles, normal curve, standard scores, correlation and regression, and introduction to statistical inference; use of microcomputers for statistical calculations.

Learning Outcomes

Course Learning Outcomes (CLOs)
Upon successful completion of this course, students will be able to:

CLO1 - Stat 95 requires students to write a minimum of 500 words in a manner appropriate to quantitative analysis. The writing requirement will be met via an SPSS assignment (details will be posted on Desire2Learn). This assignment must be completed in order to receive a passing grade in this class. Writing will be assessed for grammar, clarity, conciseness, and coherence.
CLO2 - Stat 95 will incorporate issues of diversity in many ways (e.g., in lectures, films, assignments)

CLO3 - In terms of Mathematical Concepts (Area B-4), Stat 95 will focus on:
   a. Basic mathematical techniques for solving quantitative problems
   b. Elementary numerical computation
   c. The organization, classification, and representation of quantitative data in various forms, such as tables, graphs, rates, percentages, measures of central tendency and spread
   d. Applications of mathematics to everyday life
   e. Applications of mathematical concepts in statistical inference

GE/SJSU Studies Learning Outcomes (LO)
Upon successful completion of this course, students will be able to:
   LO1 - To use statistical methods to solve quantitative problems, including those presented in verbal form
   LO2 - To demonstrate the ability to use mathematics and statistics to solve real-life problems
   LO2 - To arrive at conclusions based on numerical and graphical data.

Program Learning Outcomes (PLO)
Upon successful completion of the psychology major requirements…

   PLO1 – Knowledge Base of Psychology – Students will be able to identify, describe, and communicate the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.

   PLO2 – Research Methods in Psychology – Students will be able to design, implement, and communicate basic research methods in psychology, including research design, data analysis, and interpretations.

   PLO3 – Critical Thinking Skills in Psychology – Students will be able to use critical and creative thinking, skeptical inquiry, and a scientific approach to address issues related to behavior and mental processes.

   PLO4 – Application of Psychology – Students will be able to apply psychological principles to individual, interpersonal, group, and societal issues.

   PLO5 – Values in Psychology – Students will value empirical evidence, tolerate ambiguity, act ethically, and recognize their role and responsibility as a member of society.
Required Texts/Readings

Textbook

- Hardcover $115.49 (CengageBrain.com)
- Paperback <$97 (on Amazon.com)
- Kindle $46.66 (Amazon.com)
- eBook $78.99 (6 months; CengageBrain.com)
- Rental $86.99 (130 days; CengageBrain.com)
- eChapters $10.50 /chapter (CengageBrain.com)

Other equipment / material requirements

1. Computer, printer, internet and library access
2. Scantron (882) forms and #2 pencils
3. Access to Statistical Package for the Social Sciences (SPSS) software (v. 16.0 or later). See the “Student Technology Resources” section below for details.
4. Calculator (must have square root and exponent buttons; cell phone calculators will not be allowed during exams)

Class Website
1. All course material will be distributed via Desire2Learn (https://sjsu.desire2learn.com/). You are responsible for checking Desire2Learn daily for announcements. Online tutorials for how to use Desire2Learn can be found online at http://www.sjsu.edu/ecampus/students/D2L_students/index.htm

Definition of a Credit Hour
Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of forty-five hours over the length of the course (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction or preparation/studying or course related activities including but not limited to internships, labs, clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.

As an example, the expectation of work for a 3-credit course is 150-minutes of direct faculty instruction and six hours of out-of-class student work each week.

Classroom Protocol
Classes will be comprised of lectures, in-class activities, question-and-answer periods, and video clips. Attendance is expected and is critical for success in this course. If you miss a class, you are responsible for getting the information covered from a classmate, so make friends. It is vital that you complete all scheduled readings and assignments before
each class. Do not talk, read, or text message during class. Please arrive to class on time and stay the entire time.

**Recording of Class Lectures**

Common courtesy and professional behavior dictates that you notify someone when you are recording him/her. You must obtain the instructor’s permission to make audio or video recordings in this class. This permission allows the recordings to be used for your private, study purposes only. The recordings are the intellectual property of the instructor; you have not been given any rights to reproduce or distribute the material.

- If you would like to record the lectures please inform me before doing so.

Course material developed by the instructor is the intellectual property of the instructor and cannot be shared publicly without his/her approval. You may not publicly share or upload instructor-generated material for this course such as exam questions, lecture notes, or homework solutions without instructor consent.

**Dropping and Adding**

Students are responsible for understanding the policies and procedures about add/drop, grade forgiveness, etc. Refer to the current semester’s Catalog Policies section at http://info.sjsu.edu/static/catalog/policies.html. Add/drop deadlines can be found on the current academic calendar web page located at http://www.sjsu.edu/academic_programs/calendars/academic_calendar/. The Late Drop Policy is available at http://www.sjsu.edu/aars/policies/latedrops/policy/. Students should be aware of the current deadlines and penalties for dropping classes.

Information about the latest changes and news is available at the Advising Hub at http://www.sjsu.edu/advising/.

Exams, Participation, and Assignments

Exams
After every two to three chapters there will be an in-class exam (seven total) that tests your knowledge of the topics covered in those chapters and the material covered in the corresponding lectures. See the course schedule for specific topics and dates of these exams. Exams will consist of multiple choice, true/false, short answer/essay, and computational questions. Make sure to bring your calculator, scantron (882), and #2 pencils to the exams. There will not be any make-up exams.

What if I miss an exam for reasons beyond my control (e.g., car trouble, death in the family, etc.)?
If you need to miss an exam for any reason you will need to take an oral version of the exam during my next available office hour. During the oral exam you will receive half a point for each question you answer correctly and half a point for explaining why the answer is correct.

