**Course Description**

How archaeologists invent their own version of the past, illustrated with compelling Old and New World discoveries from early prehistory to the present. How archaeological sites are discovered, excavated and analyzed; how facts are tested, and fictions unmasked.

This course is going to introduce to the concepts, theories, data and models of anthropological archaeology that contribute to our knowledge of humans' past, especially when there is no writing history. We will explore what archaeology is and is not. We will explore how archaeology has developed and how it has changed. We will explore the involvement of many new communities and discuss some of the professional and ethical problems between the practice of archaeology today and the conservation, protection, and control of cultural resources. We will explore the interpretation of the material culture using theoretical frameworks that help archaeologists in their research design. We will learn what makes up the archaeological record, what it takes to do fieldwork, and how to collect your data, exploring the tool kit that archaeologists use in the field. Other topics we will discuss include Indigenous archaeology, archaeozoology, bioarchaeology, and ceramic analysis.

## **Course Format**

Online course

## **General Education Learning Outcomes**

Students shall be able to:

1. locate and evaluate sources, through library research, and integrate research through appropriate citation and quotation;
2. present effective arguments that use a full range of legitimate rhetorical and logical strategies to articulate and explain their position on complex issues in dialogue with other points of view;
3. effectively locate, interpret, evaluate, and synthesize evidence in a comprehensive way in support of one's ideas;
4. identify and critically evaluate the assumptions in and the context of an argument;
5. effectively distinguish and convey inductive and deductive patterns as appropriate, sequencing arguments and evidence logically to draw valid conclusions and articulate related outcomes (implications and consequences).

## **iClicker Technology:**

In this course, we will be using clicker technology to collect student responses to questions posted in class. Points will be awarded based on participation. Please do not purchase any clicker technologies, as SJSU has a site-wide license for SJSU students.

Students are responsible for creating a free student account at [www.iclicker.com](http://www.iclicker.com), and adding this course to their account. Detailed instructions are available on the SJSU eCampus website. Please contact eCampus with any questions or issues with the iClicker technology.

## **Course Requirements**

Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction or preparation/studying or course related activities including but not limited to completing assignments, labs, clinical practica, and so on. Other course structures will have equivalent workload expectations as described in the syllabus. More details about student workload can be found in University Policy S12-3 at <http://www.sjsu.edu/senate/docs/S12-3.pdf>.

## **Course assignments and Grading Information**

This course must be passed with a C- or better as an SJSU graduation requirement.

## Course Requirements and Assignments

Students will be evaluated on the basis of:

**(1) Activities** (13) will correspond to most modules of the course and involve written submissions. **[160]**

**(2)** A comprehensive Midterm (75 points) and **final examination** (75 points) will include essays on the major themes of the course. The exam will be given during the scheduled finals period (except for students requiring disability accommodations). **[150 points]**

**(3) quizzes** These quizzes may be multiple-choice, fill in the blank, or short answer. They are designed to cover material presented in lectures and assigned readings—keeping up readings is essential to do well on this portion of the class. The content of the questions may be specific to the findings presented (e.g. sites, interpretations of scholars, or theories), or they may require students to logically consider scientific arguments (e.g. how behavioral conclusions derive from particular archaeological evidence, or broader social outcomes of patterned behavioral choices). There will be quizzes for each module (13). **[130 points]**

## Final Examination or Evaluation

The final exam is an essay exam on the major themes of the course. [University policy S17-1](http://www.sjsu.edu/senate/docs/S17-1.pdf) (<http://www.sjsu.edu/senate/docs/S17-1.pdf>) states that “Faculty members are required to have a culminating activity for their courses, which can include a final examination, a final research paper or project, a final creative work or performance, a final portfolio of work, or other appropriate assignment.”

## Classroom Protocol and Policies

- **I do not drop** students for non-attendance; you are responsible for your registration status.
- **A grade of Incomplete will not be given to avoid an F in the class.**
- For the asynchronous courses, keep in mind that Canvas records your arrival and leaving times. Being there is an important aspect of your participation.
- **Communication: you can contact me through email or Canvas.** I will answer all emails during regular working hours (Monday through Fridays from 9am-5pm) and within 24 hours during the week. I do not answer emails during the weekend or holidays, or after the official closing of the semester. If you have complex questions regarding course material or many questions regarding missing classes, please make an appointment or utilize office hours, I will not write long or complicated emails. For all issues regarding your grade, please contact me before the official last day of class. I am extremely invested in your learning, so please always feel free to let me know, with time, how you are doing. In this new era of Zoom meetings I will establish some specific considerations (Zoometiquette) to keep in mind when we use this medium.
- **All written assignments are to be submitted through Canvas** or as indicated by the instructor.
- **All assignments and exams are due the date marked in the class schedule** unless the date has been officially changed by the instructor or due to extraordinary circumstances (medical, death in the family).
- **Unexcused late written assignments** will carry a heavy penalty of 10% for each late day and will not be accepted after three days.
- **All assignments are due before the last day of class.**
- **Discussion activities are due on the same day and cannot be made up.**
- **Assignments described as mandatory and all exams are required to pass the class.**
- **Research papers or other written work with a Turnitin score greater than 15%, will not be accepted.** Check your “turnitin” score when you submit your assignment to Canvas, therefore, it is advisable not to wait until the last minute. Build in some extra time to be able to revise your work. Academic dishonesty, cheating or intentional plagiarism indicated by a high “turnitin” score will result in an automatic grade of F (<http://www.sjsu.edu/senate/docs/F15-7.pdf>, you are responsible for knowing the content of this document, no exceptions).

- **Make-up exams** will be given only if, 1) you know in advance that you are unable to complete it due to an important and verifiable reason and have arranged in advance with the instructor for an alternative date prior to its scheduled date, 2) if any reason arises beyond your control you need to notify the instructor before class by email and provide a verifiable reason (note from physician/nurse, etc.) for the absence. Only students with a valid documented excuse will be able to take a make-up a test (or turn in a late assignment). Make-up exams will only be scheduled within one week from the original due date (I do not provide a study guide).
- **The Final Exam cannot be made-up. Students must take the Final Exam at the scheduled time or earlier with the approval of the instructor.** [University policy S17-1](http://www.sjsu.edu/senate/docs/S17-1.pdf) (<http://www.sjsu.edu/senate/docs/S17-1.pdf>)
- There will be **no Extra Credit** assignments in this class.
- After the end of semester there will be no changing of grades or any further grade negotiation. Canvas keeps you updated on your current grade; it is up to each student to calculate what is needed for the desired goal.
- Students are encouraged to ask questions before, during, and after class and to take full advantage of scheduled office hours or to make appointments.
- **All lectures and course materials, including exams, assignments, quizzes, handouts, and exercises, are copyrighted and may not be distributed without written permission from the instructor.**
