### **Course Description**

In this course we will explore a wide range of expressive possibilities of drawing specifically, and our art practices on a fundamental level. We will look at the function of our drawings and examine how and why we make the artistic choices that we do. We will explore how to ask questions through the art making process, how to discover and structure our artistic explorations, and how to use those structures in the creative process.

Throughout the course we will explore questions of process, materials, intention and discovery and how they play a role in the conception and production of our work. A major objective for all of our projects will be to recognize where and how our artistic choices are made, and how we can structure those choices for an inquiry based practice.

## **Course Goals and Student Learning Objectives**

Upon successful completion of this course, students will be able to:

To create an awareness of the act of drawing's ability to represent interior states of mind and project feelings.

## **Course Requirements and Classroom Protocol**

Objectives for each class will be outlined at the start of each day. It is imperative that you arrive to class on time and with all materials necessary, ready to work.

The structure of the course is one that encourages students to participate and take responsibility for their own learning experience. Think of your time in this class as a laboratory, where you are encouraged to explore the concepts and topics set forth.

It is important that all students feel safe and comfortable in our class so as to be fully engaged with their work and the works of others, any Disruptive Conduct will not be tolerated and will

result in one being asked to leave class and/or any further actions deemed necessary by myself or the institution.

Throughout the course we will conduct critiques and discussions. These may focus on in class work, homework, or other topics. Participation from all students is required.

Due to the online nature of the course this semester it is even more important for you to be engaged and active for your own learning experience. The online environment will introduce some new challenges that we will all face together. I am here to help in any way that I can, but I need you to participate and be proactive with your communication. Since I can't walk around the classroom and look over your shoulders and interject with questions, advice and feedback as I normally would, I am much more dependent upon you, documenting your work, sending it to me, and asking questions. Tell me how I can help, if something doesn't make sense, or if the format or structure of the class is creating challenges for you, anything insight into how I can best help you.

I also anticipate that it will take a little bit more effort to foster the sense of community that grows in our classes and is a critical part of everything we do. Meeting online isn't the same as being in person, but I hope to make it as personable as possible. I encourage and request that you turn your cameras on if possible, speak up, ask questions, share your thoughts, the dialogue that surrounds the ideas and exercises that we explore is where we really make new discoveries—be present and take part.

Email is the best way to get in touch with me outside of our scheduled class times. Please put your course number in the subject line when you send an email. My office hours are Tuesdays and Thursdays from 11AM-12PM. Office hours are online, let me know if you are interested in setting up a meeting.

## **Assignments and Grading Policy**

Grading will be based upon a combination of “in class work”, homework and participation.

In class work consists of all work made over the course of the semester, due to the nature of the course this semester all work will be done from home. Students are also required to maintain a portfolio of all work throughout the semester.

Homework assignments will be assigned weekly and will vary in scope and concept, but will coincide and aid the in class work. It is your responsibility to know what has been assigned and when homework is due.

Participation includes each student's engagement with their work and the work of their peers both in synchronous class sessions and asynchronous canvas activities.

Assignments will all be turned in online via canvas.

ClassWork/ Home Work	75%
Participation	25%

Grade percentages are as follows:

A: 93-100, A-:90-92, B+: 87-89, B: 83-86, B-: 80-82, C+: 77-79, C: 73-76, C-: 70-72, D+ 67-69, D: 63-67, D-: 60-62, F: 0-59

Due to the nature of the course it is imperative that you attend all classes. In class work and participation makes up a large portion of your course grade. In the event that you must miss a class it is always better to notify me ahead of time so that appropriate alternatives can be made. Much of the work that you make this semester might end up being produced outside of our normal meeting schedule. There is flexibility there, and I am happy to help make this new learning environment as successful as it can be. But I can't help you if I am not seeing the work. So be sure to use our class time and be in communication with me, so that I can adequately provide you with feedback and guidance.

University policy F69-24, "Students attend all meetings of their classes, not only because they are responsible for material discussed therein, but because active participation is frequently essential to insure maximum benefit for all members of the class. Attendance per se shall not be used as a criterion for grading."
