Course Requirements, Assignments, and Grades

COURSE REQUIREMENTS

Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of forty-five hours over the length of the course (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction or preparation/studying or course related activities including but not limited to internships, labs, clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.

Since this is a hands-on course, grades are based on quizzes (involving identification of skeletal material) and the final exam. There will be seven quizzes, which is about one every other week; each quiz is cumulative. Each quiz is worth 10%

of your final grade. There will be a comprehensive final quiz, which is worth 30% of your final grade and will be held during final's week.

Procedures for taking the quizzes: students will have a set amount of time at each bone station, they will not compare stations by going back and forth to stations or moving bones. Students may visit each station only once. Spelling counts. After all students have completed the quiz, lecture will resume. More information regarding quiz procedures will be provided on the quiz or exam days.

GRADING POLICY AND PROCEDURES

The final semester grade will be based on the following:

Quizzes:	7 X 10%	70%
Final Exam	1 X 30%	30%
Course Grade:		100%

Grading is as followed:

A	B	C	D	F
97% - 100% = A+	87-89% = B+	77-79% = C+	67-69% = D+	59% and Below = F
91-96% = A	81-86% = B	71-76% = C	61-66% = D	
90% = A-	80% = B-	70% = C-	60% = D-	

Attendance and Participation

Since this is a hands-on course with emphasis on identification skeletal materials, attendance and participation are essential. I highly recommend students attend class as often as possible; and, it is important to arrive on time and attend the entire class period. **I will not hold extra hours for those who missed class.**

Make-up Work

If you know in advance that you should be unable to attend a quiz, it is your responsibility to contact me immediately by either e-mailing, telephoning, leaving a message for me at the main department office, or coming by during my office hours. Only students with a valid documented excuse will be able to take a make-up quizzes or the final exam. **Please note that it is not possible to make up class time.**

Classroom Protocol

I consider my students adults. Attendance is optional, but in class attendance is essential to preparation for quizzes and the final. When one attends lecture, one should arrive on time, behave appropriately, stay until the end of class, and pay attention. If one feels that they conduct themselves in this manner (for whatever reason), then one should not attend class. Any behavior deemed disruptive to the instructor or other students may result in being asked to leave the classroom or being referred to the Judicial Affairs Officer of the University.

No electronics (which includes cell phones and laptops) will be allowed out in class. Before class begins, you must turn off all electronics and put them out of sight. Rare exceptions may be made if the student has signed up with the Accessible Education Center (EAC), comes to see me regarding the issue, and has specific recommendation from the EAC for laptop use rather than a note-taker or other accommodation. Discussions regarding student accommodations must be done in my office during office hours or at a scheduled appointment time.

All human remains will be handled with care, treated with respect, and not photographed. No photography is allowed in class at all.

University Policies

Per University Policy S16-9, university-wide policy information relevant to all courses, such as academic integrity, accommodations, etc. will be available on Office of Graduate and Undergraduate Programs' [Syllabus Information web page](http://www.sjsu.edu/gup/syllabusinfo/) at <http://www.sjsu.edu/gup/syllabusinfo/>
