

Are you on the path to becoming a School Counselor? Are you interested in working with urban youth?

The San Francisco Unified School District offers rich learning experiences working within our middle and high schools for individuals pursuing their Masters in School Counseling and Pupil Services Credential (PPS).

The first step in securing an internship in SFUSD is to attend an informational interview session. You will receive an overview of the requirements for School Counseling interns and participate in an interviewing activity and screening process. Please bring a letter of introduction, resume and three references. Please select a date and RSVP (see below links).

2014 Information Session Dates:
