Course materials such as syllabus can be found on the Canvas learning management system course website. You are responsible for regularly checking with the messaging system through MySJSU (or other communication system as indicated by the instructor) to learn of any updates.

Course Description

This course is a survey of domains in which anthropological skills and knowledge are applied. Topics include health, business and industry, sustainable regions, and immigration. Emphasis is on opportunities for anthropological contributions.

In this section we will focus on the issues and experiences of anthropological practitioners, particularly as they relate to the integrated focus areas of the anthropology of wellness, material culture and adaptability and knowledge in action.

Learning Outcomes

Learning Outcomes and Course Goals

Program Learning Outcomes (PLO) of the Graduate Program in Applied Anthropology

Students who successfully complete this graduate program will:

PLO 1* Understand a range of anthropological research methods and be able to conduct research relevant to problem solving in various settings and for different clients/partners;

PLO 2* Know basic models of applying anthropology in different settings and have the skills to be able to function as practitioners of several;

PLO 3 Be knowledgeable about (a) the discipline of anthropology in general and how it contributes to understanding and improving contemporary society, and (b) a particular field of anthropology in greater depth;

PLO 4 Be able to function effectively in at least one content area;

PLO 5* understand personal, political and ethical issues inherent in research and application;

PLO 6* Develop professionally as practitioners with skills in contracting, project management, and budgeting, as well as the ability to communicate about project goals and findings and the discipline of anthropology to diverse audiences; and

PLO 7* Be knowledgeable about the region as a social and cultural system with complex state, national and global interconnections.

Course Content Learning Outcomes

Upon successful completion of this course, students will be able to:

CLO 1. Integrate techniques from across anthropology to apply knowledge related to the material culture and adaptation, wellness, and knowledge in action, the umbrellas that define the anthropological approach at SJSU.

CLO 2. Generate ways that anthropology can be used in communities and organizations to address real-world issues for human betterment, in applications as diverse as innovation and design, consumerism and household finance, architecture and housing, and wellness, disease and health care.

CLO 3. Analyze structural social and cultural differences to determine the appropriate applications and to judge their potential effectiveness.

CLO 4. Appraise how diverse stakeholders evaluate and promote better outcomes and modify communication to match stakeholder expectations. Students should expect to work in a variety of relationships with the people they serve, including advocacy, public anthropology, and consultation.

CLO 5. Determine the most appropriate ethical approach to knowledge generation and application.

Library Liaison

Your resource Librarian is Silke Higgins, (408) 808-2118, Silke.Higgins@sjsu.edu.

Course Requirements and Assignments

SJSU classes are designed such that in order to be successful, it is expected that students will spend a *minimum* of forty-five hours for each unit of credit (normally three hours per unit per week, *9 hours per week in this course*), including preparing for class, participating in course activities, completing assignments, and so on. More details about student workload can be found in [University Policy S12-3](http://www.sjsu.edu/senate/docs/S12-3) at <http://www.sjsu.edu/senate/docs/S12-3.pdf>.

Course Assignments

1. Blog posts. (100 points per blog, 17.5% of grade) Each student will be individually assigned one or more readings for which s/he will be the facilitator. He or she will compose a “blog post” in which the article is summarized. The student will also find a case study that expands on that article, and write about the opportunities the article implies for practicing anthropologists. This is not a precis, or a summary, but an engaging 350-500 words that will provoke thought for your cohort. It will be submitted as an assignment and posted to the Canvas discussion shell for the course. The blog’s topic will link the discussion facilitation Course learning objectives met by this assignment include CLO 1, 2.
2. Discussion facilitation. (50 points per facilitation, 9% of grade). Along with 1-2 other people, students will be responsible for facilitating a discussion, often beginning with an activity or ice breaker, and then using prompts to continue discussion. You must be physically present during your allotted facilitation slot. Course learning objectives met by this assignment include CLO 2,3,4 and 5.
3. Weekly Reading Application. (120 points, 21% of the grade). For each week marked with an asterisk, each student will summarize, without evaluation, the key insights or findings of the week’s reading.
4. Role playing project. (200 points for the group, worth 35% of grade). Very few actual projects are individual. Most are done in teams. Students will work in a 3-5 person team to identify a potential project within the domains of applied anthropology. Four deliverables are built into this experience. First, you outline a domain, problem and plan (50 points). Second, you create an RFP from the point of view of a potential community partner (50 points). Third, you write a proposal in response to that RFP (50 points) and finally you present your proposal on the day of the Final (50 points). You would research and plan this project as if you were actually doing it, although you are only simulating the project. You would map an action plan to define the project, identify the stakeholders, consider how to best collaborate and consider the ethical implications for the various stakeholders. You would also map out the internal expertise of your team. What can you bring? What sort of business plan would best suit the scope of your project? Your project would be presented in conference format with appropriate powerpoints, handouts, such as bibliographies, artifacts or prototypes on Dec. 14. Individual efforts may vary in participation points. Course learning objectives met by this assignment include CLO 2,3,4 and 5.
5. Participation and Miscellaneous Activities (approximately 100, or 17.5% of the grade) Participation in class activities, project updates, simulations, and a variety of other exercises can be worth more than 100 points. Participation in class discussions and activities is the basis of awarding credit. Participation will be assessed by giving full credit for active participation, partial credit for passive participation and/or late entry or exit in an activity, and no credit for non-participation. These participation points will be assessed in two date groups, August 25-October 13, and October 20-December 14). Class discussions and short written exercises (for example, input into class brainstorming activities) will be used to track participation. Course learning objectives met by this assignment include CLO 1 and 2.

