COURSE DESCRIPTION

This course will cover formal and non-formal evaluation methods to assess students with mild/moderate disabilities which includes standardized and alternative assessment, Response to Intervention (RtI), case studies, and a comprehensive understanding of related research. Throughout the course, emphasis will be given to review best practices in assessing English-language learners (ELLs) and culturally diverse students.

KNOWLEDGE BASE

We believe in careful, consistent, evolving, and accurate measurement as the tool that guides instructional planning. Measurement tools in the hands of a knowledgeable teacher increases students’ opportunities for access to and success in the curriculum. We also believe that those factors bear in the correct identification of students with disabilities, and distinguishing disability from difference. Thus, the content of this course has been developed based on the theoretical perspectives and research work of: Artiles, Kauffman, O’Malley & Valdez, Salvia & Ysseldyke.

COMPETENCIES Student Learning Outcomes (SLOs)

By the end of the course the student will:
1. Demonstrate knowledge and application of research related to assessment, evaluation, RtI, and program planning for the learning disabled individual.
2. Apply knowledge of laws, ethical considerations, and assessment procedures in the evaluation of a learning disabled individual.
3. Demonstrate skill with various observational techniques.
4. Understand the assets and liabilities of published tests, and the CELDT exam for ELL’s (English Language Learners).
5. Develop skills in using assessment measures and procedures other than published tests, such as curriculum based and dynamic assessment to determine the performance level of students to plan appropriate intervention programs for the student.
6. Conduct an integrated assessment of an individual with language-learning disabilities.
7. Describe language and cultural implications involved in the assessment of an individual from a minority group who is an ELL’s (English Language Learner).
8. Prepare an integrated assessment report.
9. Plan an appropriate individualized educational program (IEP) based on the individual’s present levels of performance including the stage of English language development, and a transition plan where appropriate and necessary.
10. Confer with the student’s parents, family and the student him/herself where appropriate, about the results of the assessment and suggestions for intervention.
11. Identify ways in which the learning disabilities specialist can work collaboratively with other staff members to include the classroom teacher, the speech and language pathologist, psychologist, transition specialist as well as the student’s parents/family.
12. Describe how an education specialist seeks alternative ways to support ELL’s with disabilities in the mainstream.

STANDARDS

CCTC Standards

Program Standard 5: Assessment of Students

The program provides opportunities for candidates to acquire the knowledge and skills necessary to assess students in a comprehensive manner within the breadth of the credential authorization. Each candidate understands and uses multiple sources of information in order to participate in progress monitoring and in decision making regarding eligibility and services. The program provides candidates with the knowledge and skill to assess students from diverse backgrounds and varying language, communication, and cognitive abilities. The program provides opportunities for using both formal and informal assessments to evaluate students' needs and strengths for the purpose of making accommodations, modifications, instructional decisions and ongoing program improvements. The program provides the opportunities for each candidate to demonstrate the knowledge of required statewide assessments and local, state and federal accountability systems.

M/M Standard 1: Characteristics of Students with Mild/Moderate Disabilities
The program provides opportunities for each candidate to identify the characteristics of students with mild to moderate disabilities, including students identified with specific learning disabilities, mild/moderate mental retardation, other health impairments, traumatic brain injury, emotional disturbance, and autism spectrum disorders and to determine the implications of these characteristics for service delivery.

**M/M Standard 2: Assessment and Evaluation of Students with Mild/Moderate Disabilities**

The program prepares candidates to demonstrate knowledge and skills related to using and communicating the results of a variety of individualized assessment and evaluation approaches appropriate for students with mild/moderate disabilities covered under the authorization. The program prepares candidates to make appropriate educational decisions on the basis of a variety of non-biased standardized and non-standardized techniques, instruments and processes that are standards-based, curriculum-based, and appropriate to the diverse needs of individual students. The program prepares candidates to utilize these approaches to assess the developmental, academic, behavioral, social, communication, career and community life skill needs of students, and monitor students’ progress. The program prepares candidates to plan for and participate in state-mandated accountability measures.

COURSE REQUIREMENTS

Assignments: The course requirements consist of a combination of successful completion of three assignments, including one final project, as well as passing of two quizzes.

Document Collection and Interview Assignment: Due 10/4
1. Compile the Common Core learning standards of your school/district for two grades. For example, K and 1st, 2nd and 4th, 7th and 8th, 10th and 11th grades. Select two of the following areas reporting the standards: Reading/Language Arts- Mathematics-Social Studies- Science -Art/Music and Physical Education. Include two or three pages to show examples.
   Use the CDE website link: http://www.cde.ca.gov/re/cc/

2. Include the protocol forms used by teachers from the general education program in referring students to the SST team. Include a copy of the assessment plan and a copy of the transition plan. If you are unable to locate any or all of these forms, they can be accessed at the following websites:
   SCCOE SELPA forms:
   https://sites.google.com/a/sccoe.org/sccoe-sped-forms-templates/discussion/iep-related

3. Conduct an interview with an Administrator, School Psychologist or other school personnel involved with Special Education referral and Assessment on your school campus. Please use the following questions as a guide for your interview:
   a. Describe the special education referral process for special education in your school or district.
   b. Describe the Assessment process for special education eligibility in your school or district.
   c. How are the rights of English Learners protected in your district/school?

4. Write a 2 page paper summarizing the information gathered from your interview.

COURSE FINAL: Assessment Report  
Due: 12/13

Select one of your students that is coming up for review. Administer a standardized, norm-referenced test, and cross-reference results with samples of the student’s work throughout the semester. Interpret results. Prepare a case study of the student following the rubric included in the syllabus. IF this is not a student considered an English Learner, discuss the modifications that would be appropriate for an EL Student, so that you could have a fair and meaningful assessment of the student’s competencies, progress, and needs.
