Course Description

Elements and principles of drawing. Studio practice emphasizing line, shape and light-dark used in visual art and design. This class is an introduction for beginners to the basic principles and materials necessary to develop drawing skills. A variety of approaches will be examined and discussed in order to illustrate the diverse nature of drawing.

Course Goals and Student Learning Objectives

Course projects are designed to familiarize students with the basic mechanics of traditional drawing practice and media. Students will learn various drawing techniques in order to represent still life objects in a convincing manner. Technical demonstrations are designed to enable students to record their visual responses to a variety of subjects. The broader objective is to introduce an awareness of historical drawing approaches with an emphasis on 20th century masters.

Upon successful completion of this course, students will be able to:

CLO 1: Create works in a wide range of media and materials, including but not limited to; charcoal, pencil and graphite, ink, various drawing tools, and a variety of papers that are instrumental in making drawing successful.

CLO 2: See and visually comprehend, specifically in relation to the process of drawing.

CLO 3: Understand and apply pictorial principles, including: the picture plane, compositional frameworks, and the overall design of pictorial space.

CLO 4: Demonstrate an awareness and sensitivity to the nature and importance of line, weight, form, volume, texture and pattern.

CLO 5: Discern the challenging applications of tone and value and demonstrate sensitivity to issues of light and space.

CLO 6: Employ drawing as an investigative process, in a variety of applications, and communicate their experiences through the act of drawing and practice.

Grading Policy

Grades will be assigned on the basis of the 12 drawing projects required for the class.

All project grades will be assessed on a scale of 0-10

Grades are based on the following criteria:

1. Effort
2. Attention to learning
3. Technical accomplishments and execution
4. Formal development and creative solution of each assignment

Note: I've tried to keep this as minimal as possible to spare expense.

Drawing board is optional really since you might work on a tabletop.

The advantage of a board is that it can be slanted toward you by placing a book under its top giving you a more comfortable position for your hand. You might have a board hanging around. You don't need clamps - masking tape or push pins work as well.

For convenience I've used Dick Blick to show examples, but there are other online art material suppliers such as Rex Art and Jerry's Artarama Art Supplies that you can order from.
