**Section 3 (22307) Spring 2014  
San José State University  
Department of Anthropology/ College of Social Sciences**

<b>Instructor:</b>	Viviana Bellifemine Sanchez-Chopitea
<b>Office Location:</b>	CL 402G
<b>Telephone:</b>	408-924-5712
<b>Email:</b>	viviana.sanchezchopitea@sjsu.edu
<b>Office Hours:</b>	Tuesdays 5-6PM or by appointment
<b>Class Days/Time:</b>	Tuesdays 6:00-8:45PM
<b>Classroom:</b>	CL 204
<b>Prerequisites:</b>	Successful completion of a 100W course
<b>GE/SJSU Studies Category:</b>	This course satisfies Area R of SJSU Studies Earth and Environment. Courses to meet Areas R, S, and V of SJSU Studies must be taken from three different departments or distinct academic units.

## **Faculty Web Page and MYSJSU Messaging**

Copies of the course materials such as the syllabus, major assignment handouts, and grades can be found on the Canvas course web page at <http://www.sjsu.edu/at/ec/canvas/>. The course Canvas will be published by the first day of class. My SJSU web page is available at <http://www.sjsu.edu/people/viviana.sanchezchopitea/>. You are responsible for regularly checking with the messaging system through MySJSU and through Canvas to be current with any updates.

## **Course Description**

The field of archaeology and the study of prehistory are as rich and diverse as they are compelling. This upper division course will explore the panorama of human development beginning with Neanderthal interactions with pre-modern humans, through civilization in the early Neolithic. We will explore the gradual development of social groups and the invention of agriculture, as well as the emergence of complex states. The archaeology of ancient civilizations, some familiar, others obscure, will be examined. Many of the latest

discoveries, theories, and controversies surrounding human origins, the peopling of the world, and the development of various civilizations will be discussed.

This course is as much about the practice of archaeology, its practitioners, and the political ramifications of research as it is about findings in the field. Archaeology is a lively scientific pursuit and current developments within the field will be highlighted. Although current theoretical frameworks and methodologies are integrated into the course, the chief focus is trained on establishing a broad understanding of human social and cultural development and the context for archaeological interpretation. The course is interdisciplinary in scope and will investigate how archaeologists use various scientific techniques to learn about the past and content will be complemented by critical analysis.

## **Course Content Learning Outcomes and Goals**

### **Course Content Learning Outcomes (CCLOs)**

Upon successful completion of this course, students will be able to:

- LO1 distinguish science from pseudoscience;
- LO2 demonstrate an understanding of the methods and limits of scientific investigation; and
- LO3 apply a scientific approach to answer questions about the earth and environment

### **Course Content Learning Goals**

#### **Interaction of science and technology:**

- LO4 Knowledge of the evolution of archaeological thought, and the role of key individuals in development of archaeology as a science.
- LO5 Broad understanding of human evolutionary history since the emergence of our species and the critical issues and problems of evidence.
- LO6 Understanding of the important role archaeology plays in modern nationalism, identity, and political ideology.

#### **Differences between scientific, non-scientific, and pseudoscientific approaches:**

- LO7 Critical examination of pseudoscience, frauds, scientific racism, and extraordinary claims made concerning past civilizations and human evolution.
- LO8 Scientific methods and philosophy contrasted to non-scientific approaches to the past.

#### **Interaction of humans and the physical world:**

- LO9 Working knowledge regarding several ancient civilizations that have historically been the focus of archaeology and their interaction with the environment.
- LO10 Investigation into the impact of human activity and culture on the prehistoric and historic environment.
- LO11 Critical understanding of the major theories and intellectual frameworks concerning human adaptations, invention of agriculture, and the rise of complex states.

**Application of science and technology:**

- LO12 Knowledge of scientific methods as applied in archaeology and the techniques used in modern archaeological contexts to generate new knowledge.
- LO13 Students will develop critical thinking skills in assessing archaeological evidence.
- LO14 Students will learn research skills applicable across academic disciplines.

**Values and limitations of science and scientific inquiry:**

- LO15 Students will gain experience forming specifically testable hypotheses, recognizing research questions, and evaluating cases of research.
- LO16 Students will learn of the interdisciplinary nature of modern archaeology.

**Departmental Goals**

Learn about the goals of the anthropology department and how it can benefit your education.

Goals <http://www.sjsu.edu/anthropology/departmentinfo/goals/index.html>

**Required Texts/Readings**

**Textbook**

*People of the Earth: An Introduction to World Prehistory*. Brian Fagan, 2009. Prentice Hall. Fourteenth Edition (earlier editions acceptable). ISBN: 0205735673

*Frauds, Myths and Mysteries*. Kenneth Feder, 2010. McGraw Hill. Seventh Edition (earlier editions acceptable). ISBN: 007811697X

**Other Readings**

Supplementary course readings or handouts in PDF format. Available on the course Canvas page.

**Classroom Protocol**

- **Student participation and attendance is essential** for academic success. Students are expected to attend class. Students are encouraged to attend class regularly since material presented and discussed in the classroom may be additional to the information presented in the assigned textbook.
- **Arriving late and leaving early is not acceptable** unless there is an exceptional circumstance or has been previously arranged with the instructor.
- Laptops are only permitted for note taking and for specific in-class exercises, and only under the specific approval of the instructor. Any other electronic devices need to be off during class. Activities such as texting, surfing the web, chatting, or emailing during class are disruptive and constitute disrespectful behavior towards the instructor and other students. Please be courteous and respectful.

**All assignments are due the date marked in the class schedule** unless the date has been officially changed by the instructor. **All written assignments are to be submitted through “Turnitin” in Canvas or as indicated by the instructor.** **Make-up exams** will be given only if 1) you know in advance that you are unable to attend due to an important and verifiable reason and have arranged in advance with me an alternative date prior to its scheduled date, 2) if any reason arises beyond your control you need to notify me before class by email and provide a verifiable reason (note from physician/nurse, etc.) for the absence. Only students with a valid documented excuse will be able to take a make-up a test. Unexcused **late written assignments** will be subject to a 3% penalty per day and not accepted after one week from the original due date.

- **Students may not leave the room during an examination.** This will be an indication to the instructor that the student has completed the exam and it will be collected without further opportunity to continue.
- **All lectures and course materials, including exams, assignments, quizzes, handouts, and exercises, are copyrighted and may not be distributed without written permission from the instructor.**
- Discussions of controversial topics can become emotional. Such discussion demands respect and intellectual honesty toward and between fellow students, instructor, and from instructor toward students. Personal attacks on individuals holding non-conventional/controversial ideas will not be tolerated.
- Students are encouraged to ask questions before, during, and after class and to take full advantage of scheduled office hours or to make appointments.

## **Course Assignments and Grading Policy**

Students will be graded on the following assignments:

- Two Exams: (mandatory)

Conceptual understanding and application of knowledge is the principal objective of the course and will be targeted by assessment. Exams are multiple choice and short answer oriented. Objective questions are included to assess core content. ***Failure to take the any exam will result in a failing grade regardless of other completed work*** (each exam = 200pts).

- A Term Paper: (mandatory)

A research paper (minimum of 3000 words, 10-12 pages double spaced of original work [**excluding quotes**]) including a reference section is required for this class. Topics must address one of the three main Learning Outcomes (LO1-3) referenced above. Details on the required guidelines for format will be provided during the semester. The student is encouraged to select a topic of his/her own choosing with the instructor’s permission. The paper will be graded on original thinking, application of concepts developed in class, clear presentation, organization, use of citations, and proper grammar and spelling. **References will follow *American Antiquity* style.** Intentional plagiarism will result in an

automatic grade of F. **Papers will not be accepted after the deadline or with a Turnitin score greater than 15%.**

The paper itself is worth 150 points. Additionally, a one page proposal (20 points), outline (10 points), and sources (20 points) are required components of this assignment contributing to a total of 200 points.

- Group Project: (non-mandatory)

Written contribution to a group project will be assessed as part of your general grade. This assignment will consist of a critical essay (minimum 2000 words of original work) by the group based on a subject provided by the instructor at the beginning of the term (100pts).

- Artifact Project: (non-mandatory)

A written essay (minimum of 500 words of original work) including a reference section is required for this class. Topics will be discussed in class (100pts).

- In-class exercises/quizzes:

A number exercises/quizzes will be given during class throughout the course based on the course readings listed in Canvas. These are to promote class attendance and encourage currency in reading assignments. All written activities are due the same day during class and cannot be made up (100pts).

- Class participation/discussion:

There will be a number of class interactive discussions in individual or group form throughout the semester. Student participation is important to promote critical thinking and evaluate the understanding of class material (100pts).

- Attendance:

Roll will be taken sporadically. Attendance is strongly encouraged and expected. Your success in the class depends on your presence during lecture and class activities. Missing lectures can cause missing of information and may result in failing the class.

- Forum days:

Additional reading material will be selected and provided in Canvas for analysis and discussion. A short survey based on the content of the articles will be provided on Canvas before the class meeting to prepare for the discussion. A short written assessment to be completed in class individually or in a group will be required at the end of the class. Guidelines for these exercises will be given in class. Participation in this activity is important since you will be able to apply the concepts learned during lecture and have a glimpse at the current issues and controversies surrounding the discipline.

