Mission Statement
The Good Health program embraces the values and ethics provided by Goodwill in order to enhance and enrich our priority population of moderate to severe special education students by providing equal access to health education, work opportunities, and mobility training through meaningful classroom health education lessons, on-site volunteer experience, and monthly field trip activities.

Good Health Vision
To build the capacity of each participant to manage their life healthfully as an individual, community member, peer, and family member in a way that empowers them to become their own advocates so that they can develop resistance, strategies to peer pressure, self-advocacy techniques, nutritional knowledge, and work experience.

Good Health Education Curriculum:
Manners  ●  Personal Hygiene  ●  Substance Abuse  ●  Prevention Relationships
Sex Education  ●  Personal Health Management  ●  Nutrition

“I was able to embrace every learning opportunity and challenge so I could grow professionally and as an individual” - DeAnna Q. 2014-2015