Challenge Exams
You can challenge up to three of your exam grades on the day of our final. You challenge your exam grade by retaking a similar exam on the same topics as the exam. Your grade on the challenge exam will replace your original grade (BETTER or WORSE). Missed exams cannot be challenged.

Participation
Participation is important in this class. There will be almost daily opportunities for you to participate during lectures by providing feedback, interacting with classmates, and responding to multiple choice / short answer questions. The 100 points (10% of your grade) for participation will not just be given away. If you do not participate in class you will not earn the points.

In-Class Assignments / Homework
In-class assignments (10 total) will be given without advanced notice. These assignments will consist of group or individual problem solving, discussions, brief presentations, or other learning assignments. In-class assignments cannot be made-up at a later date; you must be present on the day that the assignment is given.

SPSS Assignment
You are required to complete a writing assignment using SPSS. Your paper must be at least 500 words (you will likely go well beyond 500 words; e.g., there are 483 words on this page). The assignment must be completed in order to receive a passing grade in this class. Assignments must be submitted on time the day that they are due. Late SPSS assignments will be marked down 10% for each weekday they are late. The assignment must be typed and handed in with a printout of your data and SPSS output. See the “Student Technology Resources” section below for instructions on how to get access to SPSS software. The details of this assignment will be announced through Desire2Learn.

University Policies

Academic integrity
Your commitment as a student to learning is evidenced by your enrollment at San Jose State University. The University’s Academic Integrity policy, located at http://www.sjsu.edu/senate/S07-2.htm, requires you to be honest in all your academic
course work. Faculty members are required to report all infractions to the office of
Student Conduct and Ethical Development. The Student Conduct and Ethical
Development website is available at http://www.sjsu.edu/studentconduct/.

Instances of academic dishonesty will not be tolerated. Cheating on exams or plagiarism
(presenting the work of another as your own, or the use of another person’s ideas without
giving proper credit) will result in a failing grade and sanctions by the University. For
this class, all assignments are to be completed by the individual student unless otherwise
specified. If you would like to include your assignment or any material you have
submitted, or plan to submit for another class, please note that SJSU’s Academic Policy
S07-2 requires approval of instructors.

Campus Policy in Compliance with the American Disabilities Act

If you need course adaptations or accommodations because of a disability, or if you need
to make special arrangements in case the building must be evacuated, please make an
appointment with me as soon as possible, or see me during office hours. Presidential
Directive 97-03 requires that students with disabilities requesting accommodations must
register with the Disability Resource Center (DRC) at http://www.drc.sjsu.edu/ to
establish a record of their disability.

Student Technology Resources

You can purchase a copy of SPSS for $15 at the University Help Desk on the first floor
of Clark Hall. Be sure to get the newest SPSS license code for the operating system you
own (Mac or Windows).
A second option is to use the computers in the Statistics Lab located in DMH 350. These
computers are equipped with SPSS and Graduate Student Teaching Assistants can
provide you with assistance on how to use the program. They will not do your
assignments for you. It is up to you to figure out when the Statistics Lab is open.

Computer labs for student use are available in the Academic Success Center located on
the 1st floor of Clark Hall, on the 2nd floor of the Student Union, and in the Martin
Luther King Library. Computers in these three locations may not be equipped with SPSS.

SJSU Writing Center

The SJSU Writing Center is located in Room 126 in Clark Hall. It is staffed by
professional instructors and upper-division or graduate-level writing specialists from each
of the seven SJSU colleges. Our writing specialists have met a rigorous GPA
requirement, and they are well trained to assist all students at all levels within all
disciplines to become better writers. The Writing Center website is located at
http://www.sjsu.edu/writingcenter/about/staff/.

SJSU Peer Connections

The Learning Assistance Resource Center (LARC) and the Peer Mentor Program have
merged to become Peer Connections. Peer Connections is the new campus-wide resource
for mentoring and tutoring. Our staff is here to inspire students to develop their potential as independent learners while they learn to successfully navigate through their university experience. Students are encouraged to take advantage of our services which include course-content based tutoring, enhanced study and time management skills, more effective critical thinking strategies, decision making and problem-solving abilities, and campus resource referrals.

In addition to offering small group, individual, and drop-in tutoring for a number of undergraduate courses, consultation with mentors is available on a drop-in or by appointment basis. Workshops are offered on a wide variety of topics including preparing for the Writing Skills Test (WST), improving your learning and memory, alleviating procrastination, surviving your first semester at SJSU, and other related topics. A computer lab and study space are also available for student use in Room 600 of Student Services Center (SSC).

Peer Connections is located in three locations: SSC, Room 600 (10th Street Garage on the corner of 10th and San Fernando Street), at the 1st floor entrance of Clark Hall, and in the Living Learning Center (LLC) in Campus Village Housing Building B. Visit Peer Connections website at [http://peerconnections.sjsu.edu](http://peerconnections.sjsu.edu) for more information.

**Student Success and Wellness**

Attending to your wellness is critical to your success at SJSU. I strongly encourage you to take advantage of the workshops and programs offered through various Student Affairs Departments on campus such as Counseling Services, the SJSU Student Health Center/Wellness & Health Promotion Dept., and Career Center. See [http://www.sjsu.edu/wellness](http://www.sjsu.edu/wellness) or [http://www.sjsu.edu/counseling/Workshops/](http://www.sjsu.edu/counseling/Workshops/) for workshop/events schedule and links to many other services on campus that support your wellness! You may go to [http://events.sjsu.edu](http://events.sjsu.edu) to register for any one of the workshops.