- Extra Credit: Oral Presentation:

A brief oral presentation of your term paper using PowerPoint or other audiovisual material can be prepared for extra credit. The presentation needs to be no more than 10

minutes long. Grading will take into account time, clarity, ingenuity, and effectiveness of the presentation (50pts).

**Failure to take any exam or submit a term project will result in a failing grade regardless of other completed work.**

#### Assignments and Grade Break-down

Exams (2 partial tests, 200 points each)	400	42%
Term paper (proposal, outline, sources)	200	21%
Group project	100	10.5%
Individual project (short paper )	50	5%
In-class exercises/quizzes	100	10.5%
Class participation	100	10.5%
<b>Total</b>	<b>950</b>	<b>100%</b>
Oral presentation (Extra credit)	50	

Below are basic guidelines for grading. Additional criteria may apply depending on assignments. Letter grades will be assigned based on score percentages, as follows.

Grading is as followed:

A	B	C	D	F
97-100% = A+	87-89% = B+	77-79% = C+	67-69% = D+	Below 60% = F
93-96% = A	83-86% = B	73-76% = C	63-66% = D	
90-92% = A-	80-82% = B-	70-72% = C-	60-62% = D-	

A+ >97, A 93-96, A- 90-92 %

To earn an A: All assignments must be completed, on time, and demonstrate mastery of conceptual as well as critical content. Assignments will exhibit thoughtful and critical analysis, effort at conceptual synthesis, and originality. Papers will be carefully proofed for grammatical and typographical errors and exhibit exemplary writing appropriate to the discipline. Class responsibilities achieved. Assignments must be of consistently high quality in terms of content and execution. Examinations will score in the range of 90% and above. Final project complete, original, or innovative.

B+ 87-89, B 83-86, B- 80-82%

To earn a B: All assignments must be completed and demonstrate general comprehension of conceptual as well as critical content. Assignments will exhibit thoughtful analysis and effort should be made at conceptual synthesis. Class responsibilities achieved. Papers will be carefully proofed for grammatical and typographical errors and exhibit very few writing problems. Assignments must be of good quality in terms of content and conform to standards appropriate to the discipline.

Exams may score in the 80% and above range. Final project completed and original or innovative.

C+ 77-79, C 73-76, C- 70-72%

To earn a C: At least 80% of assignments must be completed, and demonstrate general understanding of critical content. Knowledge of basic conceptual material should be demonstrated. Class responsibilities achieved. Assignments will exhibit thoughtful effort with few errors in content. Papers will likely contain grammatical and typographical errors and exhibit general writing problems. Citation standards incorrect. Exams may score in the 75% and above range. Final project completed at average level of competence.

D+ 67-69, D 63-66, D- 60-62%

To earn a D: Failure to turn in assignments in a timely manner or to complete more than 70% of assignments. Only basic knowledge of conceptual material demonstrated. Critical analysis not exhibited, suggesting minimal effort by student. Assignments lack careful or thoughtful effort and several errors in content. Failure to achieve class responsibilities or barely acceptable effort. Minimal engagement in class projects. Papers will likely contain grammatical and typographical errors and exhibit general writing problems. Citation standards ignored. Exams may score below 75% range. Final project completed.

F <60%

To earn an F: Failure to turn in assignments in a timely manner or to complete and submit more than 50% of assignments. Basic knowledge of conceptual material and critical analysis not demonstrated. Assignments exhibiting a lack of careful or thoughtful effort and major errors evident in content. Papers will likely contain grammatical and typographical errors along with general writing problems, especially in word usage. Citation standards ignored. Exams may score below the 60% range. Final project possibly incomplete or late, or failure to take the scheduled exams.

Grade I: Special circumstances. Failure to complete and submit better than 60% of assignments owing to extraordinary causes as defined by University policy. Must complete Final Exam. To make up this grade will require an additional project at instructor's discretion.

**IMPORTANT:** Read the syllabus, familiarize yourself with Canvas, and keep up with the reading. Your presence in class is very important, if you miss a day you are responsible to get the notes from a classmate. If you have any questions or issues do not hesitate to contact me or see me during office hours. Do not wait too long to communicate if you are having problems in class or with the class material. Your success in the class depends on your understanding of the material and completing the assignments on time. I strongly encourage you to reach me through email or in person for any questions you may have that are not already addressed in the syllabus or Canvas.

Success in this course is based on the expectation that students will spend, **for each unit of credit, a minimum of forty-five hours over the length of the course** (normally 3 hours per unit per week with 1 of the hours used for lecture) for instruction or preparation/study or course related activities including but not limited to internships, labs, clinical practice. Other course structures will have equivalent workload expectations as described in the syllabus.
