Psychology 203A (01)
Clinical Assessment
Fall, 2018

Instructor: Glenn M. Callaghan, Ph.D.
Office Location: DMH 322
Telephone: 408-924-5610
Email: Glenn.Callaghan@sjsu.edu
Office Hours: W 10:00 - 12:00
Class Days/Time: M 9:00 - 11:45
Classroom: DMH 308
Prerequisites: Prerequisite: PSYC 117 (or equivalent).
              Admission to MS Clinical Program.

You are responsible for all of the material in this syllabus including due dates and times, location of assignments on Canvas, and the course and university’s policy on academic integrity.

Faculty Web Page and MYSJSU Messaging

Course materials such as syllabus, handouts, notes, assignment instructions, etc. can be found on my faculty web page on the Canvas Learning Management System course login website at http://sjsu.instructure.com. You are responsible for regularly checking with the messaging system through MySJSU at http://my.sjsu.edu (or Canvas) to learn of any updates.

Course Description

From Course Catalog: An in-depth introduction to objective, projective and behavioral assessment techniques used in the clinical evaluation of the behavior and functioning of adults, children and families. Prerequisite: PSYC 117 (or equivalent).
Notes: MS program priority. This course satisfies graduate-level writing assessment requirement [GWAR] in this master's program.
The goal of this 3-unit course is to provide both an initial framework to assessing client problems in tandem with creating treatment goals and an initial core competency in collecting and using client data as part of an evidence based practice of psychology.

The course is designed to teach students to develop knowledge and skills in the assessment of psychological disorders and other forms of human suffering using standardized and non-standardized testing and idiographic approaches. There will be a constant emphasis on learning to critically think about choosing an assessment strategy for clients that will best guide their intervention and provide data for the efficacy of treatment.

Students will be exposed to the key features of standardized assessment including norming and psychometrics and tests frequently used in this nomothetic approach to evaluation. Students will develop skills in using rapid assessment inventories that are normed and disorder/symptom specific and learn when and how to use these devices. Most importantly, students will begin to develop idiographic assessment skills tailored to individual clients' case formulations.

While no course can provide exposure to all of the assessment devices or psychological tests one may encounter in service delivery, the aim of this course is to provide the background to learn to select, evaluate, and provide those assessment when the clinician is able to in the context of therapy as a Marriage Family Therapist or Licensed Professional Clinical Counselor. Key issues surrounding culture and gender bias in assessment and the ethics of gathering assessment data are also discussed.

**Course Goals and Student Learning Objectives**

**Course Content Learning Outcomes (CLOs)**

Upon successful completion of this course, students will be able to:

CLO1: Develop an understanding of the role of assessment in case conceptualization and treatment planning.

CLO2: Understand the fundamental role of contextual variables and culture in both the assessment and treatment process for clients.

CLO3: Understand the role and appropriate use of standardized tests and assessments idiographic data tracking.

CLO4: Identify and explain key psychometric properties such as norms, means, deviations, reliability, types of validity, and cut scores.

CLO5: Develop the skills to select rapid assessment inventories that are specific to disorders or problem areas that provide meaningful data for clients.

CLO6: Develop the skills to create an idiographic assessment instrument for specific client problems.
CLO6: Recognize the purpose, strengths, and weaknesses of commonly used tests and assessment approaches.

CLO7: Develop the skills to track and present data for individual as part of evidence based practice of psychology.

These Course Learning Goals and Objective will be evidenced through the following assessment strategies:

1. Two reading response assignments critically thinking about assessment issues at a broader level
2. Applying concepts of contextual and cultural variable awareness to case vignette
3. Developing problem, goal, and treatment plans for sample cases
4. Applying concepts of psychometric properties, the ethics of assessment, and rapid assessment inventory selection to multiple vignette cases
5. Practicing developing idiographic assessment question development in context of sample cases
6. Interpreting raw assessment data and putting into the context of a case
7. Practicing the intake process to determine strengths and areas for improvement through role-plays
8. Developing a full case conceptualization and treatment outline for a vignette case

Note: This course is approved as meeting the Competency in Written English requirement set by Graduate Studies and Research at SJSU under the Graduate Writing Assessment Requirement (GWAR).

