San José State University  
Department of Psychology  
STAT 95: Elementary Statistics  
Section 6, Spring 2015

Instructor Contact Information
Instructor: Dave Schuster, Ph.D.
Office Location: DMH 315
Telephone: 408-924-5659
E-mail: david.schuster@sjsu.edu
Office Hours: Wednesdays, 1:00pm – 3:00pm or by appointment

Course Information
Classroom: CL 117
Class Days/Time: Tues. & Thurs., 9:00am – 10:15am
Prerequisites: Satisfaction of ELM requirement and two years of high school algebra. Failure to satisfy this prerequisite will result in the retroactive assignment of a “U” grade in this course. Information on the ELM can be obtained on the web at http://testing.sjsu.edu/epelm/
GE/SJSU Studies Category: GE Area B4: Mathematical concepts

Course Format
This course uses elements from a flipped classroom delivery format. Internet access is required, as described below.

Course Description
We live in a time of unprecedented access to information. We have new abilities, and new responsibilities, to research the best doctor, school, job, relationship, and more. The Internet has thrown open the doors to vast pools of data. Statistics are objective and systematic methods for describing and interpreting information so that you may make the most informed decisions throughout your life.
From the catalog: Hypothesis testing and predictive techniques to facilitate decision-making; organization and classification of data, descriptive and inferential statistics, central tendency, variability, probability and sampling distributions, graphic representation, correlation and regression, chi-square, t-tests, and analysis of variance. Computer use in analysis and interpretation.

Notes: Intended for Psychology majors and minors as well as for programs in Behavioral Science, Child Development, Education, Health Science, Nursing, Nutritional Science, Social Science, and Social Work.

Learning Outcomes

**Program Learning Outcomes**

Upon successful completion of the requirements for a major in psychology, students will be able to:

- **PLO1** – Knowledge Base of Psychology – identify, describe, and communicate the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology
- **PLO2** – Research Methods in Psychology – design, implement, and communicate basic research methods in psychology, including research design, data analysis, and interpretations
- **PLO3** – Critical Thinking Skills in Psychology – use critical and creative thinking, skeptical inquiry, and a scientific approach to address issues related to behavior and mental processes
- **PLO4** – Application of Psychology – apply psychological principles to individual, interpersonal, group, and societal issues
- **PLO5** – Values in Psychology – value empirical evidence, tolerate ambiguity, act ethically, and recognize their role and responsibility as a member of society

**Course Goals**

In terms of Mathematical Concepts (Area B-4), Stat 95 will focus on:

- Basic mathematical techniques for solving quantitative problems
- Elementary numerical computation
- The organization, classification, and representation of quantitative data in various forms, such as tables, graphs, rates, percentages, measures of central tendency and spread
- Applications of mathematics to everyday life

Stat 95 will incorporate issues of diversity in many ways (e.g., in lectures and assignments).

**GE and Course Content Learning Outcomes**

Upon successful completion of this course, you will be able to:

- **CLO1** – Use statistical methods to solve quantitative problems, including those presented in verbal form
- **CLO2** – Demonstrate the ability to use mathematics and statistics to solve real-life problems
- **CLO3** – Arrive at conclusions based on numerical and graphical data.

The learning outcomes will be assessed via written assignments and exam questions. These assessment items will involve solving verbal and symbolic quantitative problems, including those that involve real-world situations. Students will be required to arrive at conclusions using numerical and graphical data. For example, students may view a scatterplot depicting data for the amount of sleep (X) and visual memory (Y), and will determine whether a relationship exists between these variables. If so, they will describe the nature and strength of this relationship (CLO 3). In addition, students will compute appropriate statistical
measures that describe the relationship (CLO 1) and then determine the practical implications of the observed relationship (CLO 2, 3).

Stat 95 requires students to write a minimum of 500 words in a manner appropriate to quantitative analysis. The writing requirement will be met via a written project (described below). Writing will be assessed for grammar, clarity, conciseness, and coherence.

Required Materials

**Reliable Access to the Internet**
Having access to the Internet is your responsibility, so have backup plans in case you have problems with your primary computer. I cannot accept excuses about technology problems as valid, unless the entire University network or all of Canvas is offline.

**Udacity: Online Lectures**
Supplemental lecture videos are provided through Udacity. You must enroll with Udacity (free) in addition to enrolling through SJSU. Visit: [http://www.udacity.com/overview/Course/st095/](http://www.udacity.com/overview/Course/st095/)

**Canvas and E-Mail: Communication, Grades, Quizzes, and Submissions**
Use of the Canvas learning management system and e-mail are required. Supplementary course material will be made available on Canvas regularly. Communication regarding the course will be sent via the e-mail address linked to your MySJSU account or posted to Canvas. It is your responsibility to make sure you are enrolled in Canvas and receiving my e-mails.

