

2021 **Applied Programming Experiences (APEX)** Summer Workshop

APEX (Applied Programming Experiences) Summer Workshop

- Bring together community college faculty for APEX curricula design and pedagogy
- APEX aims to expose diverse students to programming by embedding programming modules into existing introductory Statistics and Biology courses.

August 4 (Wednesday), 2021
9:30 a.m. to 3:30 p.m.
via Zoom

We invite teams from campuses to join us as we:

- Present pilot APEX modules and obtain feedback
- Discuss ideas for a broader adoption of APEX curricula
- Share best practices on inclusive pedagogy
- Explore ways to provide faculty development and support
- Build community among faculty from community colleges and four-year universities
