

The CASA CARHS Research Forum presents....

Dr. Lonnie Snowden:

***Fixed and random effects models
for understanding mental health
treatment disparities and policy
change***

**Thursday, November 29, 2012
4:00-5:15 PM
MH 438A**

Lonnie R. Snowden is Professor of the Graduate School in the School of Public Health's Health Policy and Management Program at the University of California, Berkeley. Dr. Snowden's research focuses on mental health and other health services disparities in access and quality of care, and on understanding disparities from social and health policy and systems perspectives. He has published more than 145 peer-reviewed research articles and book chapters, and his research has been continuously grant-supported for more than 25 years by awards from the National Institute of Mental Health and other sources.
