San José State University  
Lurie College of Education  
Department of Special Education  
EDSE 217A Directed Teaching  
Section 02  
Spring 2018

Course and Contact Information

Instructor: Kathy Sund, M.A.
Office Location: Sweeney Hall
Telephone: (831) 234-3707
Email: sundco1@comcast.net
Office Hours: By appointment

Class Days/Time:
Seminar 1: January 25
Seminar 2: March 22
Seminar 3: May 17

Classroom: Sweeney Hall, SH 230

Prerequisites: This directed teaching class must be taken in the last semester of the credential program with the majority of coursework completed. Credential courses may be taken at the same time as Directed Teaching but not after completing Directed Teaching.

Course Format
This course is a seminar and supervision course. Students will attend three seminars as well as meet with their Directed Teaching Supervisor to receive feedback about their teaching performance.

Course Description
Supervised teaching experience in educational settings for students with mild to moderate disabilities. Concurrent seminar.

California Commission on Teacher Credentialing (CCTC) Program Standards
In compliance with the California Teacher Credentialing Commission’s Program Standards for the Education Specialist Instruction Credential Program, students will address, examine, and/or employ techniques that will help them develop the ability to meet the following Program Standards:

Program Standard 3: Educating Diverse Learners
The program provides instruction in understanding and acceptance of differences in culture, cultural heritage, ethnicity, language, age, religion, social economic status, gender identity/expression, sexual orientation, and abilities and disabilities of individuals served. In addition, the program provides knowledge and application of pedagogical theories, development of academic language and principles/practices for English language usage leading to comprehensive literacy in English. The program ensures each candidate is able to demonstrate
knowledge, skills and abilities to become proficient in implementing evidence based and multifaceted methodologies and strategies necessary in teaching and engaging students with disabilities from diverse populations.

**Program Standard 5: Assessment of Students**
The program provides opportunities for candidates to acquire the knowledge and skills necessary to assess students in a comprehensive manner within the breadth of the credential authorization. Each candidate understands and uses multiple sources of information in order to participate in progress monitoring and in decision making regarding eligibility and services. The program provides candidates with the knowledge and skill to assess students from diverse backgrounds and varying language, communication, and cognitive abilities. The program provides opportunities for using both formal and informal assessments to evaluate students' needs and strengths for the purpose of making accommodations, modifications, instructional decisions and ongoing program improvements. The program provides the opportunities for each candidate to demonstrate the knowledge of required statewide assessments and local, state and federal accountability systems.

**Program Standard 10: Preparation to Teach English Language Learners**
The program provides candidates opportunities to learn the purposes, goals, and content of the adopted instructional program for the effective teaching and support of English learners; and candidates understand the local and school organizational structures and resources designed to meet English learner students’ needs. Candidates learn about state and federal legal requirements for the placement and instruction of English learners, and ethical obligations for teaching English learners. Candidates are provided with multiple, systematic opportunities to demonstrate knowledge and application of pedagogical theories, principles, and practices for (a) English Language Development leading to comprehensive literacy in English; and (b) for the development of academic language, comprehension and knowledge in the subjects of the curriculum, making grade-appropriate or advanced curriculum content comprehensible to English learners.

**Program Standard 12: Behavioral, Social, and Environmental Supports for Learning**
The program ensures that candidates demonstrate knowledge and the ability to implement systems that assess, plan, and provide academic and social skill instruction to support positive behavior in all students, including students who present complex social communication, behavioral and emotional needs. The program provides candidates information on laws and regulations as they pertain to promoting behavior that is positive and self-regulatory as well as promoting safe schools.

**Program Standard 13: Curriculum and Instruction of Students with Disabilities**
The program provides opportunity for candidates to demonstrate the ability to develop, implement, adapt, modify, and evaluate a variety of pedagogical approaches to instruction, including instructional sequences, unit and lesson plans, that provide students with disabilities with equitable access to the content and experiences found in the state-approved core curriculum. Candidates acquire and demonstrate strategies and best practices to develop differentiated lessons and instructional sequences that are appropriate for individuals with diverse strengths and needs in a variety of educational environments. Candidates must be able to apply these skills as they pertain to their specific area of specialization and credential authorizations across age and grade levels. Candidates must be able to co-teach, collaborate, consult and work in instructional teams to enhance curriculum and instruction of students with disabilities.

**Program Standard 15: Field Experience in a Broad Range of Service Delivery Options**
The program will ensure that candidates have planned experiences and/or interactions with the full range of the service delivery system, the providers of such services, and parents and families, including experiences in general education. The experiences must reflect the full diversity of grades/ages, federal disability categories and the continuum of
special education services outlined in the specific credential authorization. The experiences are planned from
the beginning of the program to include experiences in general education, experiences with parents and families,
and experiences with a broad range of service delivery options leading to an extended culminating placement in
which the candidate works toward assuming full responsibility for the provision of services in the specific
credential authorization and is of sufficient duration for the candidate to demonstrate the teacher performance
expectations for special educators. The culminating placement may be in any school, agency or program as
defined in Education Code Sections 56031, 56360, and 56361 for the purpose of providing special education
services.

Program Standard 16: Assessment of Candidate Performance
Prior to recommending each candidate for a teaching credential, one or more persons responsible for the
program shall determine on the basis of thoroughly documented evidence that each candidate has demonstrated
a satisfactory performance on the full range of Teaching Performance Expectations (TPEs) as they apply to the
subjects and specialties authorized by the credential. During the program, candidates are guided and coached on
their performance in relation to the TPEs using formative processes. Verification of candidate performance is
provided by at least one supervising teacher and one institutional supervisor trained to assess the TPEs. At least
one assessor shall hold authorization in the candidate’s credential area. An individual development plan will be
written before the candidate exits the Preliminary Credential Preparation Program and will include
recommendations for further study during the candidate’s
Induction Program.

