Prerequisites: ANI 122, Passage of Mid-Program Review

Course Description
Conceptual Illustration is an advanced course in illustration professionalism, stressing individual responses to assignments that typify those expected of free lance illustration providers. Prerequisites are ANI 122 and Passage of Mid-Program Review.

Course Goals and Learning Objectives

Course Goals

Examples:
- Develop understanding of and sensitivity to the principles of illustration.
- Introduce the rigorous work schedule demanded of free lance professionals.
- Encourage independence of thought and visual language.
- Familiarize the student with the profession, the art form and its history.
- Encourage the student to explore and pursue art outside the scope of the class.

Student Learning Objectives

Upon successful completion of this program, students will be able to:
Consider the possibilities of pursuing an illustration career without being directly employed on a work for hire basis.
Understand differences in the processes of illustration assignments, quick turn around, long development, personal objectives and interests, reportage and visual journalism, use of unusual materials and different states of mind, varieties of promotion, client contact and business practices.

See the relationship between the objectives of the illustrator and the responsibilities of good citizenship, community and world events.

Develop a sense of the qualities that are important to the illustrator from clarity and readability to originality and credibility.

Required Texts/Readings

There are no required readings for this course, however the following books and other publications are recommended:

“The Shape of Content” Ben Shahn
“The Art Spirit” Robert Henri
“Art of the Western World” Michael Wood
“The Shock of the New” Robert Hughes
“Ways of Seeing” John Berger
The Illustrators Annual (Publication of the New York Society of Illustrators)
“Understanding Comics” Scott McCloud

Other publications of interest:
“American Illustration”
“European Illustration”
“Print” (magazine)
“Graphis” (magazine)
“CA” (magazine)

Course Requirements and Assignments

1. “Generations”. What went before, came next and what followed. History, personal or otherwise. An exploration of research, creation of art elements independently of how they will be used in final combination. Different artistic treatments for each “bit” emphasized.

2. “The Crew of You”. Characters created from different aspects of the artist’s personality come together in a world created with set design and three dimensional modeling to produce an illustration that could inspire potential backers of a story telling project.

3. Text illustration. A given manuscript illustrated in three ways with three different printing limitations: Iconic cover design in graphic simplicity, Pictorial spread in full.
color, Character study in two colors only. Usual author of the script for this assignment is Steven Millhauser, but other texts may be assigned.

4. “Pro / Con”. An examination of editorial opinion illustration presented with an attitude of total advocacy—no subtlety allowed whether positive or negative. Based on issues that are presently in public discourse. Final work must be done in class, within one class period.

5. “Location”. An abbreviated field trip reportage assignment stressing perceptive observation and drawing on the spot, such drawings to be enhanced by additional studio work without losing the effect of the on location immediacy.

6. “I Love You” Creating a work specifically to be given to a person in the artist’s life. Learning how to anticipate and serve another person’s needs and preferences in acknowledgement of that person’s influence on the artist.

Assignments do not have specific weight in overall evaluation. As in an illustrator’s career, it is overall performance that counts. However, if a percentage is required, it would be: 25% for “Generations”, 25% for “Crew of You”. The remaining assignments would divide the remaining 50% evenly with a non graded assignment at the end of the class.

Grading Policy

Grades are based on overall performance, improvement and class participation. The assessment of participation is based on class events. Attendance per se, is not a component in this evaluation. Grades include plusses and minuses. The college requires the following text to appear in this syllabus:

Classroom Protocol.

Students are expected to be on time, to provide explanations for absence, and to behave in a professional manner within reasonable limits of safety and classroom order. Cellphone usage should be limited to important concerns only. Laptop computers are allowed but restricted to applications that are classwork related.

Course Schedule

The instructor reserves the right to set deadlines for assignments as well as the order in which they are given in accordance with his perception of class needs and dynamics. There is no final
exam in this course presently though this may change if such an exam is required by the university. If so, a final exam will take place in the last week of the semester and will consist of a required showing in digital form of completed work from the semester.
