**Course Description**

Explore mummies from around the world. Examine the archaeological and biological evidence of how and why mummification was practiced in these cultures, plus what the examination of mummies can tell us about past peoples cultures, diseases, and lifestyles.

In this course, students will explore the science of mummies from ancient Egypt, China, the Andes, and many other civilizations. We will examine the archaeological and biological evidence of how and why mummification was practiced in these cultures. We will use the scientific literature to understand how scientists employ mummy data to reconstruct past populations, including what people died of, what differences existed between various groups in populations, how people lived their daily lives, and many more.

**Course Learning Outcomes (CLO)**

Upon successful completion of this course, students will be able to:

CLO 1 describe the different mummification processes that are found around the world.

CLO 2 explain how anthropologists use mummies to assess health and status of past populations.

CLO3 identify from sight pathologies that are found in mummies.

CLO4 locate on unlabeled maps key mummy sites.

## Attendance and Participation

There will be various in-class participation assignments intended to help students on quizzes and the final. These are an integral part of class; it is important to arrive on time and attend the entire class period.

### Make-up Work

If you know in advance that you should be unable to attend a quiz or the final it is your responsibility to contact me immediately by either e-mailing or telephoning me, leaving a message for me at the main department office, or coming by during my office hours.

Late papers are accepted only with a valid documented excuse.

Extra credit opportunities may be available sometimes.

### Taking tests for my classes:

- 1) Make sure to read each question carefully.
- 2) Make sure to arrive on time.
- 3) Put everything except your writing tools away.
- 4) Once I have handed out the first test and until the last test is turned in, there will be no talking permitted.
- 5) Always keep your eyes on your own papers.
- 6) Spelling counts. Misspelled answers will be marked as incorrect.
- 7) During the test, you can ask me questions if you need clarification on the question. To do this, please raise your hand and I will come over to you. If you have a question about the answer or about the meaning of a word that you should know (e.g., it is in your reading or I have used it in class), I will not answer the question.
- 8) Once you are finished, turn in your test and then you are free to leave.
- 9) Test results will be posted on turnitin.com.
- 10) Tests will be passed out the next class period and then we will review the answers. If you miss class, make sure to pick up the test the subsequent class period or during office hours.

### **Classroom Protocol**

Please respect your neighbors and refrain from newspaper reading; using electronics; utilizing computers for anything other than taking notes. Any behavior deemed disruptive to the instructor or other students may result in being asked to leave the classroom or being referred to the Judicial Affairs Officer of the University.

## Departmental Goals
