SAN JOSÉ STATE UNIVERSITY
URBAN AND REGIONAL PLANNING DEPARTMENT

URBP 275G – GEOGRAPHIC INFORMATION SYSTEMS OVERVIEW
FALL 2012

Instructor: Dr. Ralph B. McLaughlin
Office location: Washington Square Hall (WSQ) 218B
Telephone: (408) 924 – 5860
Email: ralph.mclaughlin@sjsu.edu
Office hours: Mondays 2:00pm – 3:00pm, Tuesdays 5:00pm – 6:00pm
Class days/time: Tues, 7:30pm – 10:00pm on Sept. 11 and 25, Oct 9 and 23, and Nov 13.
Classroom: Washington Square Hall (WSQ) 208
Class website: https://sjsu.desire2learn.com/d2l/lp/homepage/home.d2l?ou=118351
Prerequisites: None
Units: 1

Course Catalog Description:
An overview of Geographic Information Systems with a focus on applications to urban planning, including the history of cartography, land use mapping, cartographic techniques, map design and methods for determining the most appropriate display of quantitative data for a variety of intended audiences.

Course Overview and Learning Objectives:
This course provides a broad overview of key principles of GIS and will allow students to begin developing an appreciation for the technology and its application to urban planning. As this is a one-unit course, class sessions will be delivered using a seminar-style approach to learning and only held 5 times during the course of the semester. See the schedule below for class dates.

Upon successful completion of the course, students will be able to:

1. Critique the influence of spatial literacy on both the historical evolution of human settlement patterns and the efficacy of current public policy.
2. Describe how urban planners typically use GIS as a tool for the analysis and display of quantitative data.
3. Evaluate existing maps to assess how well they apply good map design principles.
4. Prepare a basic and complete map using web-based cartographic tools.
Planning Accreditation Board (PAB) Knowledge Components

This course partially covers the following PAB Knowledge Components:

1d) Human Settlements and History of Planning: understanding of the growth and development of places over time and across space.

2b) Written, Oral and Graphic Communication: ability to prepare clear, accurate and compelling text, graphics and maps for use in documents and presentations.

A complete list of the PAB Knowledge Components can be found at http://www.sjsu.edu/urbanplanning/courses/pabknowledge.html.

Required Course Readings:

Course Assignments and Grading Policy:

Your grade for the course will be based on the following assignments and other activities:

<table>
<thead>
<tr>
<th>Assignment/Course Element</th>
<th>Percent of Course Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Essay on Societal Impacts of Cartography</td>
<td>50%</td>
</tr>
<tr>
<td>(1500 Words)</td>
<td></td>
</tr>
<tr>
<td>Portfolio of 3 “Best Practice” Map Designs</td>
<td>50%</td>
</tr>
</tbody>
</table>

Assignment 1: Essay on societal impacts of cartography

For this assignment, I’d like to you compose a short essay (approx. 1500 words not including references) outlining the three most transformative effects the field of cartography has brought to society. In addition to the three transformative effects, you should also include in your conclusion the directions that you think map-making should take in the near future. To build your arguments, you should draw upon not only the assigned text, *Maps and Civilization: Cartography in Culture and Society*, but also from a variety of other scholarly and popular sources. Your transformations should reflect “big-picture” impacts – e.g., on migration patterns, political power, and technological innovation. Standard style and referencing requirements apply (see below).

Assignment 2: Portfolio of three “Best Practice” map designs

For this assignment, I’d like to you create a portfolio of three maps that represent “best practice” in map design. You should draw heavily upon the assigned text, *GIS Cartography: A Guide to Effective Map Design*, when designing your maps. To demonstrate best practice, you will need to critique three existing published maps and include a brief (~3 paragraphs) description of what makes the designs substandard. You should then create three “best practice” maps that reflect a breadth of applications (i.e., a variety of different data and/or scales) as well as depth (i.e., your maps should contain more than just one or two attributes). Each map should be followed by a 1-2 paragraph description of why the map reflects best practice. I will grade your portfolio based on the quality of your critique, the overall readability and layout of your maps, and how well you can articulate the elements of “best practice”– layout, font, color, and features. Standard style and referencing requirements apply (see below).

Course Workload

Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of forty-five hours over the length of the course (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction or preparation/studying or course related activities including but not limited to internships, labs, clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.