Final Examination or Evaluation

The Role Playing Proposal and Presentation, outlined above, will constitute the cumulative evaluation for the course. [University Policy S06-4](http://www.sjsu.edu/senate/docs/S06-4.pdf) (http://www.sjsu.edu/senate/docs/S06-4.pdf) which states that “There shall be an appropriate final examination or evaluation at the scheduled time in every course, unless specifically exempted by the college dean who has curricular responsibility for the course.”

Grading Information

Grades will be assessed based on writing competency and clarity, coherence and accuracy of argument, and professional presentation. Rubrics will be used in the Canvas submission portal.

Policies on grading information and class attendance can be found at:

- [University Syllabus Policy S16-9](http://www.sjsu.edu/senate/docs/S16-9.pdf) (http://www.sjsu.edu/senate/docs/S16-9.pdf)
- [University policy F15-12](http://www.sjsu.edu/senate/docs/F15-12.pdf) (http://www.sjsu.edu/senate/docs/F15-12.pdf)

Determination of Grades

- +/- grades will be used.
- There are no extra credit options.
- See assignment descriptions for percentage weight assigned to various class assignments.
- Assignments must be turned in by the due date to receive credit unless there is a significant reason **and** the instructor has approved late submission on or before the due date.

Grading Policy

Incompletes

Incomplete grades will be granted only if the instructor has been notified and has approved. Students with missing major assignments (over 50 points) will receive a WU (an Unauthorized Withdrawal). **NO WORK WILL BE ACCEPTED AFTER THE FINAL!!!**

Notification of Grades

If you wish to know your final grade before grade reports are issued e-mail a grade request (please do not phone). You may also track your grade in Canvas. Note graduate students must maintain a 3.0 or better average to remain in good standing.

Marking Criteria

A+ 98-100%

A 94-97 %

A- 90-93%

An "A" demonstrates originality, not merely efficient memory, addresses the tasks effectively, shows effective organization and logical argumentation, uses clear, appropriate and accurate examples and a high level of writing competence and knowledge. Completes the task and consistently does extra work that is self-initiated.

B+ 88-89%

B 84-87%

B- 80-83%

A "B" may show a good level of competence and may even reflect exactly what was discussed in class and texts, but does not contribute original knowledge. It shows uneven development of tasks. Work may be generally well organized, use appropriate examples, display facility in argumentation, with a few gaps, and demonstrates a good level of writing and knowledge. Completes the task and does some extra work guided by the instructor.

C+ 78-79%

C 74-77%

C- 70-73%

A "C" may show a fair level of competence, but may be uneven. Work will address the task adequately, but only with parts of the task. It is adequately organized and may occasionally use examples. Argumentation may be inconsistent and writing and knowledge competence may be unclear. Language may be inappropriately informal in parts of assignment.

D+ 68-69%

D 64-67%

D- 60-63%

F < 60%

A "D" will demonstrate poor competence with inadequate organization, task and argumentation development and inappropriate examples. It will display difficulty in using adequate academic language and errors in knowledge will be in evidence. A failure will only occur if no effort is made to address the assignment.

Participation

NOTE that [University policy F69-24](http://www.sjsu.edu/senate/docs/F69-24.pdf) at <http://www.sjsu.edu/senate/docs/F69-24.pdf> states that "Students should attend all meetings of their classes, not only because they are responsible for material discussed therein, but because active participation is frequently essential to insure maximum benefit for all members of the class. Attendance per se shall not be used as a criterion for grading." **TO BE EXCUSED** if you cannot make it to class to participate in an exercise, you must leave a voicemail or E-mail message **THAT day or earlier**, giving your **name, class and reason for missing the activity**. Verbal messages alone will not be recorded (i.e. telling the instructor in class or in the hallway). You will receive full credit (E) as long as the reason is significant and the privilege is not abused.

Classroom Protocol

There is no ban on devices, but I expect them to be on mute and used only in conjunction with class activities. No device use during guest speaker visits since that might be distracting to the rest of the classroom. Class will begin on time, and a professional tone is to be adopted during discussions and communications.

University Policies

Per University Policy S16-9, university-wide policy information relevant to all courses, such as academic integrity, accommodations, etc. will be available on Office of Graduate and Undergraduate Programs' [Syllabus Information web page](http://www.sjsu.edu/gup/syllabusinfo/) at <http://www.sjsu.edu/gup/syllabusinfo/>