Program Learning Outcomes (PLOs)

Upon completion of the MS in Clinical Psychology:

PLO1.1 Students will demonstrate breadth of knowledge of a variety of psychotherapy theories and in-depth knowledge of one chosen theory of intervention

PLO1.2 Students will demonstrate knowledge of empirically supported clinical interventions and evidence ability to select treatments for individual clients given this literature

PLO2.1 Students will demonstrate effective integration and communication of clinical case material

PLO2.2 Students will demonstrate the ability to synthesize contextual and cultural variables into presentations of client materials

PLO2.3 Students will effectively respond to queries about clinical material and engage in discussions about their clients with supervisors and peers

PLO2.4 Students will be able to think and discuss cases other than their own, applying theories, principles, and relevant empirical findings to those cases
PLO3.1 Students will demonstrate understanding of different assessment devices and strategies for assessing client outcome over the course of treatment including standardized nomothetic and idiographic approaches

PLO4.1 Students will demonstrate depth and breadth of understanding in areas including, but not limited to, psychotherapy theory, service delivery, ethics, assessment, research methods, family therapy, cultural diversity, psychopharmacology, and issues relevant to adult and child clinical populations. Students will be able to apply this knowledge to clinical cases

PLO5.1 Students will demonstrate fulfillment of coursework and other pre-degree licensing requirements outlined by the Board of Behavioral Sciences

This course primarily meets PLOs 3.1, and 4.1 but also partially meets 2.1, 2.2, 2.3, and 2.4, and 5.1.

Licensure Learning Outcomes (LLOs)

Licensing requirements for academic coursework toward the MFT and/or LPCC will be met for this course in the following way:

LLO1: For the LPCC requirements, this course meets requirement [E] Assessment, appraisal, and testing of individuals, including basic concepts of standardized and nonstandardized testing and other assessment techniques, norm-referenced and criterion-referenced assessment, statistical concepts, social and cultural factors related to assessment and evaluation of individuals and groups, and ethical strategies for selecting, administering, and interpreting assessment instruments and techniques in counseling.

LLO2: For the MFT requirements, this course includes instruction in diagnosis, assessment, prognosis, and treatment of mental disorders, including severe mental disorders, evidence-based practices, psychological testing, psychopharmacology, and promising mental health practices that are evaluated in peer reviewed literature as specified in BPC Section 4980.36(d)(2)(A).

Definition of a Credit Hour

Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally three hours per unit per week) for instruction, preparation/studying, or course related activities, including but not limited to internships, labs, and clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.

The credit hour is defined as the amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than one hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester.
The expectation of work for a 3-credit course is 150-minuts of direct faculty instruction and six hours of out-of-class student work each week.

Please note that graduate study often exceeds these expectations. You must find a way to balance your academic workload and life’s demands. The program will assume that you make your graduate study a top priority.

**Required Texts/Readings**

The required chapters and articles have been loaded onto the course website. Additional articles or readings may be added as needed.

**Library Liaison**

The library liaison for the Psychology Department is Bernd Becker. You can contact him at (408) 808-2348 or at Bernd.Becker@sjsu.edu if you have library research questions, or questions about accessing library resources.

**Canvas and E-Campus**

This course webpage is on Canvas. You are responsible for regularly checking the website. Announcements may also be made there.

**Office Hours**

My office is room DMH 322. My phone number there is 924-5610. Email continues to be the best way to reach me. I will have regular office hours as posted at the top of this syllabus. If you cannot make one of these times, you can e-mail or see me after class to set an appointment. I want to be available to you. If you call or email me, you can generally expect a response back in 48 hours during the week. If you call or email on a Friday or over the weekend, you will not hear back from me until the next business day (typically Monday).

The best time to catch me is often right after class, but let me know if you need to see me at another time. With office hours it is first come, first served. If you do not want to wait or were not able to see me, please set a time with me individually. During office hours we can discuss course questions or other topics of interest to you.

Please note that I am a busy professor, but I absolutely want to make time for our meetings. If I am unavailable at a time you try to see me, let me know, and we will make time to meet together.

**Course Requirements and Assignments**

The emphasis of this class is placed on learning to assess and conceptualize cases. The goal will be to develop skills in understanding how and why assessments are used
and how those will guide an intervention. The majority of our work will be developed in class and continued by the student through assignments.

