Course Description

Fundamental of animation involving the completion of a series of basic exercises in motion, action analysis and kinetics.

Students are required to complete a series of exercises in kinetics, motion studies, and action analysis. ANI 131 introduces the professional skill set necessary for a career in the expanding industry of images for film, video, internet, software, gaming, and in print.

ANI 131 incorporates learning and classroom strategies not used in most academic environments. Successful students will find it necessary to be self motivated and fully engaged in the material as well as demonstrate competent drawing skills, understand action analysis, and grasp the fundamental principles of physics and animation. Students will be expected to meet criteria established by the instructor, both their class peers and by industry professionals.
Course Goals

- Develop understanding of and sensitivity to the principles of animation
- Introduce the rigorous work schedule that the industry will demand.
- Encourage peer communication and criticism.
- Familiarize the student with the industry, the art form and its history.
- Encourage the student to explore and pursue art outside the scope of the class.

Course Learning Outcomes (CLO)

By the end of this course, students will be able to:

- Incorporate the principles of animation into their animation projects
- Begin to convey convincing weight, timing, emotion, and attitude in their performances
- Put the process of key pose, straight ahead, and inbetween animation into application

Required Texts/Readings

Textbook
The Animator’s Survival Kit, Richard Williams, ISBN: 0-571-20228-4

Other technology requirements / equipment / material

Special animation materials [including a light box] are necessary for this class. We will discuss materials during class. Drawing materials needed other than the animation supplies may include but are not limited to:

- Animation Light Box
- Animation Peg Bar
- 12 field animation paper (11x17 copy paper cut to 11x12.5)
- You will be required to shoot video reference for some of the assignments so you will need access to a digital camera capable of recording video.
- A USB flash drive or external drive for storing data; (8+ GB recommended)
- Laptop
- Tablet and Stylus
- 2D Animation program such as Adobe Flash Animate or ToonBoom Harmony
SJSU students have access to Adobe software for free and can find download information here: http://its.sjsu.edu/services/adobe/index.html

**Course Requirements and Assignments**

A series of animation assignments, in-class exercises, in-progress assignment checks, and weekly drawings will be assigned throughout the semester. All animation assignments and weekly drawings must be posted to the class Google Drive one hour before class for grading. In-class assignments and in-progress grades will be submitted during class. Students are responsible for previewing the animation file before posting to the drive to ensure it plays correctly.

Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally three hours per unit per week) for instruction, preparation/studying, or course related activities, including but not limited to internships, labs, and clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.

**Final Examination or Evaluation**

The final project will be an animated shot focusing on an well-thought acting moment brought to full inbetweened, cleaned up, finished animation.

**Grading Information**

Grades will be assigned according to University policy from A plus through F as outlined in the SJSU catalog. All assignments will be evaluated by how well the student executes the principles of animation and design, punctuality of submission, ability to follow directions, take notes, and participate in class activities.

**Determination of Grades**

30% - Midterm: portfolio of best drawings, folder of revised animation tests
40% - Final Project
15% - Homework Assignments
15% - Class Participation – includes providing peer-critiques to classmates, in-progress assignment checks, being prepared in class

A grades indicate excellent work.
B grades indicate above average work.
C grades indicate average work.
D grades indicate below average work.