CCTC Education Specialist Mild to Moderate Standards:
M/M Standard 2: Assessment and Evaluation of Students with Mild/Moderate Disabilities  The program
prepares candidates to demonstrate knowledge and skills related to using and communicating the results of a
variety of individualized assessment and evaluation approaches appropriate for students with mild/moderate
disabilities covered under the authorization. The program prepares candidates to make appropriate educational
decisions on the basis of a variety of non-biased standardized and non-standardized techniques, instruments and
processes that are standards-based, curriculum-based, and appropriate to the diverse needs of individual
students. The program prepares candidates to utilize these approaches to assess the developmental, academic,
behavioral, social, communication, career and community life skill needs of students, and monitor students’
progress. The program prepares candidates to plan for and participate in state-mandated accountability measures.

M/M Standard 3: Planning and Implementing Mild/Moderate Curriculum and Instruction  The program
prepares candidates to select curricula and to use evidence-based instructional strategies that meet the diverse
learning characteristics of students with mild/moderate disabilities across an array of environments and
activities. The program prepares candidates to utilize standards-based assessment data to collaboratively
develop IEP goals, adaptations and instructional plans that are responsive to the unique needs of the student and
the requirements of the core curriculum, and are implemented and adjusted systematically to promote maximum
learning and academic achievement. The program prepares candidates to have knowledge of evidence-based
curricula and instructional methods that are effective with students with mild/moderate disabilities, including
specially-designed curricula and methods for reading/language arts instruction for students with mild/moderate
reading disorders. The program provides a knowledge base of strategies and interventions for students who are
not responding to the current instructional environment. The program prepares candidates to create instructional
and behavior support partnerships with parents/families.
Course Learning Outcomes (CLO) (Required)

Upon successful completion of this course, students will be able to:

1. Plan and deliver appropriate instruction for students with mild to moderate disabilities including those who are English learners, as well as use standards-based assessment to monitor student progress in the general curriculum.

2. Develop and implement Individualized Education Plans for students with mild to moderate disabilities including those who are English learners.

3. Assess and evaluate students with mild to moderate disabilities and those at-risk for mild to moderate disabilities including those who are English learners, using a variety of formal and informal measures.

4. Collaborate with support staff to deliver appropriate services to students with mild to moderate disabilities, including those who are English learners.

5. Collaborate with and include parents in the development of and implementation of Individualized Education Plans for students with mild to moderate disabilities including those who are English learners.

Required Texts/Readings

Textbook – None Required

Course Requirements and Assignments

Completion of EDSE 217A results in credit (CR) or No-Credit rather than a letter grade. Please see the Directed Teaching handbook on the Department of Special Education website (Current Students, then Forms link) at http://www.sjsu.edu/specialed Credit is earned if the following requirements are met for the course:

1. **Attendance and participation in all seminars** (see dates above). A University Supervisor will make an appointment to visit you in your work or placement and will meet with you to discuss the observations. You must be available for these observations and meetings (advanced notice should be given to the supervisor if there is an emergency and you will not be in school).

2. **Successful teaching and learning experiences.** This is your opportunity to demonstrate the application of all that you learned (you demonstrate that you met the standards) in the credential program. You will be evaluated on the Directed Teaching Evaluation and must receive at least 60%, or 36 points to earn credit. Your Principal (or district evaluator, or Master Teacher) will also evaluate you on the Directed Teaching Evaluation. At the end of EDSE 217A, if you are successful in this course and receive credit, you will be recommended for the Education Specialist credential.

3. **Dispositions Evaluation.** Your University Supervisor will complete a Dispositions Evaluation about you (see department website about policies). You must receive a rating of “Acceptable Performance” in all areas of the Disposition Evaluation.

4. **Develop a Teaching Portfolio.** Reflect on your teaching practice; label 14 dividers to match the colored section pages distributed in the first seminar. Follow the prompts on these pages to write reflections about your work as a teacher over this semester and insert the reflections behind the appropriate tab. The University Supervisor will review the portfolio during each visit and give feedback to you. The completed portfolio is due during the last seminar of the semester. The University Supervisor will read and give points
for each section of the Portfolio at the end of the semester; you will need 80% on the Portfolio rubric to receive credit for the course. Please label the spine of the binder with your name!!

5. **Program Evaluation.** Evaluate the credential program online through a Qualtrics Survey.

6. **Supervisor Evaluation.** Evaluate your supervisor using the form provided at the last seminar.

**Final Examination or Evaluation**

Supervision courses are exempt from a Final Examination but students must attend the last seminar.

**Grading Information (Required)**

In order to receive “Credit” in this course, students must meet the following:

- Attend the three seminars
- Meet with your University Supervisor over the semester and receive at least 36 points out of 60 on the Directed Teaching Evaluation Form from the University Supervisor
- Receive at least 80% of the points on the teaching Portfolio
- Complete the required surveys

**University Policies**

Per University Policy S16-9, university-wide policy information relevant to all courses, such as academic integrity, accommodations, etc. will be available on Office of Graduate and Undergraduate Programs’ [Syllabus Information web page](http://www.sjsu.edu/gup/syllabusinfo/)
