Course Format

Technology Requirements

This class makes extensive use of the latest version of Adobe Photoshop CC. You will need a computer capable of running Photoshop CC and a high speed internet connection to access online class content. All assignments, readings, handouts, and relevant class info will be located on the *CANVAS Portal*. You are responsible for accessing these materials when made available (and printing them out if you choose). Due to our efforts to make the School of Art and Design a “paperless” environment hard copies will NOT be handed out in class.

Course Description

An intermediate level survey course investigating the unique possibilities afforded by contemporary digital imaging. Includes preparation of images for presentation print, video, or web. Emphasizes making digital tools relevant to the ongoing development of student work and professional workflow and image editing methods. Photo 40, Beginning Photography is the prerequisite for this class.

Course Learning Outcomes (CLO) (Required)

Upon successful completion of this course, students will be able to:

1. Gain proficiency in or further develop Photoshop skills
2. Gain proficiency in or further develop digital video editing skills.
3. Gain a thorough grounding in current professional practice and digital workflow
4. Learn to use your digital skills to complete fine art projects with interesting content and strong concepts
5. Develop a firm understanding of the variables involved in digital output
6. Learn to work within deadlines: complete three projects and a final, in class exercises, and reading/writing assignments within assigned deadlines
7. Will have proficiency in image digital image editing and production
8. Will be able to demonstrate proficiency through class projects and Testing

Final Examination or Evaluation

Final exam will take place according to the Spring 2021 final exam schedule. Exam will be available online only via your Canvas portal.

Grading Information

The work created in class will be evaluated based on the following criteria:

A Outstanding: thoughtful and intelligent ideas presented in a clear, organized, and engaging manner; among the very best.

B Above Average: the ideas are interesting and successfully presented; shows potential, but not necessarily distinctive; roughly equal in quality to the majority of work completed by other students.

C Average / Mediocre: achieves minimum requirements of the assignment, but not particularly clear, nor ambitious. Quality of work is below that of most other projects submitted. May be above average idea presented in incomplete state.

D Unsatisfactory: does not satisfy the minimum requirements of the assignment; generally unsatisfactory in terms of quality and clarity.

F You didn't submit an assignment.

Determination of Grades

Your final grade will be based on 6 projects (total of 65%), a midterm practical exam (15%), and class participation (20%).

Reading/writing Assignments & journals

In addition to your projects, I will give short classwork assignments, reading assignments, and discussion topic assignments, which will be addressed during our class meetings. These fall under your Class Participation grade.

Class Participation

Participation is more than just showing up. Participation reflects the expectation that each student attends class; is on time; contributes positively to BOTH THE CANVAS DISCUSSION BOARDS AS WELL AS THE CLASSROOM LEARNING ENVIRONMENT by being attentive, by asking questions, by participating during critiques, and by working on the given assignment. In general, lecture and demonstrations will begin the class session followed by hands on projects. Which means if you are not present, you will miss the demonstration and all of the witty banter that I encourage in each of my classes. Class participation cannot be made up; in fact I rarely ever accept any late work (but more on that later). Class participation is also 20% of your grade. If you have an extenuating circumstance that is going to prevent you from attending, it is your responsibility to make me aware, and please do so sooner rather than later.

Make Ups and Late Work

I don't believe in accepting late work. It's been my experience that late work is typically of poor quality, or seems rushed in an attempt to get it done solely for the sake of getting it done, rather than an attempt to create something of any real significance. But, putting my own experience aside, accepting late work reinforces bad habits for the students. When doing a job or for a client or creating work for a gallery - late work is unacceptable. So, in this respect, I would be doing you (a future professional) a disservice if I accept your late work. However, I do believe that every once in awhile, extreme circumstances can sometimes prevent someone from doing their best work. If you find yourself in this situation, give me *something* by the deadline. Show me

that you at least tried to meet the deadline, and if your project sucks, tell me that you can do to make it better. I've been known to cut students a break now and then. I may give you a chance to re-do it and make it better. This is you education, and you choose the level of commitment to each piece of art you create.

If you miss class, it is your responsibility to get yourself up to speed. If you know you will be unable to attend a class, please send me an e-mail (preferably before the missed day), and if appropriate, I'll do my best to let you know what you will be missing. Another good resource is to make a friend in the class; they may be able to help you out too. Many class lectures and demonstrations cannot be repeated or made up. Any deadline or class missed will result in lowering of your grade. Again, talk to me if you are having problems. **Do not miss critique days. Do not leave after your work has been critiqued.** Assignments may sometimes take two class sessions to review all of the work in a thoughtful manner. **I expect you to attend both days of the critique.** Failure to do so, will seriously affect your grade (in a bad way).

Classroom Protocol

Laptop Etiquette: Please use your laptops in respectful manner. It is fine to have laptops open during open lab time, or during demos or lectures when asked to follow along or take notes. Laptops should remain closed during critiques or films. Answering email, instant messaging, running irrelevant Google searches or working on projects from another class are all off limits during anything other than open lab time.

Cell Phone Etiquette: Ringers on cell phones should be turned off during class time. Leaving the class to take a call should only be done in emergencies. Web browsing or other handheld device use is not permitted during class activities.

University Policies

Per University Policy S16-9, university-wide policy information relevant to all courses, such as academic integrity, accommodations, etc. will be available on Office of Graduate and Undergraduate Programs '[Syllabus Information web page](http://www.sjsu.edu/gup/syllabusinfo/) at <http://www.sjsu.edu/gup/syllabusinfo/>'"
