Course Description

The purpose of this course is to provide information about a variety of important issues and possible challenges often faced during adolescence. There will be a few recurring themes throughout several portions of the course. One of the themes of the course (highlighted in the text) is the diversity of cultural practices and beliefs about adolescence. A second general theme is whether and how adolescence may serve as a “transitional” period between childhood and later development. Finally, a third general theme will involve a consideration of the importance of the adolescent years for the development of gender roles. The textbook and lectures will be the main source of information. It is expected that you will have completed the assigned readings before each class meeting.

Learning Outcomes and Required Course Content

Overview

*Learning Outcomes* (LOs) are specific, measurable goals and objectives that students have demonstrated upon successful completion of the course. 112 is designed to address 2 levels of *Learning Outcomes*: 
**Psychology 112 Course Learning Outcomes (CLOs).** These are outcomes for this specific course. For Psychology 112, the specific Course Learning Outcomes (CLOs) for this course contribute to the overall experience, learning opportunities, and Program Learning Outcomes (PLOs) students are exposed to when completing the SJSU Psychology Major.

**Program Learning Outcomes (PLOs).** These outcomes refer to the broad goals of the SJSU Psychology Major program. The SJSU Psychology Major is designed to address 5 broad PLOs. These PLOs are outcomes students should be able to demonstrate after having successfully completed the Psychology Major.

**Course Learning Outcomes (CLOs)**
Upon successful completion of this course, students will be able to:

**CLO1** – identify and describe psychological theories and concepts relevant to cognitive, social, and emotional development during the adolescent years.

Criteria used to assess mastery of CLO1 include instructor presentations, classroom activities and discussions, course assignments, and exams. In addition, this objective is reinforced through material presented in Arnett (2013); specifically, chapters 7, 8, and 12. General topics covered include: theoretical issues, moral development, and intergroup interactions. The Media Influence and Gender assignment affords students the opportunity to examine how media popular with adolescents can promote gender stereotypes, and to critically analyze media influences in their paper.

**CLO2** – Analyze and distinguish the historical and cultural factors that may affect societal perceptions of adolescence as a period of development.

Criteria used to assess mastery of CLO2 include instructor presentations, classroom activities and discussions, guest speakers, course assignments, and exams. In addition, this objective is reinforced through material presented in Arnett (2013); specifically, chapters 4, 6, 10, and 11. General topics covered include: cultural beliefs and socialization, globalization and the history of adolescent work in traditional cultures, cultural beliefs and school, and the changing forms of adolescent sexuality.

**CLO3** – Identify and describe the potential impact of various developmental changes (e.g., biological, cognitive, social) on adolescents’ perceptions of themselves and their relationships with others.

Criteria used to estimate mastery of CLO3 include instructor presentations, classroom activities and discussions, guest speakers, course assignments, and exams. In addition, this objective is reinforced through material presented in Arnett (2013); specifically, chapters 2 and 3. General topics covered include: the biological revolution of puberty, social and personal responses to adolescent growth and development, and cognitive foundations.

For Psychology 100W, the general GE student learning outcomes (SLOs) for 100W (Area Z) will be fulfilled in the following discipline-specific Course Learning Outcomes (CLOs) [Matched GE SLOs indicated in brackets]. Upon successful completion of this course students will:

**Program Learning Outcomes (PLOs)**
Upon successful completion of the psychology major requirements…
PLO1 – Knowledge Base of Psychology – Students will be able to identify, describe, and communicate the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.

PLO2 – Research Methods in Psychology – Students will be able to design, implement, and communicate basic research methods in psychology, including research design, data analysis, and interpretations.

PLO3 – Critical Thinking Skills in Psychology – Students will be able to use critical and creative thinking, skeptical inquiry, and a scientific approach to address issues related to behavior and mental processes.

PLO4 – Application of Psychology – Students will be able to apply psychological principles to individual, interpersonal, group, and societal issues.

PLO5 – Values in Psychology – Students will value empirical evidence, tolerate ambiguity, act ethically, and recognize their role and responsibility as a member of society.

Assignments and Grading Policies

Exam #1 - 50 points
Exam #2 - 50 points
Final Exam - 50 points
Media Influence and Gender Assignment - 30 points total (the group presentation = 15 points and the individual paper = 15 points)
Essay - 30 points
In-class Reflection Papers - 20 points
Assignments

The assignments in Psychology 112 are designed to challenge your thinking and assess your mastery of the material appropriate for the discipline of psychology.

Exams
The three exams will cover both the textbook and the instructor’s presentations. They will consist of approximately 40 multiple-choice questions and 1 long answer. Exams are to be taken alone. Group collaboration is: unacceptable, transparent, and unethical. Those who do not observe the honor system will receive a failing grade automatically. Missed exams will receive a score of zero. (50 points each)

Media Influence and Gender Assignment:
Media popular with adolescents promote gender stereotypes. Gender intensification and culture at adolescence encourage girls and boys to conform to presented ideals. The focus on physical appearance in the female gender role is associated with girls’ negative body image, depression, and eating disorders. For boys, gender expectations and value of aggression are associated with social problems and problem behavior. You and your group will observe and record how adolescents are portrayed in the media (e.g., television, music, movies, news, internet, magazines). Each group member will write a 3-page individual paper (using three scholarly articles), and participate in a group presentation. This assignment will be explained further in class. (30 points total)

Essay
You will be required to write a short essay (between 2 ½ -3 double-spaced pages in length, not including title page and references) based on a prompt and two journal articles of choice. Additional instructions and a separate handout will be provided with more information about this assignment. (30 points total)

In-class Reflection Papers
You will be required to do several short, in-class writing assignments. These in-class writing assignments will not be announced in advance and will occur at random times during the semester. The in-class writing assignments are intended to prompt your reflection on selected course topics. You will turn in your short written assignments when these are collected in class (they will not be returned). They will be scored generously and if you are generally on target in your comments, you should receive full credit for each of these assignments. Unless you are notified otherwise within one week, you can assume that you received full credit on the in-class writing assignment you submitted. Please be sure to regularly have blank, standard size (8 ½ x 11), lined paper to use when these assignments are given in class. (20 points total)

Class Activities
The activities will be held inside of the classroom throughout the semester. These activities have been designed to enhance your understanding of the material and reinforce program learning outcomes one through five. This portion of your grade cannot be earned outside of the activities they are allotted to (i.e., you cannot earn extra credit for these points if you miss class the day of these activities). (20 points total)

Course Grade and Assignment Policies

Course grades will be based on the number of points accumulated throughout the semester. Final grades in this course will be assigned as indicated below.

Dear Professor Jones-Hagata,

My name is Doughnut Holschtein and I am in your 112 class that meets T/Th 10:30 - 11:45. I am not sure when the Response Journal assignment is due because of conflicting information. The syllabus schedule says Nov. 5, but the assignment sheet itself says Nov 9. Thank you for your attention to this matter.

Regards,
