

## Computer Presentation with VGA Cable

### Turn Projector ON

Turn projector on by pressing the Projector ON button on the podium control unit.

The projector turns on and defaults to "Computer".

### Plug the VGA cable into computer

Plug the VGA cable into computer. If you need sound, also plug the audio cable into the computer. The pink network cable is optional.

Note that the picture will appear only on the center screen. Volume adjustments, if needed, can be made using the volume buttons on the podium control unit.

### Turn Projector OFF

To turn projector off, press the *projector OFF* button on the podium control unit.
