Student Learning Outcomes

Upon successful completion of this course, students should be able to:

- do light duty programming
- gain an appreciation of what computer scientists do, and whether a CS major is right for you
- study the impact of computing on society (viruses, e-voting machines, use and abuse of artificial intelligence, etc. etc.)
- have fun programming with animations, images, sounds, and games

Course Mechanics

Laptops
>You will be required to bring a wireless laptop to all (!) classes and exams.

Wireless network access
>You use the same username/password as for my.sjsu.edu
>If you do not have a SJSUOne account: Go to [SJSUOne](http://its.sjsu.edu/services/sjsuone/) at http://its.sjsu.edu/services/sjsuone/ to sign up.

Homework submission
>You will submit your homework and exams in Canvas.
>Homework is due at 1 AM on the due date but you will be given a grace period until 8 AM in the morning.
>If your Internet is down, find some other way to submit your work. No late work is accepted. Start early. You may not get any help at 3 in the morning.

Workload
>Success in this course is based on the expectation that students will spend, at least 6 hours per week for working on the homework and the programming assignments.

Course Requirements

Exams
>One in-class exams (50 points) Exams cannot be made up, except for reasons of illness, as certified by a doctor, or documentable extreme emergency. Makeup exams may be oral.

Programming Assignments
>An assignment alomost every week. Worth between 5 and 10 points, depending on the complexity. Schedule your time well to protect yourself against unexpected problems. I suggest you ignore the official deadlines and complete the assignments 24 hours earlier. Late work is not accepted, and there is no extra credit or makeup work. All homework is due at 1AM, but I will give you an grace period and accept assignments until 8AM. Do not ask for an additional extension because your Internet went down at 7:58.

Participation and labs
>I expect each student to be present, punctual, and prepared at every scheduled class. You will submit the in-class lab work to Canvas.

Final Project
>One project (50 points)

Time Spent
>Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of forty-five hours over the length of the course for instruction or preparation/studying or course related activities

Miscellaneous Policies

Individual Work: All homework and exams must be *your own individual work*. It is ok to have general discussions about homework assignments, or read other material for inspiration. You may *never* copy anything from anyone without attribution, with these exceptions—you may copy from the textbook, the labs, or anything we do in class. For homeworks and exams, you may not copy anything from any other student at all, and you may not collaboratively produce results in pairs or teams.

Publicly Viewable Work: Your class work (including homework, exam, and project work) may be viewable by other students of this course. Your grades will not be viewable by others.

Copyright of Materials: All materials created by the instructor for this course, including lectures, handouts, homeworks, exams, solutions, projects, and so on, are copyrighted property of the instructor. You may transscribe or record lectures or copy course materials for the use of yourself and other students registered in this course. You may not sell or give transscriptions or recordings of lectures or copies of course materials to others without the prior written consent of the instructor.

University Policies

General Expectations, Rights and Responsibilities of the Student

As members of the academic community, students accept both the rights and responsibilities incumbent upon all members of the institution. Students are encouraged to familiarize themselves with SJSU's policies and practices pertaining to the procedures to follow if and when questions or concerns about a class arises. See University Policy S90–5 at http://www.sjsu.edu/senate /docs/S90-5.pdf. More detailed information on a variety of related topics is available in the SJSU catalog, at http://info.sjsu.edu/home/catalog.html. In general, it is recommended that students begin by seeking clarification or discussing concerns with their instructor. If such conversation is not possible, or if it does not serve to address the issue, it is recommended that the student contact the Department Chair as a next step.

Dropping and Adding

Students are responsible for understanding the policies and procedures about add/drop, grade forgiveness, etc. Refer to the current semester's Catalog Policies section at http://info.sjsu.edu/static /catalog/policies.html. Add/drop deadlines can be found on the current academic year calendars document on the Academic Calendars webpage at http://www.sjsu.edu/provost/services /academic_calendars/. The Late Drop Policy is available at http://www.sjsu.edu/aars/policies

/latedrops/policy/**.** Students should be aware of the current deadlines and penalties for dropping classes.

Information about the latest changes and news is available at the [Advising Hub](#) at http://www.sjsu.edu/advising/.

Consent for Recording of Class and Public Sharing of Instructor Material

[University Policy S12-7](#), http://www.sjsu.edu/senate/docs/S12-7.pdf, requires students to obtain instructor's permission to record the course and the following items to be included in the syllabus:

Common courtesy and professional behavior dictate that you notify someone when you are recording him/her. You must obtain the instructor's permission to make audio or video recordings in this class. Such permission allows the recordings to be used for your private, study purposes only. The recordings are the intellectual property of the instructor; you have not been given any rights to reproduce or distribute the material.

You need to request this permission in writing.

Course material developed by the instructor is the intellectual property of the instructor and cannot be shared publicly without his/her approval. You may not publicly share or upload instructor generated material for this course such as exam questions, lecture notes, or homework solutions without instructor consent.

Academic Integrity

Your commitment, as a student, to learning is evidenced by your enrollment at San Jose State University. The [University Academic Integrity Policy S07-2](#) at http://www.sjsu.edu/senate/docs/S07-2.pdf requires you to be honest in all your academic course work. Faculty members are required to report all infractions to the office of Student Conduct and Ethical Development. The [Student Conduct and Ethical Development website](#) is available at http://www.sjsu.edu/studentconduct/.

The University emphasizes responsible citizenship and an awareness of ethical choices inherent in human development. Academic honesty and fairness foster ethical standards for all those who depend upon the integrity of the university, its courses, and its degrees. University degrees are compromised and the public is defrauded if faculty members or students knowingly or unwittingly allow dishonest acts to be rewarded academically. This policy sets the standards for such integrity and shall be used to inform students, faculty and staff of the university's Academic Integrity Policy.

The San José State University Academic Integrity Policy requires that each student: 1. Know the rules that preserve academic integrity and abide by them at all times. This includes learning and abiding by rules associated with specific classes, exams and course assignments. 2. Know the consequences of violating the Academic Integrity Policy. 3. Know the appeal rights, and the procedures to be followed in the event of an appeal. 4. Foster academic integrity among peers.

Attendance:

University policy F69-24 states that "Students should attend all meetings of their classes, not only because they are responsible for material discussed therein, but because active participation is frequently essential to insure maximum benefit for all members of the class. Attendance per se shall not be used as a criterion for grading."

Campus Policy in Compliance with the American Disabilities Act:

If you need course adaptations or accommodations because of a disability, or if you need to make special arrangements in case the building must be evacuated, please make an appointment with me as soon as possible, or see me during office hours. Presidential Directive 97-03 at http://www.sjsu.edu /president/docs/directives/PD_1997-03.pdf requires that students with disabilities requesting accommodations must register with the Accessible Education Center (AEC) at http://www.sjsu.edu/aec to establish a record of their disability.
