The College of Health and Human Sciences (CHHS) has initiated a requirement for students to participate in an international experience prior to graduation. The goal of CHHS's international experience requirement is to introduce students to international and intercultural perspectives in order to prepare them to live and work in an increasingly globalized world.

Studying abroad is a high-impact educational practice that has been shown to increase student success and employability after graduation. The CHHS International Experience is designed to provide high-quality global learning experiences that are flexible, affordable, and relevant to students' degree programs and professional goals.

WELL FITTED CLOTHING IS THE KEY

The main difference is that clothing in Italy generally tends to cater to a more fitted, tailored appearance. A tailored look is the true secret to the Italian everyday fashion observed by visitors.

ITALIAN MEAL STRUCTURE VARIES BY REGION BUT IS SIMILAR

- Italian breakfast (prima colazione) consists of hot milk with coffee (caffè latte) or coffee with bread or rolls with butter and jam.
- Lunch is usually regarded as the most important meal.
- Many people have a mid-afternoon snack (merenda), generally consumed after school or in mid-afternoon.
- For supper (cena), people tend to eat sometimes a primo or a soup

EATING OUT ETIQUETTE

- Do not begin eating until the host says. "Buòn appetito!"
- Do not switch knives and forks. The knife remains in the right hand, and the fork remains in the left
- In informal restaurants, you may be required to share a table.
