San José State University
College of Social Sciences
Anthropology 233, Fields of Application, Section 80, Fall 2021

Instructor: Dr. Jan English-Lueck
Office Location: Clark Hall 459 or on Zoom: https://sjsu.zoom.us/j/89214703931
Telephone: (408) 924-5347
Email: Jan.English-Lueck@sjsu.edu
Office Hours: Wednesday 1:00-3:00 or by appt.
Class Days/Time: Tuesday 6:00-7:15 PM on Zoom, and asynchronously
Classroom: https://sjsu.zoom.us/j/83425480992?pwd=TUVrMFRVRFVROFN1VVJndEEwTkRydz09
Password: 912305
Prerequisites: Co-requisite: ANTH 231 or instructor consent
Class Number 40787

Course Mode, Hybrid Synchronous and Asynchronous Online
The course is online, both synchronous through Zoom and asynchronous. You will need to use your SJSU email address and access Canvas through an internet connection. You are responsible for viewing all mini-lectures, reading all the work assigned in Canvas, and completing the exercises outlined in the workbook, Designing an Anthropological Career, as assigned. I will be available for Zoom or face-to-face consultation by appointment.

Faculty Bio
Dr. Jan English-Lueck is a Professor of Anthropology and a Distinguished Fellow at the Institute for the Future. English-Lueck has written ethnographies about cultural futures ranging from California’s alternative healers to China’s scientists, including Health in the New Age. She has been a participant in Google’s Food Lab. She is past President of the Southwestern Anthropological Association and Past-President of the Society for the Anthropology of Work. She is the Co-Chair of EPIC (Ethnographic Praxis in Industry) in 2021, and manages the Ethnobreakfast Bay Area Practitioners group. English-Lueck is also the author of several books on Silicon Valley including the first and second editions of Cultures@SiliconValley, winner of the American Anthropological Association’s 2006 Diana Forsythe Prize for the anthropology of science and technology, Busier than Ever! Why American Families can’t Slow Down (with Charles Darrah and James Freeman) and Being and Well-being: Health and the Working Bodies of Silicon Valley. She is currently working on a new book on Silicon Valley cultures, Reengineering Nature, in which wellness and food technologies feature prominently.

Fields of Application, ANTH 233, Fall 2021
**Course Description**
Survey of domains in which anthropological skills and knowledge are applied. Topics include health, business and industry, sustainable regions, and immigration. Emphasis is on opportunities for anthropological contributions.

In this class, we focus on the issues and experiences of anthropological practitioners, as they relate to the role of the anthropologist as a researcher, advocate or activist, policy-advisor/maker or manager. We will focus on case studies of domains that intersect with anthropological knowledge, particularly the anthropology of wellness, environmental sustainability, migration and immigration, and industry and labor.

**Learning Outcomes and Course Goals**

**Program Learning Outcomes (PLO) of the Graduate Program in Applied Anthropology**

Students who successfully complete this graduate program will:

- **PLO 1** Understand a range of anthropological research methods and be able to conduct research relevant to problem solving in various settings and for different clients/partners;

- **PLO 2** Know basic models of applying anthropology in different settings and have the skills to be able to function as practitioners of several;

- **PLO 3** Be knowledgeable about (a) the discipline of anthropology in general and how it contributes to understanding and improving contemporary society, and (b) a particular field of anthropology in greater depth;

- **PLO 4** Be able to function effectively in at least one content area;

- **PLO 5** Understand personal, political and ethical issues inherent in research and application;

- **PLO 6** Develop professionally as practitioners with skills in contracting, project management, and budgeting, as well as the ability to communicate about project goals and findings and the discipline of anthropology to diverse audiences; and

- **PLO 7** Be knowledgeable about the region as a social and cultural system with complex state, national and global interconnections.

**Course Content Learning Outcomes**

Upon successful completion of this course, students will be able to:

- **CLO 1** Integrate techniques from across anthropology to apply knowledge related to the material culture and adaptation, wellness, and knowledge in action, the umbrellas that define the anthropological approach at SJSU.

