Course Requirements and Assignments

Students will generally have deadlines due every class meeting. These include pre-production assignments in preparation for the 30-second film due at the end of the semester, as well as animation progress.

Students are also required to complete additional drawing or animation projects other than the animation projects. These assignments may be, but are not limited to, figure drawing, animal drawing, and sketching on location.

“Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally three hours per unit per week) for instruction, preparation/studying, or course related activities, including but not limited to internships, labs, and clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.”

Final Examination or Evaluation

Your final exam will be the submission of your completed animated short.

Grading Information (Required)

A series of pre-production assignments, animation deadlines, and drawing assignments will be assigned throughout the semester.

Grades and class status can be checked at any time during the semester by making an appointment during office hours.

Grades will be assigned according to University policy from A through F as outlined in the SJSU catalog. All work must be finished and turned in according to ascribed deadlines.
