

Computer Presentation with HDMI Cable

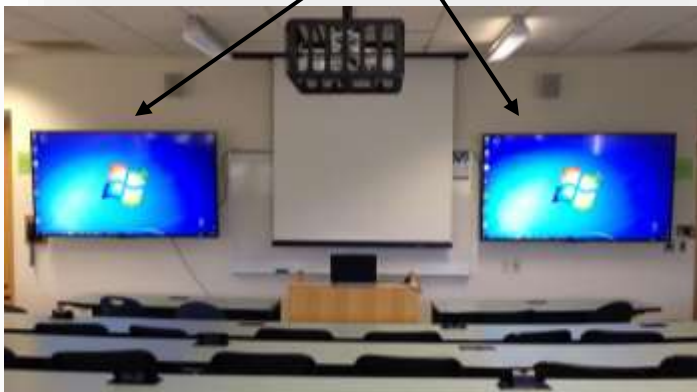

Turn both Monitors ON

Turn both monitors on by pressing the power button on the back of the monitors.

Plug the HDMI Cable into the Computer

Plug the HDMI cable into the computer. The picture appears on both monitors.

Note that the picture will *not* appear on the center screen. Volume adjustments, if needed, can be made using buttons next to power button on back of monitors.

Turn both Monitors OFF

To turn the monitors off, press the power buttons on the back of the monitors.
