COURSE DESCRIPTION

This upper-division course provides an introduction to the major perspectives and debates in social and sociological theories.

We will examine the debates related to deterministic arguments related to biology, psychology, and culture, theoretical perspectives on social identities, power inequalities, social change, and social inquiries, and the varying use of these perspectives.

We will read, in their own words, some of the pathbreaking theorists who have shaped professional sociology. Thus this course offers you the opportunity to hone your skills in reading, analyzing, comparing, and critically evaluating major social theories. That is, we will be asked to develop your skills of critical analysis and self-expression by synthesizing and applying these thinkers' ideas, and presenting clear written arguments about our social surroundings.

COURSE OBJECTIVES

Course Content Learning Outcomes (LOs)

Upon successful completion of this course-sequence, participants will be able to:

LO1: Understand—in a comparative manner—the major theoretical concepts and approaches in sociology, such as drawing from the legacies of Marx, Weber, and Durkheim

LO2: Discuss major themes and debates in sociologists and social theories and take particular stand on these debates

LO3: Relate theoretical positions with research questions and evidence

LO4: Deepen your recognition of how sociology differs from non-sociological inquiries

- I think that learning and teaching are complex, endlessly fascinating collaborations.

**As the instructor, I expect myself…**

- To work hard to help you succeed in the course
- To be available if you need extra help
- To share my knowledge, training, and professional experiences and show how to make use of course content
- To model professional skills, ethics, and values
- To treat all students fairly, justly, and reasonable, particularly related to grading
- To provide meaningful feedback on your work
- To take lead in maintaining a positive, challenging learning environment

**As students, you are expected…**

- To be motivated and have a positive attitude to learn the course materials
- To commit a reasonable amount of effort to complete the readings and assignments, persevere, and have fun in learning the materials and to grow from mistakes
- **To be prepared and participate verbally every** class session. This means that you are familiar with the assigned readings and are able to raise thoughtful questions that encourage an interactive-learning and student-centered discussion. We will seek to improve your participation skills during this course. The prerequisite for such active participation is attendance.
- **To complete required readings and assignments on time — that is, before coming to class.** Written work should be proofread and edited. Assignments are due at the beginning of class. There will substantial loss of credit for late work. Do NOT email them to me. Do NOT turn them in to the general sociology office; this is a College of Social Sciences policy. Do NOT submit them in my office.
- To be responsible in your learning and conduct yourself professionally by:
  - Attending class regularly. If you missed class, talk with your peers to learn what happened and get notes. After talking to classmates, if you have additional questions, talk with me in person.
  - Not disrupting the learning environment and the learning by your peers
- To contribute in maintaining a positive, respectful, and challenging learning environment and ensure a thoughtful and respectful engagement with the subject matter
- To cooperate and collaborate with your peers in teams, in class, and outside of class
- **To practice academic integrity and owned your intellectual work.** Academic dishonestly such as plagiarism and cheating violates university regulation. It will not be tolerated. Do give proper acknowledge to ideas, facts, and arguments that you did not initially construct or demonstrate. This applies to in-class discussions and all
written work. Notwithstanding this warning, you are strongly encouraged to discuss the class readings with students in or out of class, but acknowledge the ideas you received from others regardless of how casually you come to such ideas.

- To prevent class disruption and student inattentiveness resulting from the personal use of cell phones, smart phones, laptop computers, and other mobile communication devices during the class. Please leave the classroom to send and read text messages and make personal phone calls.
- To use laptop computers during class for note-taking and other class-related work only. Those using computers during class for work not related to that class must leave the classroom.

ASSIGNMENTS AND GRADING

Evaluation Principles

Your final grade derives from multiple methods of evaluation and several opportunities for practice, improvement, and learning with on meaningful feedback. Evaluation is fair and just, reflecting your effort and learning based on clear directions and criteria.

Assignments

The satisfactory completion of the following requirements determines your overall grade:

- 20% Active participation & analytical creativity during reading discussion and in-class activities
- 25% Skill-practice assignments
- 30% Two in-class exams (15% each)
- 15% Final report, due Dec. 9
- 10% Report presentation, starting Nov. 27

Active class participation: Required readings and in-class activities provide introductory insights and important details on social theorists and their theories. Take good notes on your questions. Please bring your questions and the readings to class so we can discuss them closely. If you do not understand specific readings, I urge you strongly to meet with me in my office so we can discuss them more thoroughly. Quizzes on the readings will assess your preparation and understanding on the assigned readings. Mini-lectures focus on substantive materials and analysis and expand on the materials introduce in the readings. The lecture relates to but not necessarily covers every important aspect of the readings. Make sure not to form improper habits of passive listening, passive notetaking, and regurgitation.

Evaluation of class participation and analytical creativity based on the following criteria: raising open-ended questions you based on the readings, your attention to details in the readings, your ability to synthesize discussions, and your overall contribution to the discussion. Factors that aid in your participation include completing the assigned work before class, arriving to class on time and staying for the whole time, paying attention, and actively and respectfully listening to the discussion. Factors that may limit your full participation include digital and mobile distractions (checking your phone, messages, emails, or online websites), reading any materials not related to the discussion, and not staying awake. You will not earn any credit related to participation if you miss ten class sessions.
Skill-practice assignments: You are expected to complete several short skill-practice assignments. The assignments ask you to apply and synthesize the assigned readings and aim to deepen your grasp of theoretical positions and debates. Your lowest grade will be dropped. Directions will be provided during the semester.

