SJSU STUDENT HEALTH CENTER –

Immunizations & Vaccines

1) **Flu shot** - $11 for SJSU students

2) **Whooping Cough (TDAP) Vaccine** - $22 for SJSU students

3) **Other vaccines available at the Student Health Center** (e.g. Hepatitis vaccines, MMR, HPV/Gardasil/travel vaccines)

4) College freshmen, especially those who live in residence halls, are at a moderately increased risk for meningococcal disease compared to their peers. A safe vaccine is available at SJSU SHC that is effective in preventing the disease caused by meningococcal bacteria. Vaccination does not eliminate risk for all meningococcal disease. Other students wishing to reduce their risk of meningitis can also choose to be vaccinated. The MCV4 vaccine protects against four types of meningitis and can be obtained at the Student Health Center. The MenB vaccine protects against the most common cause of bacterial meningitis among teens and young adults. Students may contact the Student Health Center for more information on where to get this vaccine.

For more information, read the Meningococcal Vaccine Fact Sheet from the Centers for Disease Control and Prevention.

**SJSU Immunization Requirements**

- Hepatitis B Immunization
- Measles-Rubella Immunization

**ALTERNATIVE LOCATION FOR VACCINES:**

Santa Clara County Public Health Immunization Clinic

976 Lenzen Avenue, Suite 1800, San Jose, CA
