

CS 185C-01 Technical Entrepreneurship Bootcamp

Fall 2023

TuTh 3:00PM - 4:15PM

Have an idea for an app or a solution using your CS skills?
Want to learn entrepreneurship from experts in the field?
Want to make yourself an even more desirable new hire?

Join our Technical Entrepreneurship Bootcamp and turn your innovative ideas into a reality!

CS 185C-01 is a bootcamp course in Technical Entrepreneurship, learning to identify, evaluate and capitalize on opportunities. Work in small project teams to create apps and software solutions to solve real-world problems

What you'll learn:

- How to identify and validate market opportunities
- Techniques for developing and refining your product or service
- Strategies for building a business model and pitching to investors
- Essential skills for managing and scaling your startup
