Course Description

In this course students will learn to make prints using traditional and contemporary printing methods. From archaic processes such as hand-set lead and wood type to Photoshop and Illustrator created images. This class focuses on multiple relief printing methods. We will explore pros and cons of each method and how to select the most advantageous process for the project at hand.

The class consists of 4 main projects that scaffold onto one another starting with one-color one-process printing, ending with a multi-color/multiprocess print. Each new project will be introduced to the class from a historic context along with demos and examples.

Course Format:

This course will be taught in a hybrid form. We will be meeting in person for demonstrations, dark room/digital output and letterpress projects. In order to keep social distance no more than 12 students will be allowed in the studio at any time. Students will only have access to the studios during their assigned days and times. Proposed in-person dates are: 8/25,8/27, 9/8, 9/10,9/24, 9/29,10/1,10/20,10,22, 11/5, 11/10,11/12, 11/17, 11/19

For the online portion of our class. Students will require a computer or other technology capable of internet connectivity, preferably high speed WIFI. We will be using ZOOM meeting software. All projects will be photographed and uploaded to canvas. Students may use their phone camera for said documentation. Zoom link will be provided via Canvas.

During on line class questions and comments may be entered anytime during the session in the “chat” box. Students are asked to remain on mute until called on to speak. Students wishing to speak should use the “hand raise” icon in the participant list. It is preferable to have your video on. Prepare as you would for in person class, that is to say dress appropriately. Students are asked to arrive on time for the Zoom classes. Late arrivals may have to wait a few minutes before entering the Zoom session as late admission requires intermittently checking the “waiting room.” All sessions will be recorded and uploaded to Canvas.”

Communication

We will communicate via Canvas, where all course materials such as syllabus, handouts, notes, assignment instructions, etc. can be found. Students are responsible for checking weekly.

Course Goals

Upon successful completion of this course, students will be able to:

1. Compose, create and print a matrix (relief and letterpress)
2. Communicate with technical print language
3. Calibrate an etching press for different matrixes
4. Print a consistent and clean edition
5. Utilize the Vandercook press for both letterpress and relief print
6. Understand and use a print shop and the materials and tools safely.
7. Create a multi-color reduction print on the etching press
8. Create a multi-block print on the etching press and/or the Vandercook press
9. Create a combination print (typeset, polymer and/or relief) on the Vandercook press

Course Goals and Student Learning Objectives

LO1: Learn basic processes and approaches of relief printmaking

LO2: Learn the safe use of basic printmaking studio equipment and materials

LO3: Develop and apply a working understanding of effective imagery, composition, and aesthetics within each printmaking medium.

LO4: Learn the history and relevance of relief printmaking and letterpress in both contemporary art and design

LO5: Learn proper presentation of finished prints, including signing and editioning,

Course Requirements and Assignments

SJSU classes are designed such that in order to be successful, it is expected that students will spend a minimum of forty-five hours for each unit of credit (normally three hours per unit per week), including preparing for class, participating in course activities, completing assignments, and so on. More details about student workload can be found in [University Policy S12--3](http://www.sjsu.edu/senate/docs/S12--3.pdf) at <http://www.sjsu.edu/senate/docs/S12--3.pdf>.

Project Deadlines

Deadlines are listed in the Course Calendar. Any work not turned in on the date it is due is considered late. Ten percent will be deducted from the grade for late work. In addition, it is important to participate and engage with class critiques – you will learn as much from your fellow students as from your instructor in these activities, as the dialogue that develops around a project is essential to an artist's growth.

Special circumstances will be taken into consideration (e.g. illness, court appearance, death of a relative.) For information about majors and minors in Art & Art History, for change of major/minor forms and a list of advisors: <http://www.sjsu.edu/art/> or the Art & Art History department office in ART 116, 408- 924-4320, art@sjsu.edu.

Final Examination or Evaluation

The Final Examination requirement will be met by completing a final project. Final Projects are installed salon style in one of the school galleries (if available, if not we will conduct final project critique in the classroom). All projects are due on the last day of class. Half the class will present on that day, the other half will present during finals week.

Grading Information

Grades will be based on a culmination of all projects completed in class (80%), class participation in critiques and in-class clean up duties (10%), and (10%) participation in the community print shop clean up at the end of the semester.

Projects will be graded based on the rubric for each project. Rubrics will be posted on our CANVAS site. You will be evaluated on your grasp of essential processes, resolution of ideas, level of craftsmanship and presentation, and completion and timeliness of the projects and assignments.

Grades will be assigned according to University policy from A to F as outlined in the SJSU catalog. All work must be finished and turned in according to ascribed deadlines and instructions.

Your grade will be based on my assessment of your work, based on the criteria and rubric listed for each project. The assignments are designed to test your ability to creatively apply the concepts from lectures and demos to specific problems. These skills will improve as you apply them to solving incrementally more difficult problems over your college career and beyond.

Rubrics will be posted to Canvas and can be reviewed at any time during the development of a project.

Note that “All students have the right, within a reasonable time, to know their academic scores, to review their grade--dependent work, and to be provided with explanations for the determination of their course grades.” See [University Policy F13--1](http://www.sjsu.edu/senate/docs/F13--1.pdf) at <http://www.sjsu.edu/senate/docs/F13--1.pdf> for more details.

Classroom Protocol

General

- You are absolutely expected to be inclass, on time, ready to work
- Demonstrations, important announcements, changes to the schedule all begin in the first 5 minutes of class time. Being late to these announcements negatively affects your participation grade
- Always abide by general shop safety protocol as outlined in class and posted signs.
- No one other than enrolled students are allowed in the studio
- Clean up the entirety of your workspace, including tools, sinks, table tops. Make sure rags are wrung out and or put in the dirty bin. Make sure that the water, lights, and fans are turned off.
- other students and classes are held in this classroom. We must be respectful of them and keep things clean and organized.
- Failure of maintenance of these studios results directly in limited studio time.

Clothing

- Always wear close--toed shoes with good soles during class and lab hours even if you are not operating equipment. There are a lot of heavy machinery and/or water in these labs.
- Do not wear your nice clothes, Printmaking is a messy endeavor.
- Keep long hair securely pulled back and remove any dangling jewelry or accessories (such as earbuds) before operating equipment.
- Remove any loose clothing that could get caught up in equipment prior to operation.

Demos and Studio days during class time

- You are required to attend all demos. If you miss a demo, you need to contact me and make arrangements to review what was missed
- In order to be successful, you are expected to use this studio outside of class time. It is your responsibility to be in class a minimum of **12** class periods on days we have open studio time. This enables you to participate in the larger culture of this class, it also allows me to have more one-on-one time with you and give you additional assistance and feedback on your work. Simply getting a project done without ever being present in class during open studio hours will negatively affect your grade.

Open Lab Hours

- You are expected to put in 3 hours of work time outside of class time per week

Laptops and cell phones

- Laptops and cell phones are to be used for research ONLY. Your social life can wait.
- Put your cell phone away. This is about being respectful to your professor and fellow students. I do my best to make demonstrations and lectures informative, humorous and succinct. You will do your best to give 100% of your attention for these relatively short moments. During studio days, if you work better with music, you may use one bud. The other ear should be alert to your surroundings

UNIVERSITY POLICIES:

Per University Policy S16-9, (<http://www.sjsu.edu/senate/docs/S16-9.pdf>), relevant information to all courses, such as academic integrity, accommodations, dropping and adding, consent for recording of class, etc. is available on Office of Graduate and Undergraduate Programs' [Syllabus Information web page](http://www.sjsu.edu/gup/syllabusinfo/) at <http://www.sjsu.edu/gup/syllabusinfo/>"