How to get connected:

- You will need your SJSU ID to login. You should have received a message from the Registrar’s Office providing your SJSU ID.
- If you’ve never logged into Canvas, then you’ll first need to activate your SJSUOne account. Visit the following page to activate your account: [https://sjsuone.sjsu.edu/LDAPAccount/Activate/Activate.aspx](https://sjsuone.sjsu.edu/LDAPAccount/Activate/Activate.aspx).
- Once activated, you can login to Canvas at [https://sjsu.instructure.com/login](https://sjsu.instructure.com/login).

Answers about Canvas can be found at [http://guides.instructure.com](http://guides.instructure.com).

**Required & Recommended Textbooks**

The Best (2013) book is required, and you will refer to it often. On August 19, 2014, the book was $27.95 new from the Spartan bookstore, $20.95 used from the Spartan bookstore, and $25.19 new from Amazon.com. A Kindle edition is available for $15.37. A copy of this textbook will be available on reserve at the library.
The Witte and Witte (2010) textbook is not required. The textbook is intended as an additional reference. A copy of this textbook will be available on reserve at the library. If you do not purchase the text, you can use it at the library. Instead of the Witte and Witte book, online textbooks are another option:

Collaborative Statistics available at http://cnx.org/content/col10522/latest/

Calculator
You need a dedicated scientific or graphing calculator for this course. The best calculator for this course is the **TI-36X Pro**, which costs about $25 retail (available at OfficeMax, Staples, Wal-Mart, Frys, the Spartan bookstore, etc. Target does not sell it). It only comes in black, and it looks like this:

I can provide the most help with the TI-36X Pro. Many students already own a graphing calculator, and since they have all the necessary features, any of these models will work in place of the TI-36X Pro:

- TI-83
- TI-83 Plus
- TI-83 Plus Silver Edition
- TI-84 Plus
- TI-84 Plus Silver Edition
- TI-84 Plus C Silver Edition
- TI-Nspire with Clickpad (Note: you need to purchase the Touchpad keypad for about $10 or order the free TI-84 Plus keypad)
- TI-Nspire with Touchpad
- TI-Nspire CAS with Touchpad (Nspire CAS with Clickpad is not supported since the keypad is different)
- TI-Nspire CX
- TI-Nspire CX CAS

Do not buy a graphing calculator just for this course. The TI-36X Pro is much cheaper and will do everything you need. Other scientific or graphing calculators are acceptable but not recommended. Your calculator must have statistics functions, normal distribution functions, a random number generator, a square root function, and an exponent button. If you decide to use a different calculator, keep your calculator manual handy. You will have to translate the procedures used in the course for your calculator.

Grading Policy

**How to be Successful in this Course**
SJSU classes are designed such that in order to be successful, it is expected that students will spend a minimum of forty-five hours for each unit of credit (normally three hours per unit per week), including preparing for class, participating in course activities, completing assignments, and so on. More details about student workload can be found in University Policy S12-3 at [http://www.sjsu.edu/senate/docs/S12-3.pdf](http://www.sjsu.edu/senate/docs/S12-3.pdf).

It is *essential* that you make time every week to:

- Check Canvas and your e-mail for course announcements and changes.
- Check this syllabus for due dates and upcoming assignments and plan accordingly.
- Review the weekly handout.
- Watch and participate in the assigned lecture video(s) and take notes as you would if you were in class.
- Come to class for a summary lecture and to complete the in-class activity.
- Ask questions in class or via e-mail.

**Grading Scale**
Grades will be available to you on Canvas throughout the semester. Grades are assigned based on your final point total (out of 1000 points for the semester):

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>966+ points</td>
</tr>
<tr>
<td>A</td>
<td>916 - 965</td>
</tr>
<tr>
<td>A-</td>
<td>896 - 915</td>
</tr>
<tr>
<td>B+</td>
<td>866 - 895</td>
</tr>
<tr>
<td>B</td>
<td>816 - 865</td>
</tr>
<tr>
<td>B-</td>
<td>796 - 815</td>
</tr>
<tr>
<td>C+</td>
<td>766 - 795</td>
</tr>
<tr>
<td>C</td>
<td>716 - 765</td>
</tr>
<tr>
<td>C-</td>
<td>696 - 715</td>
</tr>
<tr>
<td>D+</td>
<td>666 - 695</td>
</tr>
<tr>
<td>D</td>
<td>616 - 665</td>
</tr>
<tr>
<td>D-</td>
<td>595 - 615</td>
</tr>
<tr>
<td>F</td>
<td>&lt; 595 points</td>
</tr>
</tbody>
</table>
Rounding is Included in the Grading Scale
The point totals reflect rounding up to the nearest percentage. For example, an A- would normally require 900 points (or 90% of 1000 points). With rounding, it only requires 896 points (or 89.6% of 1000 points). Because rounding is built in to the grading scale, your grade will be based on your final point total, rounded to the nearest whole point (so, 895.75 points is an A-, but 895.25 points is a B+). To be fair to everyone in the class, these are firm cutoffs; please do not ask for more rounding, special extra credit, or other unfair adjustments to your grade.

