Course and Contact Information

Instructor: Fain (Frank) Butt
Office Location: Online
Telephone: (408) 924-5060
Email: Frank.Butt@sjsu.edu
Office Hours: MW 9:00 PM - 10:15 PM (by appointment)
Class Days/Time: MW 6:00 - 7:15 PM
Classroom: Zoom
Prerequisites: CS157A or previous RDBMS + SQL knowledge

Course Format

All your lab assignments and programming projects must be able to compile and run before submission. Otherwise you will not earn many points if we can’t verify your results. You are expected to spend 15-20 hours a week on homework or programming assignment.

Faculty Web Page and MYSJSU Messaging

Course syllabus and the rest of the course information will be published via Canvas. You are responsible for regularly checking with the messaging system through MySJSU and Canvas to learn of any updates.

Course Description

Computing topics of current interest in industrial practice. This class focuses specifically on database implementation and DBMS Application Development.

The DBMS Application Development section is divided into 2 parts:
- Part 1 Programming Interfaces for a commercial DBMS
- Part 2 Exploitation of SQL Functions

Course Learning Outcomes (CLO)

Upon successful completion of this course, students will be able to:
1. CLO 1 – Use several programming interfaces such as Embedded SQL and JDBC.
2. CLO 2 – Understand the main differences between dynamic and static SQL.
3. CLO 3 – Understand how the data in formatted and stored on the disk.
4. CLO 4 – Understand how an SQL statement is being processed inside the database.
5. CLO 5 – Understand different indexing schemes and their storage implementation.
6. CLO 6 – Understand how current transactions are being processed and synchronized.
7. CLO 7 – Understand how to backup and recover data using different logging methods.
8. CLO 8 – Learn to implement a light-weight relational database with above concepts.

Textbook

Other Readings [Optional]

None

Other equipment / material requirements (include if applicable)

Additional Lecture Slides and class material will be provided

Course Requirements and Assignments

SJSU classes are designed such that in order to be successful, it is expected that students will spend a minimum of forty-five hours for each unit of credit (normally three hours per unit per week), including preparing for class, participating in course activities, completing assignments, and so on. More details about student workload can be found in University Policy S12-3 at http://www.sjsu.edu/senate/docs/S12-3.pdf.

There will be one exam, one project, several lab assignments, several homework and quizzes. All the exams and quizzes will be close book unless noted. There will be no laptops, or any personal digital devices allowed. I strongly suggest that you attend each class and take good notes during the semester. There will be NO make-up exams and quizzes.

All the labs, programming assignments, and related documentation must be handed in electronically. Programs that are handed in after the due date will not be accepted. Additional information about each project will be given in separate handouts. For your project, we will compile and grade your programs using the gcc compiler on Windows and on Mac. Your program needs to be able to compile and execute before you turned it in.

NOTE that University policy F69-24 at http://www.sjsu.edu/senate/docs/F69-24.pdf states that “Students should attend all meetings of their classes, not only because they are responsible for material discussed therein, but because active participation is frequently essential to insure maximum benefit for all members of the class. Attendance per se shall not be used as a criterion for grading.”
**Grading Policy**

<table>
<thead>
<tr>
<th>Component</th>
<th>Points</th>
<th>Percentage</th>
</tr>
</thead>

<tr>
<td>Project</td>
<td>250</td>
<td>25%</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>1000</td>
<td>100%</td>
</tr>
</tbody>
</table>

We do not use the traditional grading scale for grade assignment in this class. The final "letter" grade will be determined from a curve at the end of the semester.

Note that “All students have the right, within a reasonable time, to know their academic scores, to review their grade-dependent work, and to be provided with explanations for the determination of their course grades.” See [University Policy F13-1](http://www.sjsu.edu/senate/docs/F13-1.pdf) for more details.

**Classroom Protocol**

There will be no specific lecture notes given out. Therefore it is to your best interests to attend class and take good notes. You must turn off any cell phone ringer at the beginning of each class!

**University Policies**

Per University Policy S16-9, university-wide policy information relevant to all courses, such as academic integrity, accommodations, etc. will be available on Office of Graduate and Undergraduate Programs’ [Syllabus Information web page](http://www.sjsu.edu/gup/syllabusinfo/)."
