The Kinesiology International Experience Requirement - Catalog Copy

All undergraduate students entering the Department of Kinesiology from fall 2016 onward will be required to participate in an international learning experience to gain firsthand, cross-cultural and cross-national knowledge and insights into global political, social, cultural and economic factors that influence the practice and scholarship of physical activity/sport/human movement, and/or our emphasis and degree specialist areas. To satisfy this international requirement, students must study abroad for at least nine days in an approved program (exemption from the study abroad portion of the requirement must be approved by the dean of the College of Applied Sciences and Arts based on compelling individual life experiences or physical limitations. A relevant cross-cultural experience in the U.S. will be substituted). Specific details can be found on the college website at <http://www.sjsu.edu/casa/international-experience>.