**ALL assignments are due at the beginning of class as listed in the schedule. Late assignments are not accepted unless explicit permission has been given to allow for this.**

**Grading Policy**

There will be 280 points available in the course.

All of the assignments are up on Canvas. There are two *Reading Responses* (instructions below). There is one *Opinion Paper* due early in the semester. Each *Response Paper* is different and focuses on what we are covering at the time. These assignments are designed to be applied and help show me what you understand and don’t yet get in the class. They are all clearly articulated on the web, but we will talk about them in class as well. All assignments will be loaded directly to Canvas. We will not do hard copies of the assignments with the exception of your data presentation.

The major paper is also posted online. It is a culmination of our learning objectives for this course and is directly tied to both the program learning objectives and our goals for you as a clinician.

Participation is an essential part of the course and of graduate study in general. This is discussed more below.

Your grade will be determined by your performance in four categories of coursework:

<table>
<thead>
<tr>
<th>Assessment Items and Their Value</th>
<th>How Many?</th>
<th>% of Final Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Opinion Paper</td>
<td>1</td>
<td>25/280=9%</td>
<td>25</td>
</tr>
<tr>
<td>Reading Response</td>
<td>1</td>
<td>10/280=3%</td>
<td>10</td>
</tr>
<tr>
<td>Response Papers</td>
<td>12</td>
<td>120/280=43%</td>
<td>120</td>
</tr>
<tr>
<td>Major Vignette Assignment</td>
<td>1</td>

</tr>
<tr>
<td>D-</td>
<td>62-60%</td>
</tr>
<tr>
<td>F</td>
<td>59-0%</td>
</tr>
</tbody>
</table>
**Opinion Paper**

The opinion paper is an opportunity for you to begin to clarify what you believe is at the origin of suffering and what helps change that. I know your theory will evolve over time. This is an chance for me to get to know what you think and for you to elucidate those thoughts. Directions are provided in the assignment online.

**Reading Response**

For one of the weeks (possibly more) of the uploaded readings (articles or chapters) in Canvas, you are responsible for providing a brief response. I am looking for you to briefly summarize the major position(s) of the article and pose your critical responses to each article. You must include critical thought to each article that shows you have integrated the material and understand it.

Reading response(s) is(are) due at the beginning of a mini-module. There are two purposes to the article responses (1) to encourage you to read thoughtfully, and (2) to provide evidence to me that you have both read and understood each assignment.

For each reading response you should:

- *Very* briefly outline the major conceptual issues for that article (no more than ¼ of the page).
- Pose at least one critical question and answer of the authors that shows you have engaged the article thoughtfully. Provide a brief discussion of *why* this is an important question to ask or what your answer is (academically) to that question (somewhere around two-thirds to three-quarters of the page).

I would like you to follow this format for the reading response:

- Your name in the upper right corner, PSYC 203A, and the date.
- For each response use this format with mini-headers in bold:
  - Title of Reading
  - Summary
  - Critical Response
- You will upload your document (as PDF or MS Word documents only) to Canvas.
- Each response should take about ¾ to a full single spaced printed page.
- The summary should be no more than one-third of your total reading response.

**Response Papers**

Response papers are targeted to develop your thinking and application of key concepts in the course. Each will be slightly different and will build on skills you develop across
the semester. They are meant to clearly applicable to your goals as an evidence based clinician. Some will be more challenging than others and take more time. Plan accordingly.

The format for each response will vary according to the assignment, but place your name in the upper right corner, PSYC 203A, and the date on each response paper assignment you upload to Canvas.

**Class Participation & Self-evaluation of Participation**

This is an integral part of this course. Be aware that this is a small class. Everyone in the class is very aware of who is (and is not) attending or participating. You must come on time, and you cannot leave early. If you need an exception to this, let me know in advance. When you come to class please be prepared to engage in discussion about that topic and the related readings. The course will be much, much more valuable due to your input.

You will be evaluated on the quality of your participation, and not just the frequency with which words flow out of your mouth. You should listen carefully to other students’ comments and respond intelligently and respectfully. As graduate students, you take the responsibility for the direction and quality of the discussion.