- **CLO 2** Generate ways that anthropology can be used in communities and organizations to address real-world issues for human betterment, in applications as diverse as innovation and design, consumerism and household finance, architecture and housing, and wellness, disease and health care.
CLO 3. Analyze structural social and cultural differences to determine the appropriate applications and to judge their potential effectiveness.

CLO 4. Appraise how diverse stakeholders evaluate and promote better outcomes and modify communication to match stakeholder expectations. Students should expect to work in a variety of relationships with the people they serve, including advocacy, public anthropology, and consultation.

CLO 5. Determine the most appropriate ethical approach to knowledge generation and application.

**Required Texts/Readings**

**Textbooks**

**Other Readings**

Supplementary course readings or handouts in PDF format. Available on Canvas Learning Management System:

You can find this required reading on Canvas and through Anthrosource and other databases in the SJSU library.

Atalay, S. 2012. *Community-Based Archaeology: Research with, by, and for Indigenous and Local Communities*. University of California Press. [Available on Canvas and through pdf excerpts from eBook in library]

Fields of Application, ANTH 233, Fall 2021

**Course Requirements and Assignments**

Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction or preparation/studying or course related activities including but not limited to internships, labs, clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus, in our case, time spent on the class project conducting, analyzing and conveying findings through design storytelling. More details about student workload can be found in at [http://www.sjsu.edu/senate/docs/S16-9.pdf](http://www.sjsu.edu/senate/docs/S16-9.pdf) and the Office of Graduate and Undergraduate Programs’ [Syllabus Information web page](http://www.sjsu.edu/gup/syllabusinfo/)

Students will be assessed through the following activities:

**Developing your Toolkit and Professional Identity**

1. Seminar participation: It is expected that all students will read all the readings each week and will be able to participate in discussions during each class session. This critical component of the seminar requires that students read all the readings in advance of class and be prepared to engage in substantive discussions. This is the heart of what a graduate seminar is about. As such, you will be expected to attend the seminar each week and actively participate in discussion. Participation will be assessed by giving full credit for active participation, partial credit for passive participation and/or late attendance, and no credit for non-participation or lack of preparation. I understand illness, jury duty and other conflicts emerge, but I expect that you will notify me no later than the day of the class if you will miss class. If possible, we will try to include you in the discussions electronically if that is possible. You are still responsible for the work. I understand life happens and I will accommodate unavoidable excused absences for each student up to two times. If more than two discussions are missed, this privilege will be revoked. Discuss episodic remote participation with your instructor. (5 point each week; 75 points total, 17% of the grade). Discussions will cover CLO 1, 2, 3, 4, and 5)

2. Weekly Reading Application Analysis Precis. (10 points each, 50 points, and 12% of the grade). For each week marked with an * (asterisk), each student will summarize, without opining, the key context and problem set forth by the authors. What were the objectives of the project? What were the organizations involved? What is the audience? What is the deliverable? What disciplines were involved? What approaches, strategies, or tactics might be useful in your own future career? In other words, how would you apply that element to your career strategy, your project development, your post-graduation presentation, or your sense of your own professional identity? Application Analysis Precis touch on CLO 1, 2, 3, 4, and 5.

3. Activity facilitation. (20 points per facilitation, 5% of grade). For weeks marked with a † symbol, each student will be responsible for facilitating one activity, probably in a team. In each facilitation, you would begin...
with an icebreaker, and develop an activity to emphasize the professional application of the readings’ topics to be conducted in breakout groups on Zoom, introduced and synthesized in the whole group. The emphasis of the activity must be on how applied anthropologists would develop a skill, practice or partner relationship, not evaluating the article or discussing opinions. Course learning objectives met by this assignment include CLO 2, 3, 4 and 5.

