Course Description

An intermediate course in which students pursue individual projects. Emphasis on diverse strategies of approach and presentation which culminate in a group exhibition

Course Format -Technology Intensive, Online Course

This course is taught completely online. It is a synchronous course, meaning we meet together via zoom every class. We will begin each class with any new announcements and or questions. Lectures, workshops, and presentations take place the first hour on zoom. We will divide into smaller breakout rooms for in-progress critiques and technical/concept driven workshops. Periodically I will meet with you individually for in progress critiques. In the break our rooms, you are encouraged to work on your class assignments, and utilize your peers for discussions and help. The last part of each class, we will get back together as a fuller class, to conclude the session and take care of any questions or concerns. It is mandatory to attend these classes on zoom. You will need a computer, zoom application, and access to class canvas, google drive, and the internet every class meeting.

Canvas + Google Drive + Zoom- Synchronous on-line meetings and activities

Course materials including syllabus, handouts, notes, assignment instructions, etc. can be found on the [Canvas Learning Management System](#) course login website at <http://sjsu.instructure.com/>. You are responsible for regularly checking Canvas and your @SJSU.edu email account to learn of any class updates. This course will also require Google Drive file submissions. You will receive an invitation to the class google folder via email invitation sent to your SJSU e-mail account. A link to the class google folder may also be found in canvas module for project #1 (upload 6 unique postcards...) It is your responsibility to make sure you have Drive access *before* assignments are due.

Course Goals

Some of the specific skills I hope you will obtain in this course are listed below. If you have other skills you hope to obtain in this course, please let me know and we will figure out together how to succeed in this objective. Working together, one to one, on-line with zoom, will allow individual for individual workshopping on skills you don't currently have but would like to access in order to articulate your art projects for this course.

This course provides students with tools for critical analysis of images. Students will develop a self-determined body of work over the course of the semester and participate in a group project, dealing with environmental issues. The class will be divided into small groups so that individual attention can be placed on each student as they develop this body of serious artwork. The class will exhibit their work on a site at the OSU Museum of Art, in a virtual gallery at the end of the semester, and in a virtual flipbook. This will give students experience in promoting, installing, and exhibiting their artwork. In support of their own ideas, images and video of artist's work will be shown, critically analyzed, and discussions will revolve around the ideas which support each artist's work. Each student will present a photographer and their work, and share this with the class via Zoom. Guest contemporary artists, from around the world, will present their projects and process, providing first- hand information about living as an artist/photographer/filmmaker in the 21st century.

Course Learning Outcomes (CLO) Upon successful completion of this course, students will be able to:

- Develop a self-determined body of work for exhibition
- Critically analyze and write about photographs
- Identify contemporary art making practices
- Identify local museums and on-line exhibition spaces
- Identify contemporary artists who use video, photography and installation as parts of their art process

Students in this course will:

- Write an artist statement and bio aligned with learning objective 2.
- Create a Power Point highlighting a contemporary photographer 2.
- Write reflections on visiting artists presentations aligned with learning objective 4.
- Create a post card series of images, in collaboration with international artists, aligned with objective 1

Class Participation and attendance:

You should attend every class but extenuating circumstances arise that can make this difficult. If you cannot attend a class, please let me know. If circumstances make you miss more than 3 classes during the semester, you may be overextended. I ask that you see me to discuss your options.

All of us in the class, you, me, your peers, have a responsibility to create an environment in which we can all learn from each other. I expect everyone to participate in class so that we can all benefit from the insight and experiences that each person brings.

III. Class Participation:

- Your participation in the form of regular involvement in activities and discussions is not only required but also mandatory. 10% of your final grade will be based on your class participation. Attendance will be taken at the beginning and end of each class session. If you are not on-line, for class, you are not participating.
- The best way to develop your skills and ideas is to be on-line with zoom and actively participate. There will be a number of lectures, demos, and discussions that you will not experience if you are not present.
- This course will not only provide the opportunity for you to build a strong body of your own work, it will also invite you to work in both small and large groups while exploring the dynamics of a collective.
- The success of this class will largely depend upon a strong group dynamic and spirit of cooperation, which you will be responsible for building together. Consider yourself a member of a creative team, working closely with your peers (while developing your own work).
- Experimentation, risk taking, research and sharing knowledge and skills (teaching) will be required of each individual.

“Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally three hours per unit per week) for instruction, preparation/studying, or course related activities, including but not limited to internships, labs, and clinical work. Other course structures will have equivalent workload expectations as described in the syllabus.”

Grading Information

Below are a few samples of accessible grading scale in table and non-table format. You can use either one or create your own grading scale as long as it is accessible with logical reading order. Different screen readers may read texts differently. The “+/-“ may not be read out loud. It is always a good practice to spell them out and spell out any abbreviations or make a reference of your abbreviation when used for the first time.

<i>Grade</i>	<i>Points</i>	<i>Percentage</i>
<i>A plus</i>	<i>960 to 1000</i>	<i>96 to 100%</i>

<i>A minus</i>	<i>900 to 929</i>	<i>90 to 92%</i>
<i>B plus</i>	<i>860 to 899</i>	<i>86 to 89 %</i>
<i>B</i>	<i>830 to 859</i>	<i>83 to 85%</i>
<i>B minus</i>	<i>800 to 829</i>	<i>80 to 82%</i>
<i>C plus</i>	<i>760 to 799</i>	<i>76 to 79%</i>
<i>C</i>	<i>730 to 759</i>	<i>73 to 75%</i>
<i>C minus</i>	<i>700 to 729</i>	<i>70 to 72%</i>
<i>D plus</i>	<i>660 to 699</i>	<i>66 to 69%</i>
<i>D</i>	<i>630 to 659</i>	<i>63 to 65%</i>
<i>D minus</i>	<i>600 to 629</i>	<i>60 to 62%</i>

Grading Information

The work created in class will be evaluated based on the following criteria. Extra credit paper about an off-campus art gallery or museum is possible. Grades go down half a grade for each day a project or paper is late.

- A Outstanding: thoughtful and intelligent ideas presented in a clear, organized, and engaging manner; among the very best.
- B Above Average - Good: the ideas are interesting and successfully presented; shows potential, but not necessarily distinctive; roughly equal in quality to the majority of work completed by other students.
- C Average - mediocre: achieves minimum requirements of the assignment, but not particularly clear, nor ambitious. Quality of work is below that of most other projects submitted. May be above average idea presented in incomplete state.
- D Unsatisfactory: does not satisfy the minimum requirements of the assignment; generally unsatisfactory in terms of quality and clarity.
- F You didn't submit an assignment

Absences, and Late Assignments

- It is your responsibility to make up missed class sessions or late work. If you're going to miss a class, please send me an email ahead of time, and I'll let you know what you will be missing. Many class lectures and demonstrations cannot be repeated. Any deadline missed will result in lowering the assignment grade one letter for each week that it is late. Again, talk to me if you are having problems.
- **Do not miss critique days**, even if you don't have work to show. Assignments take two days to critique in a class of this size. I expect you to **attend both days of the critique**. Failure to do so, will lower the given assignment grade by a half letter grade, and will affect your participation grade.

Additional Note:

This syllabus is subject to change, in the event of unforeseen circumstances, or in the case that changes will significantly enhance the quality of the course. Students will collectively have the opportunity to shape the ways in which the course unfolds.