Somewhere around half way through the semester, you will be required to complete the Self-evaluation of Participation form on the course website. This gives each student an opportunity to assess his or her own level of participation in the course to date. More importantly, it can serve as a prompt to do things differently in the course to improve that level of participation. I will give you feedback about the accuracy of that evaluation and brief feedback about how to proceed in the course from there.

**Final Examination or Evaluation**

Faculty members are required to have a culminating activity for their courses, which can include a final examination, a final research paper or project, a final creative work or performance, a final portfolio of work, or other appropriate assignment.

The final evaluation for this course is the major vignette paper. It will evidence your thinking across all areas covered in this course from assessment, critical thinking, evidence based practice, ethics, cultural sensitivity and competence, and treatment planning. The schedule for the final evaluation is listed in the course schedule below and corresponds to the last day we meet as a class.

**Classroom Protocol**

This is a graduate seminar, so I expect you to be attentive in our meetings, participate in
discussions, and limit other distractions. Please place cell phones in silent mode during meetings. If you must make or answer a call, please excuse yourself from class for such activity. Do NOT browse the web or be on your computer doing unrelated tasks during out meetings. Most importantly, please be respectful of your classmates' opinions, as this is a seminar course and we are likely to discuss topics for which students will have differing opinions. Also, if you discuss client-related content in class, please be sure to protect that person's confidentiality. Students are asked not to share these discussions outside of class.

Attendance is essentially required. I expect you to come to every class. If you do not attend classes, you will definitely miss essential material that is part of your training and could result in not meeting licensing requirements or passing the course. If you have to miss a class, please let me know ahead of time. It is expected that you will NOT miss more than one grad class per semester unless there are extreme circumstances. If you have to miss more than one class, please make an appointment with me so that we can discuss your progress in the course (and program) and your reasons for not attending class.

**Cell Phone and Personal Computer (Laptop) Use**

You may take notes on a laptop. If you are observed to be disengaged from the class, surfing the web, or otherwise not attending to course discussions, you will not be able to bring your laptop again to class and other disciplinary action may occur. This goes for smart phones, too. If this occurs, we will have a very hard conversation about your place in a graduate training program. Please don't do these things.

**Classroom Etiquette**

There are only a few real issues here, and they are easy. In general, the guiding principles are to **be respectful and attend to what is going on in class**. These issues are not typically a problem; that said, doing any of these will not be tolerated and will be grounds for dismissal from the class.

1. Be polite and respectful to the other people in the class, particularly when engaged in discussion. While I encourage an open discussion of many ideas, please refrain from using language that is prejudicial or hurtful to others.
2. Do not carry on conversations with others during class. (If you have a question or point to make, just say it so we can all hear it!)
3. Please turn off your cell phone for the time you are in class. If you need to receive an emergency call, let me know about it in advance. Never take a call and start talking during class.
4. Do not text message during class.
5. Attend to the class material. Do not work on any other course material during class, including other coursework or browsing the internet.
6. Do not sleep during class.
Professional Communication

The best method of contacting me is via email. Please allow 1-2 business days for a response. I do not typically respond to email on weekends. Please use the email address listed on this syllabus. I do not respond to emails sent to Canvas as frequently.

Email is NOT a place to get extensive help with papers. If you have questions about a paper or larger assignment, you must come to office hours to discuss them; I will not read drafts of papers over email. If you have specific questions about an upcoming exam with respect to material covered, please tell me the question and then make an attempt to answer the question. I will let you know if you are on track and amend the answer to make it better, if need be. Please do not send more than two questions at a time. If you have more than two questions, office hours are the place to get those answered.

As a graduate student, you are required to engage in professional communication with faculty, staff, and your fellow students. This is especially important in electronic mail notes that you might send. When sending email, I would encourage you to create an email account that includes your name (e.g., Joe.Student@internet.com. If you do not create such an email, be certain to include your name in the correspondence. Please be sure to follow the following basic guidelines when communicating in a professional capacity:

1. In the Subject line, state what specific issue you are emailing about (e.g., paper 2, absence on 10-11-18).
2. In the greeting, please address your professor professionally and with courtesy.
3. Be sure to identify yourself clearly by stating your full name and the specific course and section number you are in.
4. Be clear in your statement about what you are asking for or of what you are informing the reader.
5. Consider your request before you make it. If you believe you can make that request in a professional way and support your reasons for your request, please ask. If you have overslept, are tired, hangover, or whatever, please do not make requests based on those reasons.
6. Use a polite and respectful tone.
7. Use complete sentences.
8. Do not use abbreviations for words that are often used in text messages.
9. Use upper and lower case letters.
10. Be sure to use correct grammar and spelling in your message.
11. If you need a reply to the email you have sent, please request that clearly. I strongly encourage you to request a response back if you send something that needs to be graded in a timely matter to be certain it was received.
12. If you do not hear back within a reasonable amount of time from the person you sent the email to, politely request a response and resend the original message (you can use the forward function here).
Consent for Recording of Class and Public Sharing of Instructor Material

University Policy S12-7, requires students to obtain instructor’s permission to record the course

- Common courtesy and professional behavior dictate that you notify someone when you are recording him/her. You must obtain the instructor’s permission to make audio or video recordings in this class. Such permission allows the recordings to be used for your private, study purposes only. The recordings are the intellectual property of the instructor; you have not been given any rights to reproduce or distribute the material.
- In order to record a class a written request must be made to the instructor, who will respond in writing.
- In classes where active participation of students or guests may be on the recording, permission of those students or guests should be obtained as well.
- Course material developed by the instructor is the intellectual property of the instructor and cannot be shared publicly without his/her approval. You may not publicly share or upload instructor generated material for this course such as exam questions, lecture notes, or homework solutions without instructor consent.

University Policies

Per University Policy S16-9, university-wide policy information relevant to all courses, such as academic integrity, accommodations, etc. will be available on Office of Graduate and Undergraduate Programs’ Syllabus Information web page at http://www.sjsu.edu/gup/syllabusinfo/. Make sure to review these policies and resources.

Academic integrity

Your commitment as a student to learning is evidenced by your enrollment at San Jose State University. The University Academic Integrity Policy S07-2 at http://www.sjsu.edu/senate/docs/S07-2.pdf requires you to be honest in all your academic course work. Faculty members are required to report all infractions to the office of Student Conduct and Ethical Development. The Student Conduct and Ethical Development website is available at http://www.sjsu.edu/studentconduct/.

Instances of academic dishonesty will not be tolerated. Cheating on exams or plagiarism (presenting the work of another as your own, or the use of another person’s ideas without giving proper credit) will result in a failing grade and sanctions by the University. For this class, all assignments are to be completed by the individual student unless otherwise specified.

Note, that for this course, you must use quotes and page number for more than three words of text AND provide the reference. Failing to do so is plagiarism.

If you plagiarize or otherwise violate the policy of academic integrity in this course, you will fail that assignment and may fail the entire course and be dismissed from the graduate program. All instances of violations of academic integrity will be reported.
Campus Policy in Compliance with the American Disabilities Act

If you need course adaptations or accommodations because of a disability, or if you need to make special arrangements in case the building must be evacuated, please make an appointment with me as soon as possible, or see me during office hours. Presidential Directive 97-03 requires that students with disabilities requesting accommodations must register with the Accessible Education Center (AEC) to establish a record of their disability.

SJSU Writing Center

The Writing Center now has two locations: Drop-in tutoring sessions are in Clark Hall, Suite 126. We Regularly scheduled tutoring sessions on the second floor in the MLK Library. All Writing Specialists have gone through a rigorous hiring process, and they are well trained to assist all students at all levels within all disciplines to become better writers. In addition to one-on-one tutoring services, the Writing Center also offers workshops every semester on a variety of writing topics. To make an appointment or to refer to the numerous online resources offered through the Writing Center, visit the Writing Center website at http://www.sjsu.edu/writingcenter.

SJSU Counseling Services

The SJSU Counseling Services is located at the Student Wellness Center, room 300B. Professional psychologists, social workers, and counselors are available to provide consultation on issues of student mental health, campus climate or psychological and academic issues on an individual, couple, or group basis. To schedule an appointment or learn more information, visit Counseling Services website at http://www.sjsu.edu/counseling.
Clinical Assessment (PYSC 203A), Fall 2018

This schedule is approximate and we will likely deviate from it. It is your responsibility to know where we are in the readings and if the assignment dates have been changed.
