

**APPLIED PROGRAMMING EXPERIENCES**

## **2022 APEX (Applied Programming Experiences) Summer Workshop**

- APEX aims to expose diverse students to programming by embedding Python-based computing modules into existing introductory Statistics and Biology courses.
- Provide training and support for faculty to adopt APEX modules for their courses.

---

### **2022 APEX Summer Workshop**

August 4 (Thursday), 2022 9:30 a.m. to 4:00 p.m.  
Engineering Room 285, San Jose State University

### **Introduction to Python Workshop (Optional)**

August 3 (Wednesday), 2022 9:30 a.m. to 3:30 p.m.  
Engineering Room 285, San Jose State University

---

We invite teams from campuses to join us as we:

- Present APEX modules and instructional resources
- Provide hands-on experiences for faculty to learn APEX modules
- Discuss best practices for adoption of APEX modules
- Explore ways to provide faculty development and support throughout the academic year
- Build community among faculty from community colleges and four-year universities
