The College of Health and Human Sciences (CHHS) has initiated a requirement for students to participate in an international experience prior to graduation. The goal of CHHS’s international experience requirement is to introduce students to international and intercultural perspectives in order to prepare them to live and work in an increasingly globalized world.

Studying abroad is a high-impact educational practice that has been shown to increase student success and employability after graduation. The CHHS International Experience is designed to provide high-quality global learning experiences that are flexible, affordable, and relevant to students’ degree programs and professional goals.

South Korea, country in East Asia. It occupies the southern portion of the Korean peninsula. The country is bordered by the Democratic People’s Republic of Korea (North Korea) to the north, the East Sea (Sea of Japan) to the east, the East China Sea to the south, and the Yellow Sea to the west; to the southeast it is separated from the Japanese island of Tsushima by the Korea Strait. The capital is Seoul (Sŏul).

**Korea’s official language is...**
Korean but there are several different dialects depending on the region.

**Getting around is easy**
- Subway networks in big cities spider out from metro centers into far-flung corners of the countryside.
- Almost always a local bus available to take you that extra mile.
- In a rush? Korea also has an extensive domestic air network.
- Want to enjoy the sea? Take a ferry.