Grade Checks
You have my permission to use the Canvas printout as a record of your current progress in the course. If you need a signed grade check, then please bring the grade check form with a printout of your current Canvas grade to my office hours. Grade checks are only available during office hours. Under Federal privacy laws, I cannot e-mail grades to you at any time.

Course Requirements and Assignments

Writing Assignment
The writing assignment is 25% of your final grade (250 points total).

There will be one writing assignment due this semester worth 250 points. This short essay must be between 500 and 1000 words. A handout describing the content and grading of the writing assignment will be posted to Canvas.

In-Class Activities
In-class activities are 15% of your final grade (150 points total).

Fifteen in-class activities are worth 12.5 points each, but the lowest three are dropped. This leaves 12 in-class activities worth 12.5 points each, for a total of 150 points. We will do an in-class activity during most class meetings. The written portion of the in-class activity is due at the end of the class meeting. You get full points for completing the activity unless it’s obvious that you did not try, or you turned it in incomplete. Blatantly effortless work gets a zero, nearly-but-not-quite complete work gets half credit, and incomplete work gets a zero. You must be present for the entire activity to receive credit. You are encouraged to work collaboratively, but everyone must do his or her own work; copying is not allowed.

Exams
Exams are 60% of your final grade (600 points total).

Three exams are worth 200 points each. These three exams will focus on applying the knowledge learned in the previous part of the course. The third exam is the non-cumulative final exam.

You may bring and refer to handouts and your notes on the quizzes and exams. You may also use a single dedicated scientific or graphing calculator, but no other electronic device is allowed. All other assistance is prohibited. For example, you cannot use computers, mobile phones, watches, or tablets, even if they have a calculator function. If you will need to refer to material posted to Canvas, you will need to print it out ahead of time. If you have any questions about what material is allowed, ask me. I take academic integrity very seriously (see “Academic Integrity,” below).

Problem Sets
Udacity problem sets are recommended but are not part of your grade.
Each lesson on Udacity is followed by a problem set. These problem sets are meant to help you self-assess your knowledge of the concepts covered in each lesson. All problem sets are multiple-choice or short answer. Although they are not graded, problem sets are a useful tool for you to assess your learning or gain extra practice. It is strongly recommended that you complete them.

**Extra Credit**
Your grade should reflect your performance in the course over the entire semester. For this reason, there are limited opportunities for extra credit.

First, a quiz is available during the first week of class on Canvas. The quiz is about this syllabus. Your highest score on the quiz (you may take it multiple times) will count as up to 20 points of extra credit.

Second, there may be a small number of extra credit questions at the end of some exams. These questions are designed to be challenging and reward true mastery of the course material.

**Make-Up and Extension Policy**
Make-ups or extensions for any graded assignment will only be given when:

- The assignment is not labeled, “no make-ups or extensions for any reason."
- The reason is exceptional, unforeseen, and unavoidable. Examples of exceptional circumstances are health emergencies, religious obligations, and military service. Work scheduling is not a sufficient reason for a make-up or extension.
- You provide written documentation.
- You notify me immediately after you become aware of the circumstances requiring a make-up or extension by filling out this form:

If the need for a make-up is known before the assignment due date, the assignment must be completed early. Make-up exams will be scheduled based on instructor availability. Do not e-mail your instructor with requests for a make-up or extension; instead, complete the request form.