4. Understanding ethics and IRBs. Even if you are not doing what Federal agencies would consider “generalizable human subjects research,” you will work within the constraints of the University’s IRB in pursuing your degree. You will complete the CITI training for students. Find the appropriate information at https://www.sjsu.edu/research/research-compliance/irb/irb-researcher-training.php. Every student will complete an Exclusion Sheet and outline the information they would need to put together to complete an IRB proposal. Submit your completion certificate and exclusion sheet, 10 points each, 20, or 5% of the grade. These assignments meet CLO 1 and 5.

**Presenting Yourself**

5. Professional Development Exercises from Designing an Anthropological Career

   a. In-class breakout Zoom Professional Development Exercises from Designing an Anthropological Career. (Exercises 1 (Identity), 3 (Job Titles), 5 (Impact), 6 Collaboration), 8 (Mentorship), the exercises are 50 points total, 12% of the grade)

   b. Assigned Professional Development Exercises from Designing an Anthropological Career. Exercise 2 (Transcript), 9 (Networking), 10 (Ideal Job-we also share in class), 12 (Resume). (These exercises are collectively 40 points, 10% of grade.)

   c. When you hit the employment market in two years (or so), you will need to present a professional portfolio. We will explore what such a portfolio would mean in an academic and non-academic marketplace and you will develop a simulated portfolio plan that you can implement in the course of your graduate program. Modify Professional Project 1, Portfolio, to produce and outline of your potential portfolio. (15 points, 5% of the grade)

   d. Practice Pitches. Adapt Designing an Anthropological Career exercise 11 to contact a potential partner. In a recorded role-play video, you will be pitching yourself to a potential partner. (15 points, 5% of the grade).

**Developing Partner Relationships**

6. Informational Interview with Potential Partners. (50 points, 12% of the grade). You will conduct and summarize an online informational interview with a potential partner. This person may or may not be your final project partner, but you will get a chance to meet and understand people who want to work with anthropology students. We will collectively develop a protocol for talking to potential partners. We will have a partner panel in conjunction with this effort. You will submit a summary (Course learning objectives met by this assignment include CLO 2, 3, 4 and 5.)

7. Draft MOU: (5 points draft MOU, 40 points final MOU, 50 points for presentation, 95 points total, 22% of the grade). In this class, we will focus on finding organizational partners and thinking through an MOU with a
potential partner. It is expected that this activity is relevant to their progress on developing a project for the Master’s degree more generally. Students will contact various organizations and narrow down to one main potential partner, discuss their interests/needs with stakeholders to collaboratively explore project ideas, and then draft a memorandum of understanding (MOU) for working with that partner. As the final exam, students will submit their draft MOU document to the instructor and give a short class presentation detailing the proposed project, the range of possible deliverables (if appropriate), how it is of value or of interest to their organizational partner, and the significance of the project to various stakeholders. We will have in-class workshops to help move this project forward, students will be expected to occasionally report on out-of-class progress, and the activities will culminate in a MOU submission and project presentation.

Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally three hours per unit per week) for instruction, preparation/studying, or course related activities, including but not limited to internships, labs, and clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.

**Final Examination or Evaluation**

The Potential Organizational Partner MOU and Project Presentation, outlined above, will be the final examination for the course. [University policy S17-1](http://www.sjsu.edu/senate/docs/S17-1.pdf) which states that “Faculty members are required to have a culminating activity for their courses, which can include a final examination, a final research paper or project, a final creative work or performance, a final portfolio of work, or other appropriate assignment.” In our seminar the completion of the project MOU and the presentation on its components will constitute the culminating event.

**Grading Information**

Grades will be assessed based on writing competency and clarity, coherence and accuracy of argument, and professional presentation.

Grades will be assessed based on writing competency and clarity, coherence and accuracy of argument, and professional presentation.

A plus = 98, 421 to 430 points  
A = 94 to 97%, 404 to 420 points  
A minus= 90 to 93%, 387 to 403 points

An "A" demonstrates originality, not merely efficient memory, addresses the tasks effectively, shows effective organization and logical argumentation, uses clear, appropriate and accurate examples and a high level of writing competence and knowledge. Completes the task and consistently does extra work that is self-initiated.

