

**REQUIRED DATA EXHIBITS TO SUPPORT
THE SELF STUDY REPORT AND PROGRAM PLANNING PROCESS**

San Jose State University

(Prepared by the Office of Institutional Research: December 09, 2011)

The data exhibits developed to support the self study reports and program planning process at San José State University are intended to provide basic contextual information to Program Planning Committee and reviewers as

The program is expected to comment on data trends that are unusual, and to highlight data that figure in the self study report. Many programs may regularly compile the data required, but not all do so in a systematic or regular way. If your program has readily available data that are consistent with the basic requirements in the exhibits, you may provide the information on your own forms or in your own formats and are not required to use the exact forms

The information prepared in the data exhibit formats for all academic programs, corresponding colleges, and overall university is available at www.oir.sjsu.edu/ProgramPlanning.

For further assistance in completing the forms, please contact the Office of Institutional Research.

Table of Contents

Curriculum and Instruction (*Enrollment by Course Prefix*):

Data Exhibit 1: Number of Course and Section Offered (for Fall Semesters Only)

Data Exhibit 2: Average Headcount Enrollment per Section (for Fall Semesters Only)