**Learning Environment**
We will be working in groups frequently. The success of our class depends on respect for everyone involved. Specifically:

- Come to class having watched the lecture and with prepared questions. Showing up unprepared is unfair to the rest of your group and will waste your time as well. If you are unprepared, excuse yourself from your group to catch up on your own.
- Class will start on time; avoid arriving late. If you are late, enter quietly.
- Silence your electronics during class.
- Don’t text, check your phone, IM, surf off-topic websites during class, or sleep; if you need to do these things, leave the room quietly and return quietly when finished. **If you do any of these things in class, you will be asked to leave.**
- Stay on topic during group work.
University Policies

Recording and Distributing Class Content
University Policy S12-7, [http://www.sjsu.edu/senate/docs/S12-7.pdf](http://www.sjsu.edu/senate/docs/S12-7.pdf), requires students to obtain instructor’s permission to record the course. Common courtesy and professional behavior dictate that you notify someone when you are recording him/her. You must obtain the instructor’s permission to make audio or video recordings in this class, and authorized recording is for the general lecture time only. Group work may only be recorded with permission of all group members. Such permission allows the recordings to be used for your private, study purposes only. The recordings are the intellectual property of the instructor. By enrolling in this course, you have not been given any rights to reproduce or distribute these recordings. Course material developed by the instructor remains the intellectual property of the instructor. You may not publically share or upload instructor-generated material for this course without written permission of the instructor.

Dropping and Adding
Students are responsible for understanding the policies and procedures about add/drop, grade forgiveness, etc. Refer to the current semester’s Catalog Policies section at [http://info.sjsu.edu/static/catalog/policies.html](http://info.sjsu.edu/static/catalog/policies.html). Add/drop deadlines can be found on the current academic year calendars document on the Academic Calendars webpage at [http://www.sjsu.edu/provost/services/academic_calendars/](http://www.sjsu.edu/provost/services/academic_calendars/). The Late Drop Policy is available at [http://www.sjsu.edu/aars/policies/latedrops/policy/](http://www.sjsu.edu/aars/policies/latedrops/policy/). Students should be aware of the current deadlines and penalties for dropping classes.

Information about the latest changes and news is available at the Advising Hub at [http://www.sjsu.edu/advising/](http://www.sjsu.edu/advising/).

General Expectations, Rights and Responsibilities of the Student
As members of the academic community, students accept both the rights and responsibilities incumbent upon all members of the institution. Students are encouraged to familiarize themselves with SJSU’s policies and practices pertaining to the procedures to follow if and when questions or concerns about a class arises. See University Policy S90–5 at [http://www.sjsu.edu/senate/docs/S90-5.pdf](http://www.sjsu.edu/senate/docs/S90-5.pdf). More detailed information on a variety of related topics is available in the SJSU catalog, at [http://info.sjsu.edu/web-dogen/narr/catalog/rec-12334.12S506.html](http://info.sjsu.edu/web-dogen/narr/catalog/rec-12334.12S506.html). In general, it is recommended that students begin by seeking clarification or discussing concerns with their instructor. If such conversation is not possible, or if it does not serve to address the issue, it is recommended that the student contact the Department Chair as a next step.

Academic Integrity
Your commitment as a student to learning is evidenced by your enrollment at San José State University. The University Academic Integrity Policy S07-2 at [http://www.sjsu.edu/senate/docs/S07-2.pdf](http://www.sjsu.edu/senate/docs/S07-2.pdf), requires you to be honest in all your academic course work. Faculty members are required to report infractions to the office of Student Conduct and Ethical Development. The Student Conduct and Ethical Development website is available at [http://www.sjsu.edu/studentconduct/](http://www.sjsu.edu/studentconduct/).

Instances of academic dishonesty will not be tolerated. Cheating on assignments or plagiarism (presenting the work of another as your own, or the use of another person’s ideas without giving proper credit) may result in a failing grade on the assignment, a failing grade in the course, and/or sanctions by the University. For this class, all assignments are to be completed by the individual student unless otherwise specified. If you would like to include any material you have submitted in another class or plan to submit for another class, please note that SJSU’s Academic Integrity Policy S07-2 requires approval of instructors.
Campus Policy in Compliance with the American Disabilities Act
If you need course adaptations or accommodations because of a disability, or if you need to make special arrangements in case the building must be evacuated, please make an appointment with me as soon as possible, or see me during office hours. Presidential Directive 97-03 at http://www.sjsu.edu/president/docs/directives/PD_1997-03.pdf requires that students with disabilities requesting accommodations must register with the Accessible Education Center (AEC) at http://www.sjsu.edu/aec to establish a record of their disability.

Accommodation to Students' Religious Holidays
San José State University shall provide accommodation on any graded class work or activities for students wishing to observe religious holidays when such observances require students to be absent from class. It is the responsibility of the student to inform the instructor, in writing, about such holidays before the add deadline at the start of each semester. If such holidays occur before the add deadline, the student must notify the instructor, in writing, at least three days before the date that he/she will be absent. It is the responsibility of the instructor to make every reasonable effort to honor the student request without penalty, and of the student to make up the work missed. See University Policy S14-7 at http://www.sjsu.edu/senate/docs/S14-7.pdf.

About Diversity
Consistent with the mission of San José State University, I welcome persons of differing backgrounds and experiences including but not limited to age, disability and health status, ethnicity and race, family structure, geographic region, language, religious/spiritual and secular beliefs, resident status, sex, sexual orientation and gender identity/expression, and socioeconomic status.

It is my goal to foster an environment in which diversity is recognized and embraced, and every person is treated with dignity, respect, and justice. I hope that your academic experience in this course and at San José State University will provide the opportunity to gain knowledge and experiences necessary to thrive in a diverse, global environment.

Useful Resources at San José State

Library Liaison
Your library liaison can help with library research questions.

Bernd Becker
Phone: (408) 808-2348
Email: bernd.becker@sjsu.edu

Computer Labs
Computer labs for SJSU student use are available in the:

- Statistics Lab, located in DMH 350
- Academic Success Center at http://www.sjsu.edu/at/asc/ located on the 1st floor of Clark Hall
- Associated Students Lab on the 2nd floor of the Student Union
- Martin Luther King Library

Check with each lab for hours and to see what software is available for your use.
Microsoft Office at No Cost
SJSU’s license for Microsoft Office allows you a free subscription to Office 365, which includes downloads of Word, Excel, PowerPoint, and others. Visit the eligibility website at http://www.office.com/getoffice365.

Adobe Creative Cloud at No Cost
SJSU provides students with a free subscription to Adobe Creative Cloud, which includes downloads of Acrobat, Photoshop, InDesign, and others for non-commercial, SJSU-related use. Visit the program website at http://its.sjsu.edu/services/software/adobe/.

SJSU Peer Connections
Peer Connections, a campus-wide resource for mentoring and tutoring, strives to inspire students to develop their potential as independent learners while they learn to successfully navigate through their university experience. You are encouraged to take advantage of their services which include course-content based tutoring, enhanced study and time management skills, more effective critical thinking strategies, decision making and problem-solving abilities, and campus resource referrals.

In addition to offering small group, individual, and drop-in tutoring for a number of undergraduate courses, consultation with mentors is available on a drop-in or by appointment basis. Workshops are offered on a wide variety of topics including preparing for the Writing Skills Test (WST), improving your learning and memory, alleviating procrastination, surviving your first semester at SJSU, and other related topics. A computer lab and study space are also available for student use in Room 600 of Student Services Center (SSC).

Peer Connections is located in three locations: SSC, Room 600 (10th Street Garage on the corner of 10th and San Fernando Street), at the 1st floor entrance of Clark Hall, and in the Living Learning Center (LLC) in Campus Village Housing Building B. Visit Peer Connections website at http://peerconnections.sjsu.edu for more information.

SJSU Writing Center
The SJSU Writing Center is located in Clark Hall, Suite 126. All Writing Specialists have gone through a rigorous hiring process, and they are well trained to assist all students at all levels within all disciplines to become better writers. In addition to one-on-one tutoring services, the Writing Center also offers workshops every semester on a variety of writing topics. To make an appointment or to refer to the numerous online resources offered through the Writing Center, visit the Writing Center website at http://www.sjsu.edu/writingcenter. For additional resources and updated information, follow the Writing Center on Twitter and become a fan of the SJSU Writing Center on Facebook. (Note: You need to have a QR Reader to scan this code.)

Counseling Services
Personal Counselors are available to help students identify and accomplish their academic and career goals, enhance personal development, meet life’s challenges, and improve interpersonal relationships.

Free short-term psychological counseling is available to individuals and couples who are matriculated students of San José State University. Students are eligible to receive six sessions per semester.

The SJSU Counseling Services is located on the corner of 7th Street and San Fernando Street, in Room 201, Administration Building. Professional psychologists, social workers, and counselors are available to provide consultations on issues of student mental health, campus climate or psychological and academic issues on an individual, couple, or group basis. To schedule an appointment or learn more information, visit the Counseling Services website at http://www.sjsu.edu/counseling.
**Wellness Workshops**

Attending to your wellness is critical to your success at SJSU. Early in your college career is the best time to take advantage of workshops and programs offered through the SJSU Student Health Center/Wellness & Health Promotion Department. Past workshops have included time management, community resources, study skills & note-taking, overcoming stress, test anxiety & test taking skills, goal setting, assertiveness & communication, improving self-esteem, graduate school, first-generation success, and more. For more information and a schedule of workshops, visit the Workshop list at [http://www.sjsu.edu/counseling/students/Workshops](http://www.sjsu.edu/counseling/students/Workshops).

**Course Schedule**

The course schedule is subject to change; modifications will be posted to Canvas.
