

Want to Work with Top Companies in Silicon Valley?

Join the **M.S. Program in MATERIALS ENGINEERING** at SJSU!

GETTING STARTED

PROGRAM DETAILS

- 30 units requirement
- 5 core MatE courses*
- 3 elective courses (9 units total)
- 3 research project courses
- Graduate classes are in the evenings for the convenience of working students
- Current SJSU students may take ChE 200 to get a head start on the program

*Students without a B.S. in MatE need several additional UG courses

See details at

<https://www.sjsu.edu/cme/programs/materials-engineering-ms/>

APPLICATION DETAILS

PREREQUISITES

- B.S. degree in Materials Engineering**
Or closely related degree in Engineering (Chemical, Electrical, Mechanical, Biomedical)
Or Science (Chemistry, Physics)
- GPA of 2.7 or above**
In last 60 units of B.S. Degree
- TOEFL***

*For international applicants

AVERAGE PROGRAM LENGTH

2 Years, Full-Time

WORK WITH FACULTY ON RESEARCH IN

- Batteries
- Additive Manufacturing
- Biomedical Devices
- Nanocomposites
- Molecular Simulations
- Biomaterials

APPLICATION DEADLINES

Interested in applying, see steps here:
