The 2015 African American College-Readiness Summit will inform and inspire!
The program theme, Reach Higher, is in alignment with the White House Initiative that encourages students to have higher expectations. Whether it’s attending a university, community college or trade school, tomorrow’s success will demand higher education.

San José State University, the Santa Clara County Office of Education and several community organizations are partnering to present this valuable program.

High school students should contact their school counselor to get more information.
