Course Description
This is an upper-division introductory course in sociological theory. It examines the contested intellectual trajectories of conventional and professional sociology since the mid-nineteenth century to more recent times. Attending to social and political contexts, we will begin by exploring the contesting perspectives and analysis on modern life offered by early social theorists such as Durkheim, Weber, and Marx. This semester, we will focus on the important ways in which these perspectives shaped research strategies for social studies and best ways to formulate research based on these theoretical perspectives.

You will read, in their own words, some of the notable theorists who have shaped professional sociology. Thus, this course offers you the opportunity to hone your skills in reading, analyzing, comparing, and critically evaluating major perspectives related to sociology. That is, you will be asked to develop your skills of critical analysis and self-expression by applying theories appropriately and by presenting clear written arguments about our social surroundings.

Course Learning Outcomes (CLOs)
Upon on successful completion of this course, participants will be able to:

CLO1: Explain—in a comparative manner—the central theoretical concepts and perspectives in sociology

CLO2: Assess the strengths and weaknesses of interpretive and critical perspectives and the weaknesses of out-of-date perspectives in sociology, particularly as related to the conduct of social research

CLO3: Enact appropriate social research activities by applying the most appropriate sociological perspective to address a range of current events

The following table indicates how this course supports in ensuring your successful completion of the B.A. sociology program outcomes (PLOs):

| PLO1: Be able to think sociologically about the relationship between social structure, interaction, identities, & inequalities | CLO1 | CLO2 | CLO3 |
| PLO2: Be able to identify and explain major sociological theories and apply them to everyday life | X | X | X |
| PLO3: Be proficient in qualitative and quantitative research design, data collection and data analysis | X | X | |
| PLO4: Be proficient in oral and written communication skills appropriate to the discipline | X | | |
| PLO5: Be able to practice sociology as educated and civically engaged persons | | X | |

**Course Requirement and Assignments**

**Active in-class participation** (to assess CLO#1, #2 and #3): Required readings and in-class activities provide introductory insights and important details on social theorists and their theories. **Take good notes on your questions. Please bring your questions and the readings to class so we can discuss them closely.** If you do not understand specific readings, I urge you strongly to meet with me in my office, so we can discuss them more thoroughly. Random quizzes on the readings will assess your preparation and understanding on the assigned readings. **Mini-lectures** focus on substantive materials and analysis and expand on the materials introduced in the readings. The lectures relate to but not necessarily cover every important aspects of the readings. Make sure not to form improper habits of passive listening, passive notetaking, and regurgitation.

Evaluation of class participation and analytical creativity based on the following criteria: raising open-ended questions you based on the readings, your attention to details in the readings, your ability to synthesize discussions, and your overall contribution to the discussion. Factors that aid in your participation include completing the assigned work before class, arriving to class on time and staying for the whole time, paying attention, and actively and respectively listening to the discussion. Factors that may limit your full participation include digital and mobile distractions (checking your phone, messages, emails, or online websites), reading any materials not related to the discussion, and not staying awake. You may not earn any credit related to participation if you miss ten or more class sessions (which is about 40% or more of the course).

**Skill-practice assignments** (to assess CLO#1, #2 and #3): You are expected to complete several short skill-practice assignments. The assignments ask you to apply and synthesize the assigned readings and aim to deepen your grasp of theoretical positions and debates. Your lowest grade will be dropped. Directions will be provided during the semester.
Final report and presentation (to assess CLO#1, #2 and #3): The final essay and presentation expand on issues raised in the readings and mini-lectures and allow for the sharpening of your analytical, speaking, and argumentative abilities. You will be asked to write an eight-page argumentative essay. Learning to write well can be developed only through persistence and hard work. In addition to my specific suggestions and encouragement, there are university resources available to help you foster these skills. Details given later will address the specific organization and content for the assignment.

Exams (to assess CLO#1, #2 and #3): The exams, which consists of short-answer questions, evaluate your understanding and application of theoretical concepts and, approaches.

The University Policy S16-9, Course Syllabi (http://www.sjsu.edu/senate/docs/S16-9.pdf) requires the following language to be included in the syllabus:

"Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally three hours per unit per week) for instruction, preparation/studying, or course related activities, including but not limited to internships, labs, and clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus."

Final Examination
More details can be found in University policy S17-1 (http://www.sjsu.edu/senate/docs/S17-1.pdf), which states that: “Faculty members are required to have a culminating activity for their courses, which can include a final examination, a final research paper or project, a final creative work or performance, a final portfolio of work, or other appropriate assignment.”

Do give proper acknowledgement to ideas, facts, and arguments that you did not initially construct or demonstrate. This applies to in-class discussions and all written work. Notwithstanding this warning, you are strongly encouraged to discuss the class readings with students in or out of class, but acknowledge the ideas you received from others regardless of how casually you come to such ideas. Note: Your written work in this course may be evaluated for plagiarism using Turnitin.com, a plagiarism detection service contracted by SJSU
- To prevent class disruption and student inattentiveness resulting from the personal use of cell phones, smart phones, laptop computers, and other mobile communication devices during the class. Please leave the classroom to send and read text messages and make personal phone calls.
- To use laptop computers during class for note-taking and other class-related work only. Those using computers during class for work not related to that class must leave the classroom.

Sessions 17-30
SJSU CAMPUS EMERGENCY PROCEDURES

FIRES, EARTHQUAKES AND OTHER DISASTERS

- Call 9-1-1 or use a blue light telephone to summon University Police assistance for any campus police, fire, or medical emergencies. Give your name, the nature of the emergency, and your specific location. Stay on the line until the University Police Dispatcher tells you to hang up.
- Use extinguishers for minor fires. If a fire appears uncontrollable, close all room doors to confine the fire, pull the building fire alarm lever, evacuate the area or building, and then call 9-11.
- Remain calm during an earthquake. “Duck, cover and hold” under a desk or table, or stand in a doorway or against an interior wall. Wait at least two minutes after shaking stops before leaving a building. Move to a clear area well away from structures or overhead hazards such as trees or power lines.
- Help disabled persons evacuate the building. Follow instructions of Building Emergency Team members and University Police. Do not use elevators.
- Tune to radio station KSJS 90.5 FM for campus information. A campus information line will be set up as soon as possible after a major emergency -- call 924-SJSU (924-7578) for instructions, information, and updates.

MEDICAL EMERGENCIES

- Call 9-1-1. Give your name, the nature of the emergency, and your specific location. Tell the University Police Dispatcher what assistance you need (ambulance, paramedics, etc.).
- Assist the victim until help arrives. If you, or someone in the area, are trained in CPR, perform CPR if necessary. Stop bleeding with direct pressure to the wound. Do not move a victim unless his or her life is in immediate danger. Do not leave victims unattended. Be careful about contaminating yourself and others if hazardous materials may be involved.
- For minor first aid, report in person to the Student Health Center weekdays from 8 a.m.-5 p.m. or call University Police at 924-2222.

BUILDING EVACUATION

- Leave by the nearest safe exit when you hear the building emergency alarm (fire alarm), or if you are told to do so by University Police or a Building Emergency Team member.
- Take keys, books, wallets, prescription medicines and important personal belongings with you in case you cannot re-enter immediately. Move at least 150 feet away from all structures. Do not smoke.
- Use the stairs. Do not use elevators--in case of fire or earthquake, many elevators stop in place and you may be trapped or exposed to deadly smoke.
- Re-enter a building only after University Police or Building Emergency Team members tell you that it is safe to do so.