In-class exams: The exams, which consists of short-answer and essay questions, evaluate your understanding of theoretical concepts, approaches, and applications.

Final report and presentation: The final essay and presentation expand on issues raised in the readings and mini-lectures and allow for the sharpening of your analytical, speaking, and argumentative abilities. You will be asked to write an eight-page argumentative essay. Learning to write well can be developed only through persistence and hard work. In addition to my specific suggestions and encouragement, there are university resources available to help you foster these skills. Details given later will address the specific organization and content for the assignment.

<td>An “A” demonstrates originality, addresses the tasks effectively and uniquely, shows effective organization and logical argumentation, uses clear, appropriate and accurate examples and a high level of writing competence and knowledge. Completes the task and consistently does extra work that is self-initiated.</td>

<td>93-97</td>
<td>A “B” may show a good level of competence and may even reflect exactly what was discussed in class and texts, but does not contribute original knowledge. It shows uneven development of tasks. It may be generally well organized, uses appropriate examples, displays facility, with a few gaps in argumentation, and demonstrates a good level of writing and knowledge. Completes the task as assigned.</td>

<td>A “C” may show a fair level of competence, but may be uneven. It addresses the task adequately, but only with parts of the task. It is adequately organized and may occasionally use examples. UNIVERSITY POLICIES

Student Workload Expectation Policy

“Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of forty-five hours over the length of the course (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction or
preparation/studying or course related activities including but not limited to internships, labs, clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.” (SJSU Policy S12-3)

Dropping and Adding Policy

Students are responsible for understanding the policies and procedures about add/drop, and so on. Refer to the current semester's Catalog Policies section at http://info.sjsu.edu/static/catalog/policies.html. Add/drop deadlines can be found on the current academic calendar web page located at http://www.sjsu.edu/provost/academic_calendar/. The Late Drop Policy is available at http://www.sjsu.edu/aars/policies/latetransfers/policy/. Students should be aware of the current deadlines and penalties for dropping classes.

Instances of academic dishonesty will not be tolerated. Cheating on exams or plagiarism (presenting the work of another as your own, or the use of another person’s ideas without giving proper credit) will result in a failing grade and sanctions by the University. For this class, all assignments are to be completed by the individual student unless otherwise specified. If you would like to include your assignment or any material you have submitted, or plan to submit for another class, please note that SJSU’s Academic Policy S07-2 requires approval of instructors.

Note: Your written work in this course may be evaluated for plagiarism using Turnitin.com, a plagiarism detection service contracted by SJSU.

SJSU CAMPUS EMERGENCY PROCEDURES

FIRES, EARTHQUAKES AND OTHER DISASTERS

- Call 9-1-1 or use a blue light telephone to summon University Police assistance for any campus police, fire, or medical emergencies. Give your name, the nature of the emergency, and your specific location. Stay on the line until the University Police Dispatcher tells you to hang up.

- Use extinguishers for minor fires. If a fire appears uncontrollable, close all room doors to confine the fire, pull the building fire alarm lever, evacuate the area or building, and then call 9-11.

- Remain calm during an earthquake. “Duck, cover and hold” under a desk or table, or stand in a doorway or against an interior wall. Wait at least two minutes after shaking stops before leaving a building. Move to a clear area well away from structures or overhead hazards such as trees or power lines.

- Help disabled persons evacuate the building. Follow instructions of Building Emergency Team members and University Police. Do not use elevators.

- Tune to radio station KSJS 90.5 FM for campus information. A campus information line will be set up as soon as possible after a major emergency -- call 924-SJSU (924-7578) for instructions, information, and updates.

MEDICAL EMERGENCIES

- Call 9-1-1. Give your name, the nature of the emergency, and your specific location. Tell the University Police Dispatcher what assistance you need (ambulance, paramedics, etc.).

- Assist the victim until help arrives. If you, or someone in the area, are trained in CPR, perform CPR if necessary. Stop bleeding with direct pressure to the wound. Do not move a victim unless his or her life is in immediate danger. Do not leave victims unattended. Be careful about contaminating yourself and others if hazardous materials may be involved.

- For minor first aid, report in person to the Student Health Center weekdays from 8 a.m.-5 p.m. or call University Police at 924-2222.

BUILDING EVACUATION

- Leave by the nearest safe exit when you hear the building emergency alarm (fire alarm), or if you are told to do so by University Police or a Building Emergency Team member.

- Take keys, books, wallets, prescription medicines and important personal belongings with you in case you cannot re-enter immediately. Move at least 150 feet away from all structures. Do not smoke.

- Use the stairs. Do not use elevators--in case of fire or earthquake, many elevators stop in place and you may be trapped or exposed to deadly smoke.

- Re-enter a building only after University Police or Building Emergency Team members tell you that it is safe to do so.