Because this is a one-unit class over five weeks, you can expect to spend a minimum of 45 hours (5 weeks * 9 hours per week) in addition to time spent in class and on scheduled tutorials or activities.
Special projects or assignments may require additional work for the course. Careful time management will help you keep up with readings and assignments and enable you to be successful in all of your courses.

**Academic Integrity Statement, Plagiarism, and Citing Sources Properly**

SJSU’s Policy on Academic Integrity states: “Your own commitment to learning, as evidenced by your enrollment at San Jose State University, and the University’s Academic Integrity Policy requires you to be honest in all your academic course work. Faculty members are required to report all infractions to the Office of Student Conduct and Ethical Development” (Academic Senate Policy S07-2). The policy on academic integrity can be found at [http://www.sjsu.edu/senate/S07-2.htm](http://www.sjsu.edu/senate/S07-2.htm).

Plagiarism is the use of someone else's language, images, data, or ideas without proper attribution. It is a very serious offense both in the university and in your professional work. In essence, plagiarism is both theft and lying: you have stolen someone else's ideas, and then lied by implying that they are your own.

*Plagiarism will lead to grade penalties and a record filed with the Office of Student Conduct and Ethical Development. In severe cases, students may also fail the course or even be expelled from the university.*

*If you are unsure what constitutes plagiarism, it is your responsibility to make sure you clarify the issues before you hand in draft or final work.*

Learning when to cite a source and when not to is an art, not a science. However, here are some common examples of plagiarism that you should be careful to avoid:

- Using a sentence (or even a part of a sentence) that someone else wrote without identifying the language as a quote by putting the text in quote marks and referencing the source.
- Paraphrasing somebody else's theory or idea without referencing the source.
- Using a picture or table from a webpage or book without reference the source.
- Using data some other person or organization has collected without referencing the source.

The University of Indiana has developed a very helpful website with concrete examples about proper paraphrasing and quotation. See in particular the following pages:

- Overview of plagiarism at [www.indiana.edu/~istd/overview.html](http://www.indiana.edu/~istd/overview.html)
- Examples of plagiarism at [www.indiana.edu/~istd/examples.html](http://www.indiana.edu/~istd/examples.html)
- Plagiarism quiz at [www.indiana.edu/~istd/test.html](http://www.indiana.edu/~istd/test.html)

If you still have questions, feel free to talk to me personally. There is nothing wrong with asking for help, whereas even unintentional plagiarism is a serious offense.

**Citation style**

It is important to properly cite any references you use in your assignments. The Department of Urban and Regional Planning uses Kate Turabian’s *A Manual for Writers of Research Papers, Theses, and*
Dissertations, 7th edition (University of Chicago Press, 2007, ISBN-10: 0-226-82336-9). Copies are available in the SJSU King Library. Additionally, the book is relatively inexpensive, and you may wish to purchase a copy. Please note that Turabian’s book describes two systems for referencing materials: (1) “notes” (footnotes or endnotes), plus a corresponding bibliography, and (2) in-text parenthetical references, plus a corresponding reference list. In this class, students should use in-text referencing (system 2 above).

Accommodation for Disabilities

If you need course adaptations or accommodations because of a disability, or if you need to make special arrangements in case the building must be evacuated, please make an appointment with me as soon as possible, or see me during office hours. Presidential Directive 97-03 requires that students with disabilities requesting accommodations must register with the DRC (Disability Resource Center) to establish a record of their disability.

Consent for Recording of Class and Public Sharing of Instructor Material

Common courtesy and professional behavior dictate that you notify someone when you are recording him/her. You must obtain the instructor’s permission to make audio or video recordings in this class. Such permission allows the recordings to be used for your private, study purposes only. The recordings are the intellectual property of the instructor; you have not been given any rights to reproduce or distribute the material.

Library Liaison

The SJSU Library Liaison for the Urban and Regional Planning Department is Ms. Toby Matoush. If you have questions, you can contact her at toby.matoush@sjsu.edu or 408-928-2096.

SJSU Writing Center

The SJSU Writing Center is located in Room 126 in Clark Hall. It is staffed by professional instructors and upper-division or graduate-level writing specialists from each of the seven SJSU colleges. Our writing specialists have met a rigorous GPA requirement, and they are well trained to assist all students at all levels within all disciplines to become better writers. The Writing Center website is located at http://www.sjsu.edu/writingcenter/about/staff/.