B plus= 88-89%, 378 to 386 points  
B = 84 to 87%, 361 to 377 points  
B minus = 80 to 83%, 344 to 360 points

A "B" may show a good level of competence and may even reflect exactly what was discussed in class and texts but does not contribute original knowledge. It shows uneven development of tasks. Work may be generally well organized, use appropriate examples, display facility in argumentation, with a few gaps, and demonstrates a good level of writing and knowledge. Completes the task and does some extra work guided by the instructor.
C plus =78 to 79%, 335 to 343 points
C= 74 to 77%, 318 to 334 points
C minus= 70 to 73%, 301 to 318 points

A "C" may show a fair level of competence but may be uneven. Work will address the task adequately, but only with parts of the task. It is adequately organized. It may occasionally use examples. Argumentation may be inconsistent and writing and knowledge competence may be unclear. Language may be inappropriately informal in parts of assignment.

D plus =68 to 69%, 292 to 300 points
D = 64 to 67%, 275 to 291 points
D minus = 60 to 63%, 258 to 274 points
F = less than 59%, less than 254 points

A "D" will demonstrate poor competence with inadequate organization, task and argumentation development and inappropriate examples. It will display difficulty in using adequate academic language and errors in knowledge will be in evidence. A failure will only occur if no effort is made to address the question or topic.

Grading Policies:

- Students will be held to the highest standards of academic integrity and intellectual ethics. The chief product in the social sciences is new knowledge and original thinking. Plagiarism is intellectually dishonest and a form of theft. It will not be tolerated and will be dealt with in accordance with university Academic Integrity Policy.

- No late assignments will be accepted without prior instructor approval and documented cause. Similarly, I will accept only two late weekly submissions, as long as those weekly summaries are done by the next class. There will be a one grade penalty for any late summaries. No other late work will be accepted. All summaries must be submitted through Canvas.

- The instructor reserves the right to adjust the syllabus, exam dates, or course content as deemed necessary to facilitate the highest achievement and performance of the class, or to explore timely topics.
• Incomplete grades will be granted only if the instructor has been notified and has approved. At least 75% of the class work must have been completed to get an incomplete. Students with missing major assignments will receive a WU (an Unauthorized Withdrawal). NO WORK WILL BE ACCEPTED AFTER THE FINAL!!

Classroom Protocol
Class will begin on time, and a professional tone is to be adopted during discussions and communications. Team members will contribute with appropriate effort and timely communication to their peers. I will assess team participation and ability to work within a group context. I will ask team members to evaluate themselves and their teammates throughout the course. Please keep your cameras on during Zoom breakouts, and as much as possible, during seminars.

University Policies
Per University Policy S16-9 (http://www.sjsu.edu/senate/docs/S16-9.pdf), relevant information to all courses, such as academic integrity, accommodations, dropping and adding, consent for recording of class, etc. is available on Office of Graduate and Undergraduate Programs’ Syllabus Information web page at http://www.sjsu.edu/gup/syllabusinfo/” Make sure to review these university policies and resources with students.

Here are some of the basic university policies that students must follow.

Consent for Recording of Class and Public Sharing of Instructor Material
All students must obtain the instructor’s permission if they wish to record lectures or distribute materials from the class. University Policy S12-7 http://www.sjsu.edu/senate/docs/S12-7.pdf The instructor will record the Zoom upon request in advance.

Academic integrity
Learn about the importance of academic honesty and the consequences if it is violated. University Academic Integrity Policy S07-2 http://www.sjsu.edu/senate/docs/S07-2.pdf Student Conduct and Ethical Development website http://www.sjsu.edu/studentconduct/

Campus Policy in Compliance with the American Disabilities Act
Here are guidelines to request any course adaptations or accommodations you might need. Presidential Directive 97-03 http://www.sjsu.edu/president/docs/directives/PD_1997-03.pdf Accessible Education Center http://www.sjsu.edu/aec
